

In the early 1990s Turkey began to consider several potential structures:

- The Black Sea Economic cooperation(BSEC)
- Free trade agreement with US
- Balkan Cooperation Council
- The Economic Co-operation Organization(ECO)
- Cooperation with Turkic republics (The Collapse of USSR radically improved the strategic position of Turkey)

Hale,2013 This revised

and updated version of William Hale's *Turkish Foreign Policy 1774-2000* offers a comprehensive and analytical survey of Turkish foreign policy since the last quarter of the eighteenth century when the Turks' relations with the rest of the world entered their most critical phase. In recent years Turkey's international role has changed and expanded dramatically and the new edition revisits the chapters and topics covered in light of these changes. Drawing on newly available information and ideas, the author carefully alters the earlier historical narrative while preserving the clarity and accessibility of the original. Combining the long historical perspective with a detailed survey and analysis of the most recent developments, this book fills a clear gap in the literature on Turkey's modern history. For readers with a broader interest in international history, it also offers a crucial example of how a medium-sized power has acted in the international environment.

Turkish-Russian Relations in The Post-Cold War Period: Current Dynamics, Future Prospects Habibe Özdal, Hasan Selim Özertem, Kerim Has, M. Turgut Demirtepe, 2013-07-01. The International Strategic Research Organization USAK has recently published a report named *Turkish-Russian Relations in The Post-Cold War Period: Current Dynamics, Future Prospects*. This report can be evaluated from this perspective as it is the first product of the Track II initiative that has started between the International Strategic Research Organization USAK and the Institute of Oriental Studies of the Russian Academy of Sciences IOS. The first meeting was held in Ankara in 19 February 2013 with participation of Turkish and Russian academicians, bureaucrats, and decision makers. However, it is just the first step and should be taken to a next level by better coordination and planning in the future. One of the main outcomes of this meeting is that there are so many areas waiting to be addressed as there are so many commonalities in the historical and social contexts of the two countries. In this regard, the potential of cooperation in the regional level has not been developed as much as the level of cooperation in the bilateral level. The report tries to cover these issues in three different chapters. In the first chapter, the report focuses on the political aspect of the relations and tries to answer the questions of: How the political relations developed in the last 20 years? What were the main challenges and turning points that helped to establish a vibrant dialogue between the two states? What are the areas that should be addressed in the near future?

Turkey in the 21st Century Özden Zeynep Oktav, 2016-02-17. This unique book investigates the complex transformation of Turkey's foreign policy, focusing on changing threat perceptions and the reformulation of its Western identity. This transformation cannot be explained solely in terms of strategic choices or agency-driven policies but encompasses power shifts and systemic transformations. Is Turkey shifting its axis? Will this affect its traditional Western-oriented foreign policy? The book begins by discussing the relationship between security and globalization using examples of Turkey's regional positioning. It then focuses on to what extent the traditional discourse on security in Turkish politics, which prevailed during the Cold War era,

and beyond has undergone a change in the new era This timely book is a much needed account of how pragmatism rather than ideology is the main determinant in Turkey s current foreign policy and should be read by all looking for a fresh and stimulating take on Turkey s response to globalization and the internationalization of security in the 21st Century **Myth and Rhetoric of the Turkish Model** Anita Sengupta,2014-05-02 The volume discusses what the Turkish Model or Turkish Development Alternative was and why it was promoted in the Central Asian republics immediately following the dissolution of the Soviet Union It argues that the Turkish Model was a myth that transferred the ideal of a secular democratic liberal society as a model for the post Soviet Turkic world and in the process encouraged a Turkic rhetoric that emphasized connection between the two regions based on a common ancestry The volume begins with an understanding of the reality of the Model from a Turkish perspective and then goes on to examine whether the Turkic world as a cultural civilizational alternative makes sense both from a historical as well as contemporary perspective It concludes by looking at the re emergence of the Model in the wake of the events in West Asia in early 2011 and examines how in the light of a search for options the Turkish Model is once again projected as viable The Evaluations and Researches in Administrative and Economic Sciences

İlyas Karabulut,2021-09-15 The Evaluations and Researches in Administrative and Economic Sciences Islamization of Turkey under the AKP Rule Birol Yesilada,Barry Rubin,2013-09-13 This book examines the decade in office of the Justice and Development Party AKP and its efforts to transform the Turkish republic toward a more Islamist oriented system If it succeeds Turkey s dramatic shift will be the most important change in the Middle East power balance since the 1979 Iranian revolution and will have equally devastating effects on Western interests For more than 80 years Turkey has been ruled by the secular democratic structures created by Kemal Ataturk Now however the rise of the Justice and Development Party AKP and its series of electoral victories are creating a new system Whilst portraying itself as a centre right reform party the AKP has been accused of having an Islamist agenda After almost a decade in power there is serious evidence that this claim is true At home the AKP has been changing basic Turkish attitudes and institutions from buying up a large portion of the country s media to revising its laws and even taking the lead in the writing of a new constitution Internationally Turkey has moved away from the West and Israel toward Iran and radical Islamist groups While its intentions and ability to fulfil them are still unclear the AKP has been leading the most important transformation of Turkey since the formation of the republic after World War I This book systematically examines the AKP s ideology support base actions in office and goals This book was published as a special issue of the Turkish Studies **God on Our Side** Shireen T. Hunter,2016-10-04 This timely book offers an accessible introduction to religion in international affairs Shireen T Hunter highlights the growing importance of religion in politics and analyzes its nature role and significance She places the question of religion s impact on global affairs in the broader context of state and nonstate actors weighing the factors that most affect their actions Through the lens of three compelling and distinctive case studies Russia s response to the Yugoslav crisis

Turkey's reaction to the Bosnian war and Europe's policy toward Turkish membership in the EU Hunter demonstrates that religion increasingly shapes international affairs in significant and diverse ways Her book is essential reading for anyone needing a better understanding of why and more important how religion influences the behavior of international actors and thus the character of world politics *Political Psychology of Turkish Political Behavior* Cengiz Erisen, 2016-04-14 The primary motivation for this book is to focus on something crucial that is missing in Turkish political science well founded theories on the Turkish voter and empiricism in scholarly research Given the absence of such theories one could ask what then the best model is for explaining a Turkish citizen's vote choice and political behaviour and what schools of thought Turkish political science has Unfortunately it is not possible to offer a satisfactory response to either question at this point and among the clear deficiencies in the current literature the primary one is the lack of a robust model explaining how Turkish citizens form their political attitudes engage in political participation or cast their votes With these important questions in mind this book aims to generate an interest in the theoretical and methodological tools that one can employ to conduct research contributing to the needs of the literature particularly in political behaviour and political psychology This book expands our understanding about the processes and the mechanisms of Turkish political behaviour and contributes to the foundations of theory building in the literature This book was published as a special issue of Turkish Studies [The Global 1923 and the Treaty of Lausanne](#) Ilia Xypolia, Dionysis Tsirigotis, 2025-09-02 This book is a cutting edge analysis of how the peace treaty was achieved in Lausanne by placing it in the global context The Treaty of Lausanne reconsidered explores events from the long great war to the conclusion of the Treaty of Lausanne examining imperialism and divergent among and within states motives actions and constraints that shaped the peace settlement It shows that peace can only last if it is a product of negotiation and not imposition In doing so the book addresses the silences and the absences that eventually formed controversial aspects of the settlement It highlights the degree to which the Eastern Question discourse and the western powers concerns in light of the emerging Turco Soviet alliance shaped the proceedings in Lausanne The Treaty of Lausanne reconsidered reveals how the entanglement and the contestation at Lausanne continues to inform our contemporary politics today
