Love & Eroticism Mike Featherstone, 1999-09-20 This major collection explores the contested nature of love and eroticism examining the ways in which erotic bodily pleasures have become central to contemporary consumer culture It investigates the spatial dimension of erotic life through considerations of Bohemian love the gay city and the ways in which the urban landscape and everyday life have become sexualized issues which have become central to the emergence of queer as a new form of gender politics and more general questions of sexual citizenship Drawing on the work of feminists sociologists and cultural theorists this book contains a wide ranging and accessible set of contributions to contemporary debates on sexuality love and eroticism

Love Erotici Love and its Critics Michael Bryson, Arpi Movsesian, 2017-07-10 This book is a history of love and the challenge love offers to the laws and customs of its times and places as told through poetry from the Song of Songs to John Milton's Paradise Lost It is also an account of the critical reception afforded to such literature and the ways in which criticism has attempted to stifle this challenge Bryson and Movsesian argue that the poetry they explore celebrates and reinvents the love the troubadour poets of the eleventh and twelfth centuries called fin amor love as an end in itself mutual and freely chosen even in the face of social religious or political retribution Neither eros nor agape neither exclusively of the body nor solely of the spirit this love is a middle path Alongside this tradition has grown a critical movement that employs a hermeneutics of suspicion in Paul Ricoeur's phrase to claim that passionate love poetry is not what it seems and should be properly understood as worship of God subordination to Empire or an entanglement with the structures of language itself in short the very things it resists The book engages with some of the seminal literature of the Western canon including the Bible the poetry of Ovid and works by English authors such as William Shakespeare and John Donne and with criticism that stretches from the earliest readings of the Song of Songs to contemporary academic literature Lively and enjoyable in its style it attempts to restore a sense of pleasure to the reading of poetry and to puncture critical insistence that literature must be outwitted It will be of value to professional graduate and advanced undergraduate scholars of literature and to the educated general reader interested in treatments of love in poetry throughout history

Lowe, 2013-01-31 This volume brings together 18 articles which examine eros as an emotion in ancient Greek culture Taking into account all important thinking about the nature of eros from the 8th century BCE to the 3rd century CE it covers a very broad range of sources and theoretical approaches both in the chronological and the generic sense

Pagan Virtue John Casey, John Peter Anthony Casey, 1990 Dr Casey argues that the classical virtues of courage temperance practical wisdom and justice which are largely ignored in modern moral philosophy centrally define the good for Man The values of success pride and worldliness remain alive if insufficiently acknowledged part of our moral thinking The conflict between these values and our equally important Christian inheritance leads to tensions and contradictions in our understanding of the moral life

Nietzsche and Dostoevsky Jeff Love, Jeffrey Metzger, 2016-11-15 After more than a century the urgency with which the writing of Fyodor Dostoevsky and Friedrich Nietzsche speaks to us is undiminished Nietzsche explicitly acknowledged Dostoevsky's relevance to his work noting its affinities as well as its points of opposition Both of them are credited with laying much of the foundation for what came to be called existentialist thought The essays in this volume bring a fresh perspective to a relationship that illuminates a great deal of twentieth century intellectual history Among the questions taken up by contributors are the possibility of morality in a godless world the function of philosophy if reason is not the highest expression of our humanity the nature of tragedy when performed for a bourgeois audience and the justification of suffering if it is not divinely sanctioned Above all these essays remind us of the supreme value of the questioning itself that pervades the work of Dostoevsky and Nietzsche

To Our Bodies Turn We Then Felecia Wright McDuffie, 2005-05-06 From his early love poetry to his late religious writing John Donne speaks of the human body as a book to be read and interpreted Unlike modern thinkers who understand the body as a purely material phenomenon or post modern critics who see in it a text produced by culture Donne understands the body as a scriptural text written by God In this study McDuffie offers a comprehensive interpretation of Donne's reading of the body In Donne's imaginative universe the human person lies at the center of the great interconnected web of God's signs and acts As such he makes it the touchstone of his own theology While his anthropology is basically orthodox the emphasis Donne places on the body and the

role it plays in his religious poetics are distinctive Refusing to restrict God's revelation to the written words of Scripture Donne turns habitually to the book of the human body as a collection of signs that indicate God's nature his intent and the human condition He also at times represents the human body not as a mere sign but as sacrament a seal of the promises of God that conveys his presence and grace In his reading of the book of the body Donne discerns the narrative of salvation history the trajectory proceeding from creation through fall to redemption and resurrection He sets the body and salvation history into a dialogical relationship always reading one in terms of the other Donne reads in the body God's great love for the material the ravages of the Fall God's redemptive action in Christ and in the lives of the saints and the literal and figurative deaths that serve as gateways to resurrection and eschatological fulfillment **Telling, Turning Moments in**

the Classical Political World Jan H. Blits, 2011-01-01 Turning Telling Moments in the Classical Political World examines developments in the classical political world which are both turning and telling moments All the moments from Theseus's founding of Athens to Augustus's establishment of the Principate possess the double character of being turning points and revealing fundamental aspects of the ancient political world While most books on ancient history are chiefly concerned with questions of literary sources and historical accuracy this book deals with the significance of the facts and reports themselves Blits treats the ancient histories as works of reflection rather than works of research Instead of focusing on whether or how the ancient historians meet the professional standards of present day historiography Blits reveals the way they themselves understand and intend us to understand the ancient world **An Interview with Plato**
