ESOMBA, Dr.,2012-06-06 We badly need new sources of clean energy to generate electricity heat and power our industries homes and workplaces Up to now we have relied on and used only fossil fuels to power our industrial and domestic activities The byproducts of fossil fuels include irreversible pollution and contamination of our Earth climate change global warming and increase in pathogenic and medication resistant diseases Exhaustible fossil fuels are expensive to produce and distribute and not everybody can afford them Why not switch to natural non polluting inexpensive inexhaustible fuels such as solar wind water etc fuels This is the timely message contained in TWENTY FIRST CENTURY S FUEL SUFFICIENCY ROADMAP You can make this message realisable Go on reading Thanks **Explaining EU Internal Security Cooperation** Mark Rhinard,Raphael Bossong,2017-12-22 Internal security is often hailed as a rapidly expanding area of European integration with a growing number of strategies policies and framework agreements in recent years Yet actual cooperation when viewed

closely proceeds at a halting pace raising questions as to why cooperation appears so problematic This book presents a novel theoretically informed way to understand internal security cooperation in Europe The approach treats internal security as a public good requiring collective action amongst sovereign governments All governments must contribute to the production of a public good once produced the public good benefits all governments Fundamental obstacles to producing a public good thus arise and can help explain the underlying difficulties facing European cooperation on internal security matters The chapters in this book apply a public goods approach to different internal security issues ranging from terrorism to border management and from environmental security to natural disasters Each study demonstrates how the various goals of internal security cooperation resemble different forms of public goods and thus present different kinds of obstacles to effective cooperation This book fills a theoretical gap in the literature on European internal security cooperation with a proven approach increasingly used in other scholarly fields This book was published as a special issue of European Security
