From the Land of the Totem Poles American Museum of Natural History, Aldona Jonaitis, 1991 In 1943 French anthropologist Claude Levi Strauss arrived in New York City along with countless refugees from the war in Europe He became a frequent visitor to the North Pacific Hall at the American Museum of Natural History where he could lose himself in what he affectionately called a magic place where the dreams of childhood hold a rendezvous where century old tree trunks sing and speak where undefinable objects watch out for the visitor with the anxious stare of human faces where animals of superhuman gentleness join their little paws like hands in prayer Two and a half million people now visit the Museum each year to share in these enchantments The American Museum houses the most extensive collection of Northwest Coast Indian art in existence It includes material from virtually every Indian group that once lived along the west coast of British Columbia and Alaska In this book Dr Aldona Jonaitis traces the history of this magnificent collection beginning in the late nineteenth century before those coastal peoples had much contact with Europeans and their customs languages and art were still intact Shortly after the collections was formed between 1880 and 1910 Indian culture in this region went into a severe decline to be revived a half century later as another generation of North Americans discovered their heritage The story alternately captivates and distresses Populations were decimated by disease in the last years of the nineteenth century art objects left their makers hands bound for museums all over the world traditional rituals were outlawed and governments exerted strong pressures on the Indians to become assimilated On the other side of the story are the individuals like Franz Boas under whose direction much of the Museum collection was assembled Lt George Thornton Emmons who immersed himself in the native cultures George Hunt prized Kwakiutl informant for Boas and other researchers and Charles Edenshaw master Haida carver and painter whose colorful lives intersect the Age of Museum Collecting Artifacts in the American Museum come alive through the details Dr Jonaitis provides of their cultural context their traditional uses and their acquisition by collectors Viewers see spoons and bowls that held food eaten by Boas at a potlatch feel the spirit power emanating from a shaman s charm removed from its owner s grave by Lieutenant Emmons sense the sadness behind the display of family crests on a house model carved by Edenshaw Nearly 100 color plates in the book and numerous historical photographs from the Museum s archives recall a bygone era and are a tribute to the stunning artworks of the North Pacific region Dr Jonaitis has written the first book devoted solely to the collection of Northwest Coast Indian art in the American Museum of Natural History As such the book is both an essential work for scholars and a valuable resource for the general reader

Totem Poles: Totem poles according to crests and topics Marius Barbeau, 1964

Alaska's Totem Poles Pat Kramer, 2012-11-15 Through the mists of Alaska's rain forest totem poles have stood watch for untold generations. Imbued with mystery to outsider eyes the fierce carved symbols silently spoke of territories, legends, memorials, and paid debts. Today many of these cultural icons are preserved for the public to enjoy in heritage parks and historical centers through southeast Alaska. And after nearly a century of repression, totem carving among Alaska's Tlingit, Haida, Tsimshian peoples is flourishing again. In this newly revised edition of *Alaska's Totem Poles*, readers learn about the history and use of totems, clan crests, symbolism, and much more. A special section describes where to go to view totems. Author Pat Kramer traveled throughout the homelands of the Totem People along Alaska's Panhandle, the coast of British Columbia, and into the Northwest, meeting the people, learning their stories, and researching and photographing totem poles. Foreword writer David A. Boxley also offers the unique perspective of a Native Alaskan carver who has been a leader in the renaissance. This is a handy guide for travelers in Southeast Alaska who want to learn more about Alaska's totems. There's even a guide of where to view totems in the state. Ravens, killer whales, Orca, and bears—they're all represented in the totem.

The Story of the Totem Pole Ruth Brindze, 1951 Tells of the origins and uses of totem poles and of the American Indians of the Northwest who carved them. **Talking Totem Poles** Glenn Holder, 1973 Discusses the selection and carving of trees for totem poles and explains their symbols. **Monuments in Cedar** Edward Linnaeus Keithahn, 2013-08 *The Totem Poles Of The Pacific Northwest Coast* Washington, British Columbia, And Alaska. *Discovering Totem Poles* Aldona Jonaitis, 2016-06-01 Rising from a forest mist or soaring overhead in parks and museums, magnificent cedar totem poles have captured the attention and imagination of visitors to Washington State, British Columbia, and Alaska. *Discovering Totem Poles* is the first guidebook to focus on the complex and fascinating histories of the specific poles visitors encounter in Seattle, Victoria, Vancouver, Alert Bay, Prince Rupert, Haida Gwaii, Queen Charlotte Islands, Ketchikan, Sitka, and Juneau. It debunks common misconceptions about totem poles and explores the stories behind the making and displaying of 90 different poles. Travelers with this guide in their pockets will return home with a deeper knowledge of the monumental carvings, their place in history, and the people who made them.
