Dark Tourism in the American West Jennifer Dawes, 2019-08-12 This edited collection expands scholarly and popular conversations about dark tourism in the American West The phenomenon of dark tourism traveling to sites of death suffering and disaster for entertainment or

educational purposes has been described and on occasion criticized for transforming misfortune and catastrophe into commodity. The impulse however continues particularly in the American West a liminal and contested space that resonates with stories of tragedy, violent conflict and disaster. Contributions here specifically examine the mediation and shaping of these spaces into touristic destinations. The essays examine Western sites of massacre and battle such as Sand Creek Massacre National Historic Site and the Waco Siege sites of imprisonment such as Japanese American internment camps and Alcatraz Island, areas devastated by ecological disaster such as Martin's Cove and the Salton Sea and unmediated sites those sites left to the touristic imagination with no interpretation of what occurred there such as the Bennet Arcane camp.

Handbook of Research Methods in Tourism Larry Dwyer, Alison Gill, Neelu Seetaram, 2012-01-01 This is an excellent book which significantly contributes to tourism research and education. It takes a rigorous yet readable style to address twenty-five of the most pertinent quantitative and qualitative techniques applied in tourism research; the book will appeal to a wider readership of social scientists as well as to scholars of tourism as each chapter provides a thorough overview and explanation of the techniques irrespective of their tourism application. Dimitrios Buhalis, Bournemouth University, UK. This insightful book explores the most important established and emerging qualitative and quantitative research methods in tourism; the authors provide a detailed overview of the nature of the research method, its use in tourism, the advantages and limitations and future directions for research. Each chapter is structured to provide information on the nature of the technique and its evolution, background and types of problems that the technique is designed to handle, applications of the technique to tourism including discussion of studies that have used the technique and their findings, advantages and limitations of the technique conceptually and for policy formulation and further developments, and applications of the technique in tourism research. **Handbook of Research Methods in Tourism** will appeal to social scientists, students as well as researchers in tourism who use quantitative and qualitative research techniques. **COACH FELLAS** Kelli Ann

Costa, 2009-05-15 The Coach Fellas are known to almost all tourists who traverse the Irish countryside. Ostensibly bus drivers, they are also the tour guides who provide the crucial component in the branding of people, place and pace upon which Irish heritage tourism depends. Kelli Costa's ethnography of these highly trained and informed working-class men highlights a previously ignored component of the tourism industry. She also demonstrates their importance in providing a visitor-specific vision of heritage that contrasts with the realities of contemporary economic development. **Tourism, Change and the**

Global South Jarkko Saarinen, Jayne M. Rogerson, 2021-06-16 This significant volume is the first to focus on both the changing nature of tourism and the capacity of tourism to effect change, especially in the Global South. Geographically, this changing nature of tourism is based on the transforming relationships between demand, supply and location. While this is nothing new in tourism, recent decades have intensified the changing characteristics of global tourism. From another perspective, tourism represents a change and nowadays many localities and regions aim to use tourism as a tool for positive

change i.e. development. However, this has turned out to be a challenging task in practice, especially in the Global South context where the relationship between tourism growth and local development has often been controversial. This book looks at a host of critical concepts in one volume, such as growth and development, adaptation and resilience, sustainability and responsibility, governance and planning, and heritage and destination management strategies. By understanding the drivers of change, this book sheds new insight into the promise and role of sustainability and responsibility in tourism development. This book will be of great interest to all upper level students, academics, and researchers in the fields of Tourism Geography and Cultural and Heritage studies.

Gothic Literary Travel and Tourism Alex Bevan, 2023-05-15 Gothic tourism is a growing phenomenon and a medium through which Gothic fictions and folkloric tales are reimagined and generated. This book examines the complex relationship between contemporary English Gothic attractions and storytelling, uncovering how works of Gothic fiction can both inspire Gothic tourism and emerge from the spaces of Gothic tourism, contending that Gothic tourist attractions are multi-layered storytelling experiences. Contributing to the study of literature and place, *Gothic Literary Travel and Tourism* draws together the study of literary Gothic tourism and spatial philosophy, offering interdisciplinary analysis into the interface between Gothic narratives and the spaces in which the tourist navigates. The storytelling practices taking place in Gothic caves, theme parks, ghost tours, and rural walks serve to reflect contemporary fears and anxieties. This book situates the act of touring a Gothic site as a process of literary and social discovery.

Translation and Tourism M. Zain Sulaiman, Rita Wilson, 2019-03-05 This book addresses one of the most central yet criticised solutions for international tourism promotion, namely translation. It brings together theory and practice, explores the various challenges involved in translating tourism promotional materials (TPMs), and puts forward a sustainable solution capable of achieving maximum impact in the industry and society. The solution, in the form of a Cultural Conceptual Translation (CCT) model, identifies effective translation strategies and offers a platform for making TPM translation more streamlined, efficient, and easily communicated. Using the English-Malay language combination as a case study, the book analyses tourism discourse and includes a road test of the CCT model on actual end users of TPMs, as well as tourism marketers in the industry. Guidelines for best practices in the industry round out the book, which offers valuable insights not only for researchers but also, and more importantly, various stakeholders in the translation, tourism, and advertising industries.

Translating Tourism Sofia Malamatidou, 2024-06-29 This book provides a large-scale empirical, multilingual study of crosslinguistic differences in the language of destination promotion. The book explores how tourism texts are negotiated in translation and how the translated texts reflect and reconcile different worldviews, that of the destination population and that of the tourist. Using the 2 million word TrAIL (Tourism Across and In between Languages) corpus, which includes examples from official tourism websites in English, French, Greek, and Russian, as well as translations between these languages, the author explores the differences in the key linguistic means used in destination promotion and what these linguistic choices can tell us about how these societies

view the world around them differently The book s interdisciplinary focus makes it relevant to not only practising translators but also students and scholars interested in issues surrounding tourism promotion and translation as well as destination promoters who want to better understand the role that language and translation play in tourism promotion
