Toward The Origins Of Christmas Liturgia Condenda 5:

Toward the Origins of Christmas Susan K. Roll, 1995 Christmas exerts an enormous attraction today even apart from its Christian character as a celebration of the incarnation of God in the Person of Jesus Even marginal or indifferent Christians crowd the churches on Christmas Eve and in highly commercialized and technologized Western societies the Christmas season is celebrated with enthusiasm Yet Christmas entered the calendar of feasts relatively late by 336 C E and the reason for its introduction and quick spread remain speculative and based on fragmentary evidence Towards the Origins of Christmas addresses both the contemporary Western celebration of Christmas and its deep historical roots in the church of the fourth century The book presents a thorough investigation of the patristic texts and evidence cited by liturgical scholars in the late 19th and 20th centuries to support two main theories the Calculation theory and the History of Religions theory This historical research is set in the framework of the contemporary experience of Christmas the dynamics of time and the liturgical year the inculturation of liturgy and underlying elements of dualism and patriarchal power paradigms which linger beneath the often commercial and sentimental character of Christmas today Suzan K Roll was born in Clarence Center New York USA in 1952 She holds degrees in classical languages and pastoral theology and in 1993 received a Ph D from the Faculty of Theology of the Catholic University of Louvain Leuven Belgium summa cum laude with the gratulations of the jury She has taught and published in the field of liturgy sacraments pastoral theology and presently teaches at Christ the King Seminary Buffalo New York USA

Prayer and Worship in Eastern Christianities, 5th to 11th Centuries Brouria Bitton-Ashkelony, Derek Krueger, 2016-10-04 Prayer and Worship in Eastern Christianities 5th to 11th Centuries forges a new conversation about the diversity of Christianities in the medieval eastern Mediterranean centered on the history of practice looking at liturgy performance prayer poetry and the material culture of worship It studies prayer and worship in the variety of Christian communities that thrived from late antiquity to the middle ages Byzantine Orthodoxy Syrian Orthodoxy and the Church of the East Rather than focusing on doctrinal differences and analyzing divergent patterns of thought the essays address common patterns of worship individual and collective prayer hymnography and liturgy as well as the indigenous theories that undergirded Christian practices The volume intervenes in standard academic discourses about Christian difference with an exploration of common patterns of celebration commemoration and self discipline Essays by both established and promising younger scholars interrogate elements of continuity and change over time before and after the rise of Islam both under the control of the Eastern Roman Empire and in the lands of successive caliphates Groups distinct in their allegiances nevertheless shared a common religious heritage and recognized each other even in their differences as kinds of Christianity A series of chapters explore the theory and practice of prayer from Greco Roman late antiquity to the Syriac middle ages highlighting the transmission of monastic discourses about prayer especially among Syrian and Palestinian ascetic teachers Another set of essays examines localization of prayer within churches through inscriptions

donations dedications and incubation Other chapters treat the composition and transmission of hymns to adorn the liturgy and articulate the emotions of the Christian calendar structuring liturgical and eschatological time *Toward the Origins of Christmas* Susan K. Roll, 1995 Christmas exerts an enormous attraction today even apart from its Christian character as a celebration of the incarnation of God in the Person of Jesus Even marginal or indifferent Christians crowd the churches on Christmas Eve and in highly commercialized and technologized Western societies the Christmas season is celebrated with enthusiasm Yet Christmas entered the calendar of feasts relatively late by 336 C E and the reason for its introduction and quick spread remain speculative and based on fragmentary evidence Towards the Origins of Christmas addresses both the contemporary Western celebration of Christmas and its deep historical roots in the church of the fourth century The book presents a thorough investigation of the patristic texts and evidence cited by liturgical scholars in the late 19th and 20th centuries to support two main theories the Calculation theory and the History of Religions theory This historical research is set in the framework of the contemporary experience of Christmas the dynamics of time and the liturgical year the inculturation of liturgy and underlying elements of dualism and patriarchal power paradigms which linger beneath the often commercial and sentimental character of Christmas today Suzan K Roll was born in Clarence Center New York USA in 1952 She holds degrees in classical languages and pastoral theology and in 1993 received a Ph D from the Faculty of Theology of the Catholic University of Louvain Leuven Belgium summa cum laude with the gratulations of the jury She has taught and published in the field of liturgy sacraments pastoral theology and presently teaches at Christ the King Seminary Buffalo New York USA *Sacrificing the Church* Eugene R. Schlesinger, 2019-10-01 In a context of scandal and decline the Christian church cannot afford to do business as usual It must regain its bearings and clarify its nature and purpose Sacrificing the Church provides this clarity by returning to the church s foundation Jesus Christ and him crucified It presents an ecclesiological vision in which every aspect of the church s life flows from and expresses the one sacrifice of Christ This sacrifice is the basis of every ecclesial experience the form and content of the church s life a life which shares in the eternal Trinitarian life of God By and as Christ s sacrifice we are introduced into the divine life This participation plays out in three key areas which set the church s agenda in the contemporary world its worship of God Mass mission to the world mission and efforts toward the unity of all people beginning with divided Christians ecumenism **The Oxford History of Christian Worship** Geoffrey Wainwright, 2006 The Oxford History of Christian Worship is a comprehensive and authoritative history lavishly illustrated of the origins and development of Christian worship up to the present day Following contemporary methods in scholarship it attends to social and cultural contexts and examines the worship traditions from both Eastern and Western Christianity ancient and modern It offers a chronological account while encompassing spatial and confessional variations from Baptists in Britain to Roman Catholics in Mexico from Orthodox in Ethiopia to Pentecostals in the United States from Lutheran and Reformed in Europe to united churches in India and Australia The material details of Christian

worship such as music architecture and the visual arts are considered within specific cultural contexts throughout the volume as well as studied thematically in individual chapters **BOOK JACKET** *Heiden und Christen im 5. Jahrhundert* Mathijs Lamberigts, Leo Kenis, 2002 Vatican II created an experimental space to be employed by a variety of different domains The council led in addition to a new understanding of the church namely that of a church in the service of the world

Ever Directed Towards the Lord Uwe Michael Lang, 2007-04-01 The celebration of the liturgy of the Holy Eucharist is one of the central issues in the Roman Catholic Church today To mark the Year of the Eucharist the Society of St Catherine of Siena held a conference on the Eucharistic liturgy at Oxford in 2005 This book contains the energetic and fruitful reflection of the scholars present at the conference The contributions are academically demanding yet accessible to a wider audience The collection does not seek a solution to the current problems rather it promotes an open discussion about the theological philosophical and historical issues surrounding the celebration of the liturgy and its future as well as paying attention to the increasing interest in the pre conciliar rites

Ecology, Liturgy, and the Sacraments Irwin, Kevin W., 2023 This book is based on the principle that the liturgy is the enactment of the work of our redemption through the raising up acknowledging and revering elements of the cosmos the earth and our fellow creatures in our common home It is inspired by Pope Francis's encyclical *Laudato Si* On Care for Our Common Home in its entirety not just the sections on the Eucharist and liturgy because it presents a world view and requires respecting and caring for all creatures who share this planet It is illuminated by research into the history of sacramental theologies and the contemporary context of concern for the environment In effect there is no such thing as one Roman Catholic theology of the sacraments and more often than not differing contexts in the life of the church and the world required differing contents for sacramental theology The author argues that concern for the environment is a traditional Catholic premise based on the goodness of creation and that God is creator of heaven and earth He also argues that an ecological approach to sacramental theology can help to understand underlying factors and principles in the enactment of the liturgy of the sacraments about how and where God is discovered in the world in general and in the liturgy and sacraments in an intense and focused way through engagement with all who dwell in our common home

Ancient Christian Worship Andrew B. McGowan, 2014-09-30 An Important Study on the Worship of the Early Church This introduction to the origins of Christian worship illuminates the importance of ancient liturgical patterns for contemporary Christian practice Andrew McGowan takes a fresh approach to understanding how Christians came to worship in the distinctive forms still familiar today Deftly and expertly processing the bewildering complexity of the ancient sources into lucid fluent exposition he sets aside common misperceptions to explore the roots of Christian ritual practices including the Eucharist baptism communal prayer preaching Scripture reading and music in their earliest recoverable settings Now in paper [Celebrating The 12 Days of Christmas](#) Chris Marchand, 2019-10-10 The song The 12 Days of Christmas is a mainstay of the holiday season but the practice of celebrating Christmas as a twelve day festival fell out of fashion long ago

in most cultures In *Celebrating the 12 Days of Christmas* author Chris Marchand explores the history behind the season and individual feast days from December 25 to January 6 and then offers suggestions for how you can celebrate it with your family church or community Along with this he provides answers to many of the nagging questions surrounding the holiday such as the history behind the twelve days song why December 25 was chosen as the date and what to do about its supposedly pagan origins The challenge before us is to first help people see Christmas as a holiday that begins rather than ends on December 25 and then to together figure out how to reinvent Christmas in the present by learning how it was celebrated in the past

The Blessing of Waters and Epiphany Nicholas E. Denysenko, 2016-03-23 This book examines the historical development of the blessing of waters and its theology in the East with an emphasis on the Byzantine tradition Exploring how Eastern Christians have sought these waters as a source of healing purification and communion with God Denysenko unpacks their euchology and ritual context The history and theology of the blessing of waters on Epiphany is informative for contemporary theologians historians pastors and students Offering important insights into how Christians renew Baptism in receiving the blessed waters this book also proposes new perspectives for theologizing Christian stewardship of ecology in the modern era based on a patristic liturgical synthesis Denysenko presents an alternative framework for understanding the activity of the Trinity enabling readers to encounter a vision of how participants encounter God in and after ritual

What We Have Done, What We Have Failed to Do Kevin W. Irwin, 2013 Sheds light on and invites discussion about the experience in which Catholics have been engaged since the Second Vatican Council in implementing and praying the liturgy as reformed after the council

The God Who Is for Us Zondervan, 2025-08-26 How should we think about God For Christianity God is not merely the transcendent source and creator of the world God is also immanently involved in creation sustaining upholding and intervening in the cosmos in order to save and redeem beloved creatures God is for us The inaugural Scottish Dogmatics Conference explores this dimension of the character and nature of God in dialogue with Scripture and the Christian tradition and in pursuit of constructive theology for today Contributors include John Behr Bruce McCormack Amy Peeler Fred Sanders Judith Wolfe

Old Saint Peter's, Rome Rosamond McKitterick, John Osborne, Carol M. Richardson, Joanna Story, 2013-11-07 Provides the first full study of the predecessor church of St Peter's Basilica in Rome from late antique construction to Renaissance destruction

The Cult of Stephen in Jerusalem Hugo Méndez, 2023-02-03 This study traces the rise of the cult of St Stephen in Jerusalem in the fifth century exploring such episodes as the fabrication of his relics the construction of a grand basilica in his honour and the multiplication of feast days as a conscious attempt to position Stephen as their patron saint and embodiment of Christian identity and power

The Contemporary Church and the Early Church Paul A. Hartog, 2010-02-01 As evangelicals face future challenges many are turning back to the ancient church for inspiration But these ancient future approaches remain diverse and sometimes even at odds with one another This volume demonstrates and analyzes the complexity of such contemporary church early church

engagements Six scholars share diverse insights from the Patristic period including lessons on evangelism and discipleship community formation and maintenance use of the rule of faith the preaching of social ethics responses to cultural opposition and Christological development The volume closes with two critical responses from confessional Lutheran and Baptist perspectives These collected essays will remind contemporary readers of the importance of a reflective and responsible ressourcement of Patristic wisdom With contributions from Rex D Butler Francis X Gumerlock Bryan M Litfin Brian J Matz W Brian Shelton Edward Smither Glen L Thompson Worship and Church Latkovich, Sallie,Phan, Peter C.,2019 These essays cover historical systematic spiritual and spiritual aspects as well as social justice issues in relation to liturgy *Rituals in Early Christianity* ,2020-10-12 Based on the paradigmatic shift in both liturgical and ritual studies this multidisciplinary volume presents a collection of case studies on rituals in the early Christian world After a methodological discussion of the new paradigm it shows how emblematic Christian rituals were influenced by their Greco Roman and Jewish contexts undergoing multiple transformations while themselves affecting developments both within and outside Christianity Notably parallel traditions in Judaism and Islam are included in the discussion highlighting the importance of ongoing reception history Focusing on the dynamic character of rituals the new perspectives on ritual traditions pursued here relate to the expanding source material both textual and material as well as the development of recent interdisciplinary approaches including the cognitive science of religion *In Accordance with the Scriptures* John Behr,2025-04-04 This book explores the shape of Christian theology when seen by beginning from the proclamation of the gospel in accordance with the Scriptures that is with the Scriptures the Old Testament unveiled in the light of the death and resurrection of Jesus Christ rather than presuming the later framework of The Bible with its distinct two testaments Drawing upon writings iconography and the liturgical life of the church in the early centuries John Behr shows how the mystery of Christ includes not only the head the Lord Jesus Christ but also the whole body of Christ the church born in the womb of the Virgin Mother He also reveals how the scriptural arc from Adam to Christ is recapitulated in our own growth as human from passively coming into being in mortality to our birth into life through death and deification The shape that Christian theology takes as it develops in this way presents to us as Irenaeus puts it the truth about God and the human being and how these are united in the one Christ both head and body **Imagining the Jew in Anglo-Saxon Literature and Culture** Samantha Zacher,2016-08-04 Most studies of Jews in medieval England begin with the year 1066 when Jews first arrived on English soil Yet the absence of Jews in England before the conquest did not prevent early English authors from writing obsessively about them Using material from the writings of the Church Fathers contemporary continental sources widespread cultural stereotypes and their own imaginations their depictions of Jews reflected their own politico theological experiences The thirteen essays in *Imagining the Jew in Anglo Saxon Literature and Culture* examine visual and textual representations of Jews the translation and interpretation of Scripture the use of Hebrew words and etymologies and the treatment of Jewish spaces and landmarks

By studying the imaginary Jews of Anglo Saxon England they offer new perspectives on the treatment of race religion and ethnicity in pre and post conquest literature and culture
