The Oxford Handbook of European Legal History Heikki Pihlajamäki, Markus D. Dubber, Mark Godfrey, 2018-06-28. European law, including both civil law and common law, has gone through several major phases of expansion in the world. European legal history thus also is a history of legal transplants and cultural borrowings, which national legal histories as products of nineteenth-century historicism have until recently largely left unconsidered. The Handbook of European Legal History supplies its readers with an overview of the different phases of European legal history in the light of today's state of the art research by offering cutting-edge views on research questions currently emerging in international discussions. The Handbook takes a broad approach to its subject matter, both nationally and systemically. Unlike traditional European legal histories, which tend to concentrate on heartlands of Europe, notably Italy and Germany, the Europe of the Handbook is more versatile and nuanced, taking into consideration the legal developments in Europe's geographical fringes, such as Scandinavia and Eastern Europe. The Handbook covers all major time periods, from the ancient Greek law to the twenty-first century. Contributors include acknowledged leaders in the field as well as rising talents representing a wide range of legal systems, methodologies, areas of expertise, and research agendas.

The Holocaust, Israel and 'the Jew' Evelien Gans, Remco Ensel, 2025-10-01. This book is the first comprehensive study of postwar antisemitism in the Netherlands. It focuses on the way stereotypes are passed on from one decade to the next, as reflected in public debates, the mass media, protests and commemorations, and everyday interactions. The Holocaust, Israel, and the Jew explores the ways in which old stories and phrases relating to the stereotypical Jew are recycled and modified for new uses, linking the antisemitism of the early postwar years to its enduring manifestations in today's world. The Dutch case is interesting because of the apparent contrast between the Netherlands' famous tradition of tolerance and the large numbers of Jews who were deported and murdered in the Second World War. The book sheds light on the dark side of this so-called Dutch paradox in manifestations of aversion and guilt after 1945. In this context, the abusive taunt "They forgot to gas you" can be seen as the first radical expression of postwar antisemitism, as well as an indication of how the Holocaust came to be turned against the Jews. The identification of the Jew with the gas chamber spread from the streets to football stadiums and from verbal abuse to pamphlet and protest. The slogan "Hamas, Hamas, all the Jews to the gas" indicates that Israel became a second marker of postwar antisemitism. The chapters cover themes including soccer-related antisemitism, Jewish responses,

philosemitism antisemitism in Dutch Moroccan and Dutch Turkish communities contentious acts of remembrance the neo Nazi tradition and the legacy of Theo van Gogh The book concludes with a lengthy epilogue on the Jew in the politics of the radical right the attacks in Paris in 2015 and the refugee crisis The stereotype of the Jew appears to be transferable to other minorities
