How can countries chart their own course toward universal health coverage Like many ambitious global goals universal health coverage UHC remains an aspiration for many countries The World Health Organization estimates that half the world's population lacks access to basic health services Moreover this already staggering number masks inequities that exist between and within countries gaps between rich and poor men and women young and old and among people of different ethnic backgrounds UHC promises to give all people greater access to higher quality health services without the fear of financial hardship But the task of turning this vision into reality poses a significant challenge for countries at all stages of economic development In *The Road to Universal Health Coverage* Jeffrey L Sturchio Ilona Kickbusch Louis Galambos and their contributors explore the ways in which the private sector is already helping countries achieve universal health coverage Stressing the many positive aspects of UHC developments the book focuses on the new health economy and the sometimes controversial dimensions of the private sector helping countries achieve UHC Theoretical chapters are complemented by a series of case studies that explore the myriad ways in which private sector actors are already addressing UHC What are the conditions required for countries to translate their successful experiences and policy promises into practical results for improved population health In answering this question the contributors examine the relationship between health employment and economic growth They also analyze the critical success factors for private sector engagement in UHC the role of healthy women in creating and sustaining healthy economies and the role of the pharmaceutical sector Looking to the political economic and social implications of moving from aspiration to implementation *The Road to Universal Health Coverage* points the way to the many opportunities ahead as companies continue to work with governments and civil society partners to help achieve UHC Jean Louise Arcand Hector Arreola Ornelas Nathan J Blanchet Christine Bugos Jim Campbell John Campbell Jr Ibadat Dhillon Donika Dimovska Christian Franz Michael Frost Louis Galambos Belén Garijo Adeel Ishtiaq Sowmya Kadandale Ilona Kickbusch Felicia Marie Knaul Jeremy Lauer Robert Marten Justin McCarthy Harald Nusser K Srinath Reddy Yasmine Rouai Jeffrey L Sturchio Cicely Thomas Tana Wuliji Snow Yang Pascal Zurn Global monitoring report on financial protection in health 2021 World Health Organization,World Bank,2021-12-10 The 2021 Global monitoring report on financial protection in health shows that before the COVID 19 pandemic the world was off track to reduce financial hardship due to health expenditures because trends in catastrophic health spending were going in the wrong direction and the number of people incurring impoverishing health spending remained unacceptably high Chapter 1 Chapter 2 summarizes emerging evidence on the consequence of the pandemic and the related macroeconomic and fiscal crisis that points to the likely worsening of financial protection for households particularly as a result of declining income and consumption along with rising poverty and inequality *Evaluation of the WHO Special Programme on Primary Health Care* World Health Organization,2025-07-25 The evaluation covers the period January 2020 to August 2023 The geographical scope of the

evaluation has involved the three levels of WHO global regional and country levels and external key partners The programmatic evaluation scope was concerned with assessing the SP PHC in the following areas evaluation criteria relevance coherence effectiveness efficiency added value sustainability and equity gender and human rights considerations The evaluation did not assess the Universal Health Coverage Partnership UHC P as it has its own separate governing body and reviews evaluations but instead considered how the SP PHC had enhanced the value of the UHC P and vice versa The resilience and essential public health functions REPHF team and Systems Governance and Stewardship SGS were also not within the scope of this evaluation However these workstreams were considered in the wider conclusions and recommendations for the SP PHC as appropriate Finally the evaluation was focused on the SP PHC its scope did not include assessing the configuration and capacity of WHO s departments and functions as they relate to UHC and health systems
