Tragedy Contradiction And Repression:

Tragedy Richard Kuhns, 1991-12 Drawing on philosophical and psychoanalytic methods of interpretation Richard Kuhns explores modern transformations of an ancient poetic genre tragedy Recognition of the philosophical problems addressed in tragedy and of their presence up through eighteenth and nineteenth century philosophical texts novels and poetry establishes a continuity between classical and modern enactments Psychoanalytic theory in both its original formulations and post Freud developments provides a means to enlarge upon and inform philosophical analyses that have dominated modern discussions From Aeschylus classic drama *The Persians* to the hidden tragic themes in *The Merchant of Venice* from the aesthetic writings of Kant to Kleist's narrative Michael Kohlhaas Kuhns traces the writing and rewriting of the themes of ancient tragedy through modern texts A culture's concept of fate Kuhns argues evolves along with its concepts and forms of tragedy Examining the deep philosophical concerns of tragedy he shows how the genre has changed from loss and mourning to contradiction and repression He sees the fact that tragedy went underground during the optimism of the Enlightenment as a repression that continues into the American consciousness Turning to Melville's *The Confidence Man* as an example of Old World despair giving way to New World nihilism Kuhns indicates how psychoanalytic understanding of tragedy provides a method of interpretation that illuminates the continuous tradition from the ancient to the modern world The study concludes with reflections on the poetry of Walt Whitman and Emily Dickinson Each poet's celebration of the body and the contribution of the senses to reason perception and poetic intuition is seen as an embodiment of the modern tragic sensibility

Encountering Cruelty: The Fracture of the Human Heart Michael R. Trice, 2011-04-21 Interest in recent years in reconciliation and conflict transformation has witnessed a great deal of attention to building a future through forgiveness and preventative measures in order to impede egregious wrongdoing This effort for a reconciled future is absent reflection on the nature of cruelty Cruelty has always been apparent in massive acts of wrongdoing and yet is repeatedly concealed in our assessment of the acts themselves This book is a theologically honest and deep structure exploration of cruelty in its personal communal and institutional encounters in human life Drawing on Nietzsche's challenge of cruelty to the western tradition the work offers a comprehensive study of how cruelty undermines care trust respect and justice all those elements of human reciprocity that mark our lives as interdependent beings The work concludes with a tightly written Epilogue on interpreting the theological meaning and accessibility of reconciliation today

Decameron and the Philosophy of Storytelling Richard Kuhns, 2005-05-11 In this creative and engaging reading Richard Kuhns explores the ways in which Decameron's sexual themes lead into philosophical inquiry moral argument and aesthetic and literary criticism As he reveals the stories many philosophical insights and literary pleasures Kuhns also examines Decameron in the context of the nature of storytelling its relationship to other classic works of literature and the culture of trecento Italy Stories and storytelling are to be interpreted in terms of a wider cultural context that includes masks metamorphosis mythic themes and character analysis all of which

Boccaccio explores with wit and subtlety As a storyteller Boccaccio represents himself as literary pimp conceiving the relationship between storyteller and audience in sexual terms within a tradition that goes back as far as Socrates conversations with the young Athenians As a whole Boccaccio s great collection of stories creates a trenchant criticism of the ideas that dominated his social and cultural world Addressed as it is to women who were denied opportunities for education the author s stories create a university of wise and culturally observant texts He teaches that comic religious sexual and artistic themes can be seen to function as metaphors for hidden and often dangerous unorthodox thoughts Kuhns suggests that Decameron is one of the first self conscious creations of what we today call a total work of art Throughout the stories Boccaccio creates a detailed picture of the Florentine trecento cultural world Giotto Buffalmacco and other great painters of Boccaccio s time appear in the stories Their works and the paintings that surround the characters as they prepare to leave the plague ridden city with their representations of Dante Aquinas and other thinkers are essential to understanding the ways the stories work with other works of art and illuminate and enlarge interpretations of Boccaccio s book

The Tragic Paradox Leonard Moss, 2014-03-24 Paradox informs the narrative sequence images and rhetorical tactics contrived by skilled dramatists and novelists Their literary languages depict not only a war between rivals but also simultaneous affirmation and negation voiced by a tragic individual They reveal the treason flux and duplicity brought into play by an unrelenting drive for respect Their patterns of speech action and image project a convergence of polarities the convergence of integrity and radical change of constancy and infidelity A fanatical drive to fulfill a traditional code of masculine conduct produces the ironic consequence of de forming that code the tragic paradox Tragic literature exploits irony In Athenian and Shakespearean tragedy self righteous male or female aristocrats instigate their own disgrace shame and guilt an un expected diminishment They are victimized by a magnificent obsession a fantasy of un alloyed authority or virtue a dream of perfect self sufficiency or trust The authors of tragedy revised the concept of nobility to reflect the strange fact that grandeur elicits its own annulment Strengths by strengths do fail Shakespeare wrote in Coriolanus The playwrights made this paradoxical predicament concrete with a narrative format that equates self assertion with self detraction images that revolve between incredible reversals and provisional reinstatements and speech that sounds impressively weighty but masks deception disloyalty cynicism and insecurity Three heroic philosophers Plato Hegel and Nietzsche contributed invaluable but contrasting accounts of these literary languages Aristotle s Poetics will be discussed in connection with Plato s attitude toward poetry Their divergent descriptions can be reconciled to show that invalidations as well as affirmations the transmission of contraries are essential for tragic composition An equivocal rhetoric a mutable imagery and an ironic progression convey the tortuous pursuit of personal preeminence or in later tragic works by Kafka and Strindberg family solidarity and communal safety I am trying to integrate the disparate arguments offered by several notable theorists with technical procedures fashioned by the Athenian dramatists and recast by Shakespeare and other writers procedures that
