Trail Of The Octopus From Beirut To Lockerbie Inside The Dia:

Trail of the Octopus Donald Goddard, Lester Knox Coleman, 2009-08-13 **Mosaic Orpheus** Peter Scott, 2009-04-01
Working always to connect the polemical to the personal Peter Dale Scott's political poems from the tear gas of Berkeley protests in the 1960s to the problems of Thai forest monks in an era of drug trafficking and deforestation are a process of self questioning Self questioning also marks his meditation poems including a sequence on the death of his first wife In opposition to contemporary poems of studied meaninglessness Scott increasingly recognizes a compulsion in himself to radically reaffirm traditional rejections of the external world and turn to the refuges of poets before him the enduring commonplaces that are more than cliches **Syria's Terrorist War on Lebanon and the Peace Process** M. Deeb, 2003-07-03 This study demonstrates that Syria's role in the Middle East has been since 1974 an unabated terrorist war against all attempts to resolve peacefully the Arab Israeli conflict Marius Deeb provides evidence that Syria's role in Lebanon since 1975 has been to perpetuate the conflict among the various Lebanese communities in order to keep its domination of Lebanon **Libya: The Struggle for Survival** G. Simons, 1996-07-26 This book charts in detail the West's response particularly that of the US to Libya's possible involvement in the bombing of the Pan Am airliner over Lockerbie in 1988 It suggests that this response cannot be fully understood without consideration of the United States as sole military superpower in the New World Order Geoff Simons argues that the US decision to target Libya and to involve the UN in this policy has more to do with the realpolitik objectives of a hegemonic power than with the disinterested use of international law to combat terrorism The Lockerbie issue is set against a detailed history of Libya from the earliest times to the present with emphasis on Libya's colonial past the pivotal significance of Libya's oil resources the character of the Gaddafi revolution and the consequent impact on relations with the United States **I Solemnly Swear** Kenton V. Smith, Micheal T. Hurley, 2004-04-26 Smeared by cheap innuendo and false accusations alleging he is responsible for having allowed a bomb aboard Pan Am 103 Micheal T Hurley career law enforcement veteran faces a dilemma as real as his lifetime savings bet everything that truth would win out in a court of law or just surrender to that which he knows to be wrong Succumb or fight Capitulate or resist I Solemnly Swear captures his answer to that dilemma and presents a diverse group of heroes and traitors lawmen and outlaws the innocent and the guilty who bounce between Seattle Larnaca London Washington DC Frankfurt and Fort Lauderdale In an international game of cat and mouse Hurley spends his last three years as a DEA Supervisory Special Agent being jerked around by a media that is all too willing to criticize the US Government and to mar Hurley's reputation as a competent international narcotics agent This is his story **The Lebanese Connection** Jonathan Marshall, 2012-05-16 Long before Mexico Colombia and Afghanistan became notorious for their contributions to the global drug traffic Lebanon was a special target of U S drug agents for harboring the world's greatest single transit port in the international traffic in narcotics In the words of one American official certain of the largest traffickers are so influential

politically and certain highly placed officials so deeply involved in the narcotic traffic that one might well state that the Lebanese Government is in the narcotics business Using previously secret government records The Lebanese Connection uncovers for the first time the story of how Lebanon s economy and political system were corrupted by drug profits and how by financing its many ruthless militia Lebanon s drug trade contributed to the country s greatest catastrophe its fifteen year civil war from 1975 to 1990 In so doing this book sheds new light on the dangerous role of vast criminal enterprises in the collapse of states and the creation of war economies that thrive in the midst of civil conflicts Taking a regional approach to the drug issue Jonathan Marshall assesses the culpability of Syria Israel and of Palestinian factions and other groups that used Lebanon as their battleground On the international level he documents Lebanon s contribution to the hard drug problem of major consuming countries from the days of the French Connection through the Pizza Connection as well as Lebanon s unrivaled place in the global hashish market *Plane Truth* Carl A. Davies, 2001 A British petroleum engineer now living in Texas who is a self described crusader but not subscriber to conspiracy theories pursues disturbing questions still lingering over the crashes of Pan Am flight 103 at Lockerbie TWA 800 and several other US airplane crashes E g why do Boeing 747 s br *Satellite Ministries* Febe Armanios, 2025 In 1981 a satellite television station called Star of Hope began broadcasting from Israeli occupied South Lebanon Backed by American missionaries Israeli politicians and Lebanese Catholic leaders the channel aired Western entertainment and Christian content using a repurposed ABC Monday Night Football truck situated on the Israel Lebanon border Later renamed Middle East Television METV its programming included American soap operas sports and evangelical content alongside innovative Arabic Christian televangelism It was a station of enormous consequence METV spurred the growth of competing Christian broadcasters and reshaped the Middle East s media and religious landscape over the next four decades Yet it was of course controversial its foreign imperialist and proselytizing approach to media was a source of curiosity and consternation in the region and occasionally around the world Through extensive fieldwork and archival research Febe Armanios explores how Western evangelicals and indigenous Christians harnessed terrestrial and satellite technologies to promote Christian television in the Middle East The fifteen channels analyzed in this study fall into three main categories Western backed conservative outlets with a charismatic and apocalyptic outlook middle ground channels that sought to balance their international sponsors expectations with local interests and grassroots initiatives rooted in ancient church traditions The histories and programming strategies of primarily Arabic but also Turkish and Persian Christian channels reveal how media producers forged unexpected political alliances pursued sectarian objectives and navigated various transnational influences *Satellite Ministries* explores how modern expressions of faith technology and political power intersected and clashed across the Global South and beyond In this groundbreaking work Armanios presents a crucial examination of this unique and little known media landscape *Corpus linguistics* Stefanowitsch, Anatol, 2020 Corpora are used widely in linguistics but not always wisely This book attempts to frame corpus

linguistics systematically as a variant of the observational method The first part introduces the reader to the general methodological discussions surrounding corpus data as well as the practice of doing corpus linguistics including issues such as the scientific research cycle research design extraction of corpus data and statistical evaluation The second part consists of a number of case studies from the main areas of corpus linguistics lexical associations morphology grammar text and metaphor surveying the range of issues studied in corpus linguistics while at the same time showing how they fit into the methodology outlined in the first part

Blurring Intelligence Crime Willem Bart de Lint, 2021-03-14 This book explores the conundrum that political fortune is dependent both on social order and big constitutive crime An act of outrageous harm depends on rules and protocols of crime scene discovery and forensic recovery but political authorities review events for a social agenda so that crime is designated according to the relative absence or presence of politics In investigating this problem the book introduces the concepts intelligence crime and critical forensics It also reviews as an exemplar of this phenomenon apex crime a watershed event involving government in the support of a contested political and social order and its primary opponent as the obvious offender which is then subject to a confirmation bias Chapters feature case study analysis of a selection of familiar high profile crimes in which the motives and actions of security or intelligence actors are considered as blurred or smeared depending on their interconnection in transactional political events or according to friend enemy status
