Trust and Mistrust in International Relations Andrew H.

Kydd, 2018-06-05 The difference between war and peace can be a matter of trust States that trust each other can cooperate and remain at peace States that mistrust each other enough can wage preventive wars attacking now in fear that the other side will attack in the future In this groundbreaking book Andrew Kydd develops a theory of trust in international relations and applies it to the Cold War Grounded in a realist tradition but arriving at conclusions very different from current realist approaches this theory is the first systematic game theoretic approach to trust in international relations and is also the first to explicitly consider how we as external observers should make inferences about the trustworthiness of states Kydd makes three major claims First while trustworthy states may enter conflict when we see conflict we should become more convinced that the states involved are untrustworthy Second strong states traditionally thought to promote cooperation can do so only if they are relatively trustworthy Third even states that strongly mistrust each other can reassure each other and cooperate provided they are trustworthy The book's historical chapters focus on the growing mistrust at the beginning of the Cold War Contrary to the common view that both sides were willing to compromise but failed because of mistrust Kydd argues that most of the mistrust in the Cold War was justified because the Soviets were not trustworthy

Trust in an Age of Arrogance C FitzSimons Allison,2011-05-26 God is in the dock Shall we convict him or forgive him Shall we replace the God of Scripture with another of our choosing mock and deride him or ignore him Shall we replace revelation with the chaos of speculation We perceive ourselves rather than God as the center of the world and this universal condition leads to conflict with others and with God Maintaining our center causes cheating lying litigation divorce wars genocide and human misery Western civilization is giving up trust in the promise of God s mercy justice and forgiveness and replacing it with trust in the goodness of man Jesus warned us to beware the teaching of the Sadducees and Pharisees The Sadducees who denied hope of eternal life are a rough equivalent of our modern day secularists with their religious trust that this world is all there is Replacing God with trust in flawed human nature is a mark of arrogance that even pagans would have characterized as hubris evoking divine wrath The Pharisee s yeast of self righteousness is a natural condition of us all Even when cleansed it reappears in every tradition rendering forgiveness and transformation a promise only for those who think they have earned and deserve it Such a distortion of God s word is congenial to our self as center but it robs us sinners of the justice and mercy of a loving God Following Jesus s warning we have the opportunity to wipe away the Sadducee arrogance and the Pharisee self righteousness and discover anew the supreme power and joy of the Christian faith

Social Capital in Europe: Similarity of Countries and Diversity of People? Heiner Meulemann,2008-01-31 Social capital is not only useful for the

person who owns it but it may also foster the integration of a society and the stability of a democracy Friendly relations social trust and norms of reciprocity ease the living together in a society and encourage people to take part in democratic decision making This volume examines the differences in levels causes and consequences of social capital between 22 European countries surveyed in the 2002 European Social Survey At first glance social capital differs strongly between countries Yet the determinants of social capital differ strongly between European people as well If one takes account of the latter the former may no longer appear so large The volume asks whether this is indeed the case so that a similarity of countries goes along with a diversity of people To examine this multi level analyses are used in each contribution *The Moral Foundation of Economic Behavior* David C. Rose, 2011-11-25 It then identifies specific characteristics that moral beliefs must have for the people who possess them to be regarded as trustworthy *The Post-Soviet Decline of Central Asia* Eric W. Sievers, 2013-12-02 Sievers draws on his experience of Central Asia to take on the task of explaining the remarkable economic declines of the post Soviet Central Asian states Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan in the past decade and the turn of these states towards despotism *The Politics of Dialogue* Ranabir Samaddar, 2017-07-05 Offering a detailed analysis of post colonial South Asia The Politics of Dialogue discusses the creation and impact of borders and the pervasive tension between the new nations Neither all out war nor complete peace this fragile condition makes political leaders and strategists feel claustrophobic a war produces an end result but peace allows the rulers to carry out their policies for governing along their preferred path of development The book shows how cartographic communal and political lines are not only dividing countries but that they are being replicated within countries creating new visible and invisible internal frontiers It argues that in a situation where geopolitics constrains democracy the political class becomes incapable of coping with the tension between the inside outside eg democracy appears as an internal problem and geopolitics appears as a problem related to the outside **Peace Processes and Peace Accords** Samir Kumar Das, 2005-11-05 The second volume in the South Asian Peace Studies series Peace Processes and Peace Accords looks at the political question of peace from three perspectives the process of peace the contentious issues involved in the peace process and the ideologies that come in conflict in this process Arguing that peace is not a one time event to be achieved and rejoiced over but a matter to be sustained against various odds the contributors show that the sustainability of peace depends on a foundation of rights justice and democracy Peace accords they maintain are only a moment in the process the very act of signing an accord could mark either a continuation of the same conflict or simply its metamorphosis Therefore as this volume shows negotiation should be redefined as joint problem solving on a long term sustained basis rather than one off hard bargaining [China's Philosophical Studies: Rediscovery Of Chinese Spiritual Essence](#) Ruiquan Gao, Guan Jun Wu, 2022-02-25 China's Philosophical Studies Rediscovery of Chinese Spiritual Essence collects essential research findings of China's philosophical studies conducted by the academics at East China Normal University ECNU in recent years The book covers topics including

thoughts in China's Spring and Autumn Period Chinese virtue of trust establishing morals historical studies of Chinese philosophy etc This book is the fifth volume of the WSPC ECNU Series on China This Series showcases the significant contributions to scholarship in social sciences and humanities studies about China It is jointly launched by World Scientific Publishing the most reputable English academic publisher in Asia and ECNU a top University in China with a long history of exchanges with the international academic community
