The Magic of Truth Farah Dally, 2014-11-10 Questions of truth have occupied philosophers scientists and theologians throughout human history What is truth Does it exist How do we define truth Who determines what is true and what is not The Magic of Truth defends the relativity of truth by examining its role in literature the arts and science as well as in our own lives and traditions The product of intensive research on the idea of truth and the secret meaning it holds Farah Dally argues that no field of study can progress without calling into question the traditional view of truth as a clear objective image

Art's Realism in the Post-Truth Era Amanda Boetzkes, Maryse Ouellet, 2024-05-31 Arguing for the necessity of taking art's contribution to contemporary realism seriously this edited collection intervenes on contemporary debates about realism by demonstrating that the arts do not simply illustrate philosophical theories The significance of art's realism in times characterised by the normalisation of fake manipulated and distorted representations of reality can only be fully understood by attending to the ways that the arts mediate visualise and even shape reality Each chapter features a different approach to realism and its aesthetic dimensions not only in the visual arts but also in sound art film scientific imaging and literature

Postanarchism and Critical Art Practices Saul Newman, Tihomir Topuzovski, 2024-04-18 Engaging with contemporary debates about the political role of art in an era of total market subsumption this book shows how artists respond to the challenges of political authoritarianism police violence right wing populism post truth discourse economic inequality pandemics and the environmental crisis transforming the public sphere in new and unexpected ways Going beyond sterile debates about identity politics diversity and representation that beset the mainstream media university campuses and other cultural domains the volume illustrates the ways in which artists are opening up alternative sites of contestation occupation and autonomous political thought and action Newman and Topuzovski examine here the artistic practices of multiple collectives and individuals deeply engaged with social and political activities such as Grupo de Arte Callejero GAC and Voina arguing that the best way to understand these new critical discourses and practices is through an updated political theory of anarchism or what we call postanarchism where the insurrection against power and the politics of singularity are central Featuring for instance an examination of significant movements such as Black Lives Matter as well as its use of artistic tactics such as graffiti graphic design and movement art the book launches itself into a vibrant discussion of the extent to which art can produce a multiplicity of practices through the deconstruction of existing legal political and cultural identities By developing an alternative way of exploring the nexus between art and politics through the idea of postanarchism this book bridges the gap between the two promoting an understanding of the political role that art can play today and introduces a theory of postanarchism to a non specialist audience of artists activists and those generally interested in new sites and directions for radical politics

Fellow Men Bridget Alsdorf, 2022-07-12 Focusing on the art of Henri Fantin Latour 1836 1904 and his colleagues Gustave Courbet Edgar Degas Edouard Manet Fr d ric Bazille and Pierre Auguste Renoir Fellow Men

argues for the importance of the group as a defining subject of nineteenth century French painting Through close readings of some of the most ambitious paintings of the realist and impressionist generation Bridget Alsdorf offers new insights into how French painters understood the shifting boundaries of their social world and reveals the fragile masculine bonds that made up the avant garde A dedicated realist who veered between extremes of sociability and hermetic isolation Fantin Latour painted group dynamics over the course of two decades from 1864 to 1885 This was a period of dramatic change in French history and art events like the Paris Commune and the rise and fall of impressionism raised serious doubts about the power of collectivism in art and life Fantin Latour s monumental group portraits and related works by his friends and colleagues from the 1850s through the 1880s represent varied visions of collective identity and test the limits of association as both a social and an artistic pursuit By examining the bonds and frictions that animated their social circles Fantin Latour and his cohorts developed a new pictorial language for the modern group one of fragmentation exclusion and willful withdrawal into interior space that nonetheless presented individuality as radically relational *The Arts of Truth* Rud Istvan, 2012-11-01

Politics and Heidegger's Concept of Thinking in Contemporary Art Louise Carrie Wales,2021-09-16 Responding to Heidegger s stark warnings concerning the essence of technology this book demonstrates art s capacity to emancipate the life world from globalized technological enframing Louise Carrie Wales presents the work of five contemporary artists Martha Rosler Christian Boltanski Krzysztof Wodiczko and collaborators Noorafshan Mirza and Brad Butler who challenge our thinking and compel a dramatic re positioning of social norms and hidden beliefs The through line is rooted in Heidegger s question posed at the conclusion of his technology essay as understood through artworks that provides a counter to enframing while using increasingly sophisticated technological methods The themes are political in nature and continue to have profound resonance in today s geopolitical climate The book will be of interest to scholars working in art history aesthetics philosophy and visual culture [Christianity, Metaphor, and the Urge to Truth](#) Barry Stephenson,2025-09-22 *Christianity Metaphor and the Urge to Truth* explores the role of metaphor in Christian thought In it Barry Stephenson challenges the secularized consciousness that often dismisses symbolic thinking delving into foundational Christian concepts such as sin atonement Christology and divine violence through the lens of metaphor theory and philosophical anthropology Drawing on the insights of Hans Blumenberg the book invites readers to reengage with the enduring relevance of religious ideas in a way that transcends rigid literalism offering a nuanced approach to understanding Christianity in the modern world **One Truth and One Spirit** Keith Readdy,2018 Based upon academic research at the University of Amsterdam s Center for the History of Hermetic Philosophy and Related Currents *One Truth and One Spirit* is a much needed work that covers a previously unexplored history of the modern religious movement known as Thelema This work details the theoretical framework of Aleister Crowley s spiritual legacy in the O T O and the A A and covers the years of Thelema since Crowley s death in 1947 *One Truth and One Spirit* approaches a complex topic with a complex history with exhaustive citations and

sources but it is written for anyone interested in the subject of Thelema The author utilizes published source material as well as previously unavailable information which makes this a unique contribution to the available literature One Truth and One Spirit is expected to be of interest to the novice the scholar and the seasoned practitioner of Thelema The work provides a general historical overview of Thelema from a theoretical vantage point explores the historical development of the movement from the 1960s to the 1990s and applies the author s own critical discussions on the topic itself Between Truth and Falsity: Liberal Education and the Arts of Discernment Karim Dharamsi,David Ohreen,2021-04-06 It seems we are awash in information From the moment we wake until we turn over our phones at night we are bombarded with images and messages news and information from a confounding number of sources But as the amount of information available to us increases ever more rapidly its quality and reliability seem less credible Russian troll bots 4chan Breitbart and Rebel Media challenge our credulity but they do so by mimicking aesthetic registers consumers expect of traditional media outlets Moreover traditional news sources both privately owned and public broadcasters already weakened by eroding revenue cuts to budgets and shifting demographics are under sustained attack from those who wish to damage their ability to hold powerful people to account Instead of a multi perspectival approach which seeks to report to the public the many ways to address a particular issue taking the reporter s role as neutral with regard to outcome fake or ideologically driven news sources compete for audience attention and faithfulness often using emotion to rally people toward a certain political cause or issue Academics meanwhile have their work attacked and undermined by people or groups seeking to advance political or economic interests They are told they too are political actors one more voice in a messy public arena instead of a font of reliable information and knowledge While academics continue to believe that their work at least in part enhances our understanding of the world and informs debate how do we know that their conclusions are indeed more reliable than their critics in the post truth era Between Truth and Falsity Liberal Education and the Arts of Discernment will aid academics and students seeking to better grasp the value of liberal education within this post truth era It seeks to advance pedagogical ideas in order to fight factual erosion and reinforce intellectual capacities that are able to critically assess the chaos of information enveloping all segments of society This volume will therefore be of particular interest to academics and university educators working in higher education graduate students theorizing the nature of media and the role of higher education undergraduates studying liberal education and the nature of the university and those thinking about liberal education *Tailoring Truth* Jon Berndt Olsen,2017-06 By looking at state sponsored memory projects such as memorials commemorations and historical museums this book reveals that the East German communist regime obsessively monitored and attempted to control public representations of the past to legitimize its rule It demonstrates that the regime s approach to memory politics was not stagnant but rather evolved over time to meet different demands and potential threats to its legitimacy Ultimately the party found it increasingly difficult to control the public portrayal of the past and some dissidents were able to turn the party s

memory politics against the state to challenge its claims of moral authority **Speaking Truths** Valerie Chepp, 2022-02-11

The twenty first century is already riddled with protests demanding social justice and in every instance young people are leading the charge But in addition to protesters who take to the streets with handmade placards are young adults who engage in less obvious change making tactics In *Speaking Truths* sociologist Valerie Chepp goes behind the scenes to uncover how spoken word poetry and young people s participation in it contributes to a broader understanding of contemporary social justice activism including this generation s attention to the political importance of identity well being and love Drawing upon detailed observations and in depth interviews Chepp tells the story of a diverse group of young adults from Washington D C who use spoken word to create a more just and equitable world Outlining the contours of this approach she interrogates spoken word activism s emphasis on personal storytelling and truth the strategic uses of aesthetics and emotions to politically engage across difference and the significance of healing in sustainable movements for change Weaving together their poetry and personally told stories Chepp shows how poets tap into the beautiful emotional personal and therapeutic features of spoken word to empathically connect with others advance intersectional and systemic analyses of inequality and make social justice messages relatable across a diverse public By creating allies and forging connections based on friendship professional commitments lived experiences emotions artistic kinship and political views this activist approach is highly integrated into the everyday lives of its practitioners online and face to face Chepp argues that spoken word activism is a product of and a call to action against the neoliberal era in which poets have come of age characterized by widening structural inequalities and increasing economic and social vulnerability She illustrates how this deeply personal and intimate activist approach borrows from builds upon and diverges from previous social movement paradigms Spotlighting the complexity and mutual influence of modern day activism and the world in which it unfolds *Speaking Truths* contributes to our understanding of contemporary social change making and how neoliberalism has shaped this political generation s experiences with social injustice *Photography, Truth and Reconciliation* Melissa Miles, 2020-08-05

The Simple Truth Simon Morley, 2020-12-15 The monochrome a single color work of art is highly ambiguous For some it epitomizes purity and is art reduced to its essence For others it is just a stunt the proverbial emperor's new clothes Why are monochrome works both so admired and such an easy target of scorn Why does a monochrome look so simple and yet is so challenging to comprehend And what is it that drives artists to create such works In this illuminating book Simon Morley unpacks the meanings of the monochrome as it has developed internationally over the twentieth century to today In doing so he also explores how artists have understood what they make how critics variously interpret it and how art is encountered by viewers

The Right to Know the Truth in Transitional Justice Processes Natasha Stamenkovikj, 2021-11-29 Dr Natasha Stamenkovikj offers a comparative analysis of the scope and application of the right to the truth as a fundamental right in public international law and as a concept in European policies for promoting peace and transitional justice The book provides a systematized assessment of the conceptualisation of the right to the truth in the enlargement policy of the Council of Europe as applied towards the former Yugoslav societies By assessing the coherence of the Council's standardization on the right to the truth Dr Stamenkovikj addresses the legitimacy of the Council as an exporter of values and creator of norms

The Art of Truth-telling about Authoritarian Rule Ksenija Bilbija, 2005 Publisher Description **Truth from a Lie** Margaret Key, 2011-05-05 Critics typically regard Abe Kobo 1924-93 as writing against realism due to his avant garde aesthetics that challenged the Naturalist realism dominating the literary mainstream and the Socialist realism of the orthodox Left in postwar Japan He considered his work thoroughly realist however and starting in the early 1950s in a series of avant garde art and literary groups he championed the possibility of a vital contemporary realism that challenged the reader to question the reality represented in the text through increasingly self-conscious writing strategies Through a reassessment of the texts in which he worked out his theory of realism this study traces the development of his commitment to making truth from a lie to fiction drama and reportage that openly display their artifice Key argues that the reflexivity of Abe's texts which lay bare their own processes of artificial construction in order to reflect how our everyday sense of reality is constructed and maintained created a critical space for metatextual ideas that were not acknowledged by the literary establishment of his time and have yet to be recognized by critics today Undergirding his theory and practice of realism was a critique of conventional documentary and of the classic detective story The texts examined here expose the degree to which the documentarian and the detective are active fabricators of meaning rather than neutral observers of fact By paying close attention to the tension between the documentary and the fictive in Abe's works Key draws out the ethical implications of his

documentary approach arguing persuasively that the documentary qualities of his writing such as its valorization of objectivity over psychologism and the realm of concrete things over abstraction are strategies for challenging the dominant assumptions about what constitutes good ethics and good art as well as the relationship between these two spheres Truth from a Lie explores the ways in which Abe put documentary and the de **Art's Claim to Truth** Gianni Vattimo, 2010-04-26 Following Heidegger's interpretation of the history of philosophy Gianni Vattimo outlines the existential ontological conditions of aesthetics paying particular attention to the works of Kandinsky which reaffirm the ontological implications of art Vattimo then builds on Hans Georg Gadamer's theory of aesthetics and provides an alternative to a rationalistic positivistic criticism of art This is the heart of Vattimo's argument and with it he demonstrates how hermeneutical philosophy reaffirms art's ontological status and makes clear the importance of hermeneutics for aesthetic studies In a final section Vattimo articulates the consequences of reclaiming the ontological status of aesthetics without its metaphysical implications holding Aristotle's concept of beauty responsible for the dissolution of metaphysics itself *The (Dis)Information Age: From Post-Truth to Post-Postmodernism* Jonathan Austad, 2025-01-07 There has yet to be a strong consensus regarding when and if postmodernism ended As such there is no agreement about the new age's name origins or tenets Nealson's Post Postmodernism or The Cultural Logic of Just in Time Capitalism leaves out the impact of the internet and social media Other books fail to explore post postmodernism within a larger social political framework and do not examine the cultural trends that have responded to such forces This book undertakes these complexities by examining the interplay between the sociohistorical events and visual culture of the last two decades and posits that postmodernism ended with the terror attacks on September 11 2001 Few events have such a tremendous impact on the collective consciousness that they cause immense social political and cultural changes but the terror attacks marked the beginning of a new era filled with greater anxiety and uncertainty The Bush Administration used news outlets to promote a false narrative and mislead the public manipulating information to further its agenda and altering the nature and efficacy of mass media and ultimately launching society into an age of disinformation The Dis Information Age is comprised of two main phenomena post truth and post postmodernism Truth and reality have become increasingly difficult to ascertain in this post truth world and created increased skepticism towards those in the government and media The rise of the internet and social media has exacerbated this trend by individualizing facts and data further fragmenting society along ideological lines The result is people share fewer common ideas than in previous eras and are no longer living in a shared reality Post postmodernism on the other hand is a cultural movement that has responded to post truth's weaponization misuse and individualization of information Artists of post postmodernism seek greater connectivity and common ground to combat individualized information and ideological warfare To them truth resides in the collective This study examines the intricate relationship between recent socio historic events and cultural manifestations that respond to them to better understand the world in which we live
