is an investigation into the ways social formations come together in musical structures These essays specifically address the problem of our neutralized music consciousness the separation of music from the social context and the artificial insulation of musical understanding from the realms of social meanings One theme in these essays concerns the struggle against ideological distortions arising from the insulation of music from its sociological context The author argues that there is a stronger connection between music and society than is generally assumed Hi Fi/stereo Review ,1961 *Federal Communications Commission Reports* United States.
