Albrechtsen, K. Haastrup, B. Henriksen, 2008-01-17 Listening to the voices of learners as they write an essay or try to cope with unfamiliar words in a text is a luxury often reserved for researchers This book observes individuals performing similar tasks in their first and their foreign language and invites readers with an interest in foreign language acquisition to follow the same learners in their efforts to cope in both languages Writing to Learn Academic Words Breno B. Silva, 2022-08-22 This book highlights the importance of English academic vocabulary for success at university and explores written tasks as effective pedagogical tools to promote the acquisition of academic words The book reviews germane and recent SLA psycholinguistic corpus linguistics and L2 writing research to underscore the challenges associated with the learning of academic words Then it reports on three empirical studies conducted in the Polish context The first study develops a reliable tool to assess the knowledge of academic vocabulary of undergraduate learners The second and third studies investigate the learning of academic words after the writing of sentences and argumentative essays and discuss the role of cognition as a mediator of such learning The book also provides an accessible introduction to linear mixed effect models a powerful reliable and flexible statistical technique that has been gaining popularity among SLA and psycholinguistics researchers **Emerging Technologies for Education** Weijia Jia, Yong Tang, Raymond S.
