analysis Kolb's experiential learning theory was used as a theoretical framework for this study to evaluate the offering of multi grade teaching in case study schools. The thematic approach was used to analyse data. To ensure issues of ethical consideration, the researcher ensured that there is anonymity, confidentiality, informed consent, voluntary participation, participants' privacy and safety. The study found that schools in Sekhukhune South Education District could not offer multi grade teaching. This was mainly based on the lack of central policies on multi grade teaching as well as inappropriate teacher development programmes. Insufficient human and financial resources were also identified as key hindrances in the implementation of multi grade teaching. Resultantly, the study suggested that the serving teachers, their SMTs and their Curriculum Advisors must be provided with in-service training on multi grade teaching. On the other hand, teacher training universities should have a compulsory module on multi grade teaching. The study also recommended the establishment of a DoBE unit that solely focuses on matters related to multi grade teaching. The study further recommended that the DoBE should develop central policies on multi grade teaching. It was also recommended that the DoBE's Post Provision Model and the National Norms and Standards for School Funding must be revised to cater for the needs of multi grade schools. The study further proposed a new framework to engender collaboration amongst principals, parents and Curriculum Advisors in school-based multi grade policy formulation, advocacy training as well as monitoring and support.

Writing in Elementary School Social Studies Barry K. Beyer, Robert Gilstrap, 1982. This book is designed to provide elementary school teachers with information, suggestions and models for using writing in the social studies from early primary to middle grades. There are four major chapters in the book. Chapter I is titled 'Research on the Teaching of Writing'. The articles in this first section move from a survey of research in writing to a survey of classroom practice in the use of writing in elementary school social studies and finally to a specific classroom study that integrates the two areas and presents specific implications for the study and teaching of writing. Chapter II is titled 'Developing Readiness in Writing'. The first two articles stress two important aspects of a classroom environment that nurtures and supports student writing. The remaining five articles describe techniques such as interviewing, exploring the past and brainstorming that teachers can use to initiate writing. The title of Chapter III, which contains seven articles, is 'Using Writing to Learn Social Studies Content'. The articles describe ways in which writing can be used to help students learn social studies information or develop social studies generalizations. Another describes how writing can be used to conduct simulated field trips in the social studies classroom. The title of Chapter IV is 'Combining Writing with Social Studies'. Discussed are three essential supports for a successful program: a detailed curriculum guide, in-service teacher training and cooperative teacher administrator assessment procedures. The book also cites related resources in the ERIC system. Author RM.
