An International Humanitarian Organisation James David Parker, 2017-05-11 This book presents a concise account of our current approach to the climate crisis and provides a clear view of the current situation and the history of the protocols and promises that have failed. It offers substantial international solutions exploring the urgent need for an international ethical and progressive alliance that has authority beyond economic self interests and arguing in favour of shifting our focus to reducing the manufacture of greenhouse gases rather than concentrating on the reduction of carbon emissions. The book goes on to explore why solutions can only emerge by changing the very international structure of governance a structure that is now conditioned by out dated modes created before the collective understanding of the Earth as one whole. It proposes that these solutions can only happen if they are based on an international unity emerging from our collective expertise ethics and intelligence among humanity today.
