Writing From The Source Techniques For Re Scripting Your Life:

Writing Your Way Manjusvara, 2012-03-31 Writing Your Way helps us to see writing as a transformative tool in our search for wholeness. Manjusvara David Keefe expertly guides us to the heart of writing and aspects of Buddhism with writing exercises that delicately weave in teachings on mindfulness and compassion, freedom and openness. Delve inside to find the encouragement to express your own deeper self through the dance of language. **Writing from the Source**

Allison Price, 1998-09 This volume is a simple journal writing programme that seeks to guide readers along an empowering path of growth and self discovery. The first step involves a 21 day writing plan, 30 minutes per day on a given theme, which is then followed up with continued exercises such as writing a letter to your parents that you won't send that helps readers tune into their authentic selves, blocks passions and goals. The jottings, essays, letters and journals provide rich ground for personal development work. The last third of the book deals with how readers can turn the insights thrown up by the writing process into positive action, working with dreams, facing fears, establishing boundaries and achieving fulfillment. *Deep Healing*

Emmett E. Miller, M.D., 1996-12-01 Deep Healing brings new hope to every reader. It awakens even the most skeptical among us to the miraculous inborn self-healing capacities of our mind/body. Emmett Miller, M.D., practicing as a traditional family doctor for 20 years, discovered that when a part of your body is sick, the whole body system is out of balance. He saw that how his patients thought about and saw life affected and seemed to create whatever their current state of health was. He has stated that it is not enough to heal the particular illness without understanding the emotional and psychological basis for the ailment or problem. We must heal the entire person, not just a specific part. Dr. Miller has had great success with guided imagery to promote physical health and emotional well-being. He has even been successful using guided imagery to do minor surgery without any anesthetic, again proving the mind/body connection and the control of our bodies by our thoughts. Through the presentation of stories, reflections and case studies, Dr. Miller presents his wonderful deep healing theories that will instill a new sense of hope and optimism into all who read this book. **Screenwriting Tips, You Hack** Xander

Bennett, 2013-05-02 Screenwriting Tip 99 Voice over usually feels like scaffolding. You know something you left in there when you were constructing the first draft but really should have torn out after it served its purpose. Screenwriting Tip 120 Always remember that funny trumps everything. Your script could be written in crayon with your name spelled wrong on the cover but if it's genuinely funny, none of that matters. Screenwriting Tip 156 The easiest way to write kick-ass protagonists is to make them incredibly good at what they do. Confused at the outline stage? Stuck in the swamp of Act Two? Don't know who your protagonist is or where she's going? You might feel like a hack. But don't worry, you're not alone. Even the most experienced writers feel like this at times. Sometimes we just need a few short pointers and reminders to set us on the path again. Xander Bennett worked as a script reader in the trenches of Hollywood, reading and covering hundreds of mediocre screenplays. After months of reading about heroic Sea World trainers, transgendered circus detectives and crime fighting

chupacabras he couldn't take it any more Xander started a blog called Screenwriting Tips You Hack a place designed to provide short witty tips on screenwriting for amateur writers all the way up to journeymen scribes This book is the evolution of that blog Dozens of the best scripts along with many brand new ones have been expanded into bite sized chapters full of funny insightful highly usable advice Let Xander's pain be your gain as you learn about the differences between film and television structure how to force yourself to write when you really don't want to and why you probably shouldn't base your first spec script around an alien invasion
