Wrongful Convictions True Murder Cases Unbelievable Miscarriages Of Justice:

Wrongful Convictions Jack Smith, 2015-08-24 Astonishingly Wrongful convictions that led to rethinking capital punishment Ever since DNA evidence started exonerating death row inmates public concern about wrongful executions has been on the rise It has been such a source of worry that some states have abolished the death penalty entirely Although we want to believe that the criminal justice system designed to protect us is infallible mistakes can be and are made The ultimate tragedy is when an innocent person is executed for a crime that he or she didn't commit Inside find three stories of wrongful executions in the UK where justice was swift and limitless appeals were not supported In one case the person was actually exonerated forty six years after being hanged Eliza Fenning and the Devilish Dumplings In March 1815 the entire household of Robert Turner a London law stationer was struck by a mysterious illness When a search was made for its cause a substance believed to be arsenic was found in the dish used to mix up yeast dumplings the family had eaten for dinner Although she had fallen ill too Eliza Fenning the twenty one year old maid who had prepared the dumplings was charged with attempted murder and hanged Her execution is still regarded as one of Britain's worst miscarriages of justice The Messalina of Ilford Edith Thompson and her younger lover Frederick Bywaters were executed in January 1923 for the murder of Edith's husband Although Mr Bywaters confessed and insisted that Mrs Thompson had nothing to do with the murder she was held equally responsible for the crime because of some letters that expressed hostile intent toward her overbearing spouse Her supporters believed that she had really been condemned for being an adulteress There is currently a campaign in process to win her a posthumous royal pardon Let Him Have It On January 28 1953 nineteen year old Derek Bentley was hanged at Wandsworth Prison for the murder of a Metropolitan Police constable Bentley had not fired the fatal shot but his sixteen year old accomplice was too young to receive the death penalty so the mentally impaired Bentley went to the gallows instead In 1998 thanks to four decades of vigorous campaigning by his family he received a posthumous pardon His execution was instrumental in the abolition of capital punishment in the UK It is too late to save these victims of wrongful execution but the time has come to accept that regardless of our individual feelings about the death penalty all future debates on the subject must proceed with the knowledge that innocent people have been put to death Grab your copy today

Wrongful Convictions and Miscarriages of Justice C. Ronald Huff, Martin Killias, 2013 This innovative work builds on Huff and Killias' earlier publication 2008 but is broader and more thoroughly comparative in a number of important ways 1 while focusing heavily on wrongful convictions it places the subject of wrongful convictions in the broader contextual framework of miscarriages of justice and provides discussions of different types of miscarriages of justice that have not previously received much scholarly attention by criminologists 2 it addresses in much greater detail the questions of how and how often wrongful convictions occur 3 it provides more in depth consideration of the role of forensic science in helping produce wrongful convictions and in helping free those who have been wrongfully convicted 4 it offers new insights into the origins and current

progress of the innocence movement as well as the challenges that await the exonerated when they return to free society 5 it assesses the impact of the use of alternatives to trials especially plea bargains in the U S and summary proceedings and penal orders in Europe in producing wrongful convictions 6 it considers how the U S and Canada have responded to 9 11 and the increased threat of terrorism by enacting legislation and adopting policies that may exacerbate the problem of wrongful conviction and 7 it provides in depth considerations of two topics related to wrongful conviction voluntary false confessions and convictions which although technically not wrongful since they are based on law violations represent another type of miscarriage of justice since they are due solely to unjust laws resulting from political repression **Murder, Wrongful Conviction and the Law** Jon Robins,2023-05-31 This collection brings together international experts to present a comparative analysis of wrongful conviction and criminal procedure The volume takes an interdisciplinary approach with authors drawn from a broad range of backgrounds including law psychology forensics and journalism All are experts in their field with direct experience of the investigation of wrongful conviction in their own countries Focusing on the main areas of concern in their own jurisdiction each author discusses common themes including the extent of the problem the types of cases that feature in miscarriages of justice the legal mechanism for the correction of a wrongful conviction compensation for the wrongly convicted public awareness and concern about the issue generally and in light of highprofile cases and the extent to which wrongful conviction has driven criminal justice reform The book will be essential reading for students researchers and policy makers interested in comparative law criminology and psychology **Rethinking Miscarriages of Justice** M.

Naughton,2007-09-05 Drawing on Foucauldian theory and social harm paradigms Naughton offers a radical redefinition of miscarriages of justice from a critical perspective This book uncovers the limits of the entire criminal justice process and challenges the dominant perception that miscarriages of justices are rare and exceptional cases of wrongful imprisonment

The Construction of Guilt in China Yu Mou,2020-04-02 Drawing on insights from the author s own empirical data obtained from systematic observation of the daily routines within Chinese criminal justice institutions this ground breaking book examines the functional deficiency of the criminal justice system in preventing innocent individuals from being wrongly accused and convicted Set within a broad socio legal context it outlines the strategic interrelationships between key legal actors the deep seated legal culture embedded in practice the deficiency of integrity of the system and the structural injustices that follow The author traces criminal case files in the criminal process how they are constructed scrutinised and used to dispose of cases and convict defendants in lieu of witnesses oral testimony This book illustrates that the Chinese criminal justice system as a state apparatus of social control has been framed through performance indicators bureaucratic management and the central value of collectivism in such a way as to maintain the stability of the authoritarian power The Construction of Guilt in China will appeal to academics researchers policy advisers and practitioners working in the areas of criminal law comparative criminal justice criminology and Chinese studies Winner of the 2020 SLS Peter Birks Prize for
