Report to Congress of the U.S.-China Economic and Security Review Commission U.S.-China Economic and Security Review Commission,2008 Inside Xinjiang Anna Hayes,Michael Clarke,2015-12-14 The Xinjiang Uyghur Autonomous Region is China s largest province shares borders with Kazakhstan Kyrgyzstan Tajikistan Afghanistan Pakistan Russia and Mongolia and possesses a variety of natural resources including oil The tensions between ethnic Muslim Uyghurs and the growing number of Han Chinese in Xinjiang have recently increased occasionally breaking out into violence At the same time as being a potential trouble spot for China the province is of increasing strategic significance as China s gateway to Central Asia whose natural resources are of increasing importance to China This book focuses in particular on what life is like in Xinjiang for the diverse population that lives there It offers important insights into the social economic and political

terrains of Xinjiang concentrating especially on how current trends in Xinjiang are likely to develop in the future In doing so it provides a broader understanding of the region and its peoples Xinjiang and China's Rise in Central Asia - A History Michael E. Clarke, 2011-03-08 The recent conflict between indigenous Uyghurs and Han Chinese demonstrates that Xinjiang is a major trouble spot for China with Uyghur demands for increased autonomy and where Beijing's policy is to more firmly integrate the province within China This book provides an account of how China's evolving integrationist policies in Xinjiang have influenced its foreign policy in Central Asia since the establishment of the People's Republic in 1949 and how the policy of integration is related to China's concern for security and its pursuit of increased power and influence in Central Asia The book traces the development of Xinjiang from the collapse of the Qing empire in the early twentieth century to the present and argues that there is a largely complementary relationship between China's Xinjiang Central Asia and grand strategy derived interests This pattern of interests informs and shapes China's diplomacy in Central Asia and its approach to the governance of Xinjiang Michael E Clarke shows how China's concerns and policies although pursued with vigour in recent decades are of long standing and how domestic problems and policies in Xinjiang have for a long time been closely bound up with wider international relations issues *China's Frontier Regions* Doug Smith, Michael E. Clarke, 2016-03-08 China has traditionally viewed her frontier regions Xinjiang Tibet Inner Mongolia and Yunnan as buffer zones Yet their importance as commercial and cosmopolitan hubs intimately involved in the transmission of goods peoples and ideas between China and its west and southwest has meant they are crucial for China's ongoing development The resurgence of China under Deng Xiaoping's policy of reform and opening has therefore led to a focus on integrating these regions into the PRC People's Republic of China This has important implications not only for the frontier regions themselves but also for the neighbouring states with which they have strong cultural religious linguistic and economic ties China's Frontier Regions explores the challenges presented by this integrationist policy both for domestic relations and for diplomatic and foreign policy relations with the countries abutting their frontier regions **Report to Congress of the U. S. -China Economic and Security Review Commission** Carolyn Bartholomew, 2010-03 This report responds to the mandate for the Committee to monitor investigate and report on the national security implications of the bilateral trade and economic relationship between the U S and the People's Republic of China Includes detailed treatment of investigations of the following areas The U S China Trade and Economic Relationship China's Activities Directly Affecting U S Security Interests China in Asia China's Media and Information Controls The Impact in China and the U S Comprehensive List of the Commission's Recommendations Additional Views of Commissioners Appendices Charts and tables 2009 Report to Congress, U.S.-China Economic and Security Review Commission, November 2009, 111-1 U.S.-China Economic and Security Review Commission, 2009 **From Yuan to Modern China and Mongolia** Morris Rossabi, 2015-01-27 This wide ranging work consisting of selected essays of Morris Rossabi reflects the diverse interests of a leading scholar of China and Inner Asia It encompasses the eras from the thirteenth

century to the present territories stretching from China to Mongolia to Central Asia and to the Middle East and religions from Islam to Nestorian Christianity to Judaism and Confucianism in East Central and West Asia Rossabi first challenged the conventional wisdom concerning traditional Chinese foreign relations by showing the pragmatism of Chinese officials who were not bound by Confucian strictures and stereotypes about foreigners and were actually knowledgeable about neighboring regions His studies of the territories surrounding China led to the discovery of a major omission in historical writing the lack of a biography of Khubilai Khan one of the most renowned rulers in Eurasian history His biography of Khubilai resulted in further studies of the Mongolian legacy on global history and of the significant role of women in the Mongolian empire His repeated travels in Mongolia in turn stimulated an interest in modern Mongolia especially the turbulence following the turbulence after the collapse of socialism in 1990 a subject he writes about in this book The need for greater public knowledge and awareness of China Mongolia Central Asia the Silk Roads and Islam in Asia prompted Rossabi to write general occasionally pedagogical articles about these topics for a wider audience Globalizing Central Asia

Marlene Laruelle, Sebastien Peyrouse, 2015-02-12 In this global era Central Asia must be understood in both geo economic and geopolitical terms The region's natural resources compel the attention of rivalrous great powers and ambitious internal factions The local regimes are caught between the need for international collaborations to valorize these riches and the need to maintain control over them in the interest of state sovereignty Russia and China dominate the horizon with other global players close behind meanwhile neighboring countries are fractious and unstable with real potential for contagion This pathbreaking introduction to Central Asia in contemporary international economic and political context answers the needs of both academic and professional audiences and is suitable for course adoption *Competing Nationalisms in China's*
