Tot Gerief Van De Reiziger Vier Eeuwen Amsterdamhaarlem:

The Life of Romeyn de Hooghe 1645-1708 Henk Nierop, 2025-10-01 Romeyn de Hooghe was the most inventive and prolific etcher of the later Dutch Golden Age. The producer of wide ranging book illustrations, newsprints, allegories and satire, he is best known as the chief propaganda artist working for stadtholder and king William III. This study, the first book length biography of de Hooghe, narrates how his reputation became badly tarnished when he was accused of pornography, fraud, larceny and atheism. Traditionally regarded as a godless rogue and more recently as an exponent of the Radical Enlightenment, de Hooghe emerges in this study as a successful entrepreneur, a social climber and an Orangist spin doctor. A study in seventeenth century political culture and patronage focusing on spin and slander, this book explores how artists, politicians and hacks employed literature and the visual arts in political discourse and tried to capture their readership with satire, mockery, fun and laughter. *Time, Innovation and Mobilities* Peter Frank Peters, 2006-07-13 In social theory and sociology, time and travel in technological cultures is one of the new and challenging research topics in the mobilities turn. Yet surprisingly, contemporary practices of mobility have till now seen only limited theorization within these disciplines. By analyzing historic and contextualized transit practices, this revealing book argues that travel cannot now simply be reduced to getting from A to B; it is an integrated part of everyday life. In this area, researching how problems can be identified as dilemmas and reformulated as design problems helps create a new vocabulary, one which will not only change the agenda in the debate on mobility problems in the public domain but will also suggest new ways of theorizing mobility innovations. In this fascinating book, author Peters develops a conceptual framework to study contemporary transit practices and evaluate innovation strategies, gives new insights regarding historic and contemporary design strategies and regarding innovations related to travel in technological cultures, gives special attention to electronic timespaces and ICT based mobility innovations, investigates cases of travel in technological cultures: car travel, air travel and cycling in Dutch towns. An original and provocative contribution to the emerging field of mobilities, this book will become an essential resource for advanced undergraduate, post graduate researchers and practitioners in the fields of sociology, geography, spatial planning, policy and transportation studies. **Regional Development in an Age of Structural Economic Change** Piet Rietveld, Daniel Shefer, 2024-02-22 First published in 1999, this volume addresses various themes in regional development studies from the perspective of structural economic change. Particular attention is paid to factors having long run implications for regional development, such as innovation and knowledge production. Innovation and research and development activities appear to take place at particular locations. This has implications for long run spatial and sectoral developments. Another factor is transport infrastructure; its impact on efficiency and equity is surveyed. Other themes covered relate to the role of tourism and adjustments in urban economies. The book aims to offer a balance between modelling and non modelling approaches. In addition to country specific contributions, some are offered at the European level. **Een vrije geest** Marita

Mathijssen, 2024-12-20 Betje Wolff 1738-1804 is tegenwoordig vooral nog bekend als helft van het schrijversduo dat zij jarenlang met Aagje Deken vormde. Maar voordat zij Deken leerde kennen, had Wolff al naam gemaakt als schrijfster. Met haar scherpe pen riep zij felle controverses op. In deze prachtige aangrijpende nieuwe biografie laat Marita Mathijssen zien hoe vooruitstrevend Betje Wolff was als schrijfster, maar ook als eigenzinnige vrouw die het opnam tegen de heersende conservatieve moraal. Wolffs leven zo laat Mathijssen zien was ongekend opwindend en haar schrijverschap is meesterlijk. Geen vrouw wist ooit zo spottend over het orthodoxe geloof te schrijven. Ze nam ferm stelling tegen de onderdrukking van vrouwen, tegen de slavernij, tegen dierenmishandeling en voor het natuurlijke en democratische bestuur. Dat maakt haar uniek, niet alleen toen maar ook nu nog. Als dichter en romanschrijver wist zij deels samen met Deken bovendien de Nederlandse literatuur te vernieuwen. In de tussentijd werd zij geplaagd door ziektes, persoonlijke aanvallen en politieke omwentelingen. Op haar vijftigste moest ze met Aagje naar Frankrijk vluchten. Mathijssen heeft dat alles prachtig vervlochten tot een fascinerende en uiterst leesbare biografie van misschien wel de eerste feministe van Nederland.
