Abraham,Seema D. Iyer,2021-03-05 This volume presents North American best practices and perspectives on developing managing and monitoring indicators to track development progress towards the Sustainable Development Goals SDGs in local communities and cities In 4 main sections the book presents and frames the many ways in which community indicator programs are either integrating or retooling to integrate the SDGs into their existing frameworks or how they are developing new programs to

track and report progress on the SDGs This is the first volume that focuses on SDG adoption within the context of North Americans cities and communities and the unique issues and opportunities prevalent in these settings The chapters are developed by experienced academics and practitioners of community planning and sustainable development and will add broad perspective on public policy organizational management information management and data visualization This volume presents a case study approach to chapters offering lessons that can be used by three main audiences 1 teachers and researchers in areas of urban regional and environmental planning urban development and public policy 2 professional planners decision makers and urban managers and 3 sustainability activists and interested groups Toward Sustainable Communities Mark Roseland,1992 **The Happiness Policy Handbook** Laura Musikanski,Rhonda Phillips,Jean Crowder,2019-09-10 Build a better society through happiness policy Thomas Jefferson said that the purpose of government is to enable the people of a nation to live in safety and happiness Yet only now 270 years later is the happiness of citizens starting to be taken seriously as the purpose of government While happiness science is advancing rapidly and governments and organizations are creating indices for measuring happiness there is little practical information on how to create policy to advance happiness Drawing from a deep well of expertise and experience The Happiness Policy Handbook is the first step by step guide for integrating happiness into government policy at all levels Coverage includes A concise background on happiness science indices and indicators and happiness in public policy Tools for formulating happiness policy and integrating happiness into administrative functions A concept menu of happiness policies Communicating happiness policy objectives to media and engaging with the community A happiness policy screening tool for evaluating the happiness contribution of any policy Policy perspectives from seasoned experts across sectors The Happiness Policy Handbook is the essential resource for policymakers and professionals working to integrate happiness and well being into governmental processes and institutions **Decarbonising Cities** Vanessa Rauland,Peter Newman,2015-03-27 This book sets out some positive directions to move forward including government policy and regulatory options an innovative GRID Greening Regenerative Improvement Districts scheme that can assist with funding and management and the first steps towards an innovative carbon credit scheme for the built environment Decarbonising cities is a global agenda with huge significance for the future of urban civilisation Global demonstrations have shown that technology and design issues are largely solved However the mainstreaming of low carbon urban development particularly at the precinct scale currently lacks sufficient standards for measuring carbon covering operational embodied and transport emissions assessment and decision making tools to assist in design options certifying processes for carbon neutrality within the built environment and accreditation processes for enabling carbon credits to be generated from precinct wide urban development Numerous barriers are currently hindering greater adoption of high performance low carbon developments many of which relate to implementation and governance How to enable and manage precinct scale renewables and other low carbon technologies within an urban

setting is a particular challenge Can a City Be Sustainable? (State of the World) The Worldwatch Institute,2016-05-10
Cities are the world's future Today more than half of the global population 3.7 billion people are urban dwellers and that number is expected to double by 2050 There is no question that cities are growing the only debate is over how they will grow Will we invest in the physical and social infrastructure necessary for livable equitable and sustainable cities In the latest edition of State of the World the flagship publication of the Worldwatch Institute experts from around the globe examine the core principles of sustainable urbanism and profile cities that are putting them into practice From Ahmedabad India to Freiburg Germany local people are acting to improve their cities even when national efforts are stalled Issues examined range from the nitty gritty of handling waste and developing public transportation to civic participation and navigating dysfunctional government The result is a snapshot of cities today and a vision for global urban sustainability tomorrow

The Regeneration Imperative William Humber,Gail Krantzberg,Velma I. Grover,2015-11-18 This book on urban regeneration takes an approach that captures the increasing urbanization of modern living in all parts of the world Revitalization of built and natural surroundings needs to take place to achieve resilient environmental social and economic success The book looks at proactive natural and built regeneration strategies to increase **Sustainable Cities in American Democracy** Carmen Sirianni,2020-09-25 We face two global threats the climate crisis and a crisis of democracy Located at the crux of these crises sustainable cities build on the foundations and resources of democracy to make our increasingly urban world more resilient and just Sustainable Cities in American Democracy focuses on this effort as it emerged and developed over the past decades in the institutional field of sustainable cities a vital response to environmental degradation and climate change that is shaped by civic and democratic action Carmen Sirianni shows how various kinds of civic associations and grassroots mobilizing figure in this story especially as they began to explicitly link conservation to the future of our democracy and then develop sustainable cities as a democratic project These organizations are national local or multitiered from the League of Women Voters to the Natural Resources Defense Council to bicycle and watershed associations Some challenge city government agencies contentiously while others seek collaboration many do both at some point Sirianni uses a range of analytic approaches from scholarly disciplines policy design urban governance social movements democratic theory public administration and planning to understand how such diverse civic and professional associations have come to be both an ecology of organizations and a systemic and coherent project The institutional field of sustainable cities has emerged with some core democratic norms and civic practices but also with many tensions and trade offs that must be crafted and revised strategically in the face of new opportunities and persistent shortfalls Sirianni's account draws ambitious yet pragmatic and hopeful lessons for a Civic Green New Deal a policy design for building sustainable and resilient cities on much more robust foundations in the decades ahead while also addressing democratic deficits in our polarized political culture Sustainable Disposal Methods of Food Wastes in Hospitality Operations Singh, Amrik,Tyagi,

Pankaj Kumar,Garg, Anshul,2024-03-06 Food waste has evolved into a global crisis casting a long shadow over nations and the interconnected fabric of our world The repercussions of this excess reverberate through environmental and socio economic landscapes demanding immediate attention Globally the challenge of reducing food waste is acknowledged as a linchpin in achieving a sustainable future The book Sustainable Disposal Methods of Food Wastes in Hospitality Operations confronts this escalating issue head on It contends that the time is ripe for a change in waste disposal practices advocating for sustainable methods to alleviate environmental strain combat climate change and safeguard public health This book delves into the heart of waste management principles and strategies Beyond identifying the severity of the issue the book ventures into uncharted territories exploring emergent debates surrounding systemic causes and solutions In a world where information and communication technology empower organizations a gap persists in translating these advancements into effective waste management initiatives The book urges a holistic understanding of the issue drawing attention to the need for collaborative efforts between governments and private industry players to bridge this divide As it provides a global perspective the handbook becomes a tool for those seeking to comprehend the intricate web of challenges posed by food waste and navigate towards a sustainable future **Sustainability Planning and Collaboration in Rural Canada** Lars K.

Hallström,Mary A. Beckie,Glen Hvenegaard,Karsten Mündel,2016-05-16 Rural communities often the first indicators of economic downturns play an important role in planning for development and sustainability Increasingly these communities are compelled to reimagine the paths that lead not only to economic success but also to the cultural social environmental and institutional pillars of sustainability As the contributors to this volume demonstrate there are many examples of such innovation and creativity and many communities that seek out new ways to build the collaboration capacity and autonomy necessary to survive and flourish Contributors Don Alexander Kirstine Baccar Michael Barr Mary A Beckie Moira J Calder Meredith Carter Yolande E Chan Sean Connelly Jon Corbett Anthony Davis Jeff A Dixon David J A Douglas Roger Epp Kelly Green Lars K Hallstr m Greg Halseth Casey Hamilton Karen Houle Glen T Hvenegaard Melanie Irvine Bernie Jones Robert Keenan Rhonda Koster Ryan Lane Sean Markey Shelly McMann L Jane McMillan Morgan E Moffitt Karen Morrison Karsten M ndel Craig Pollett Kerry Prosper Mark Roseland Laura Ryser Claire Sanders Jennifer Sumner Kelly Vodden Marc von der Gonna Shayne Wright Reinventing Healthy Communities: Implications for Individual and Societal Well-Being Jerry D.

Marx,2018-09-27 This book is a printed edition of the Special Issue Reinventing Healthy Communities Implications for Individual and Societal Well Being that was published in Social Sciences **Environmental Policy** Thomas Walker,Sherif Goubbran,Northrop Sprung-Much,2020-09-04 EXPAND YOUR UNDERSTANDING OF HOW ENVIRONMENTAL POLICY AFFECTS BUSINESS THE ECONOMY AND YOUR LIFE WITH THIS ESSENTIAL RESOURCE Environmental Policy An Economic Perspective offers readers a comprehensive examination of the ever broadening scope and impact of environmental policy law and regulation Editors Thomas Walker Northrop Sprung Much and Sherif Goubbran walk readers

through a variety of subjects while maintaining a global perspective on the expanding role of environmental law This book takes a pragmatic and practical approach to its subject matter showing readers the real impact across the world of different kinds of environmental policy Among other topics Environmental Policy An Economic Perspective tackles Climate change legislation Water conservation and pricing Biodiversity of the marine environment Wildlife ranching Emission trading schemes Green job strategies Sustainable investing Written for undergraduate and graduate students in any field affected by environmental legislation and policy this book also belongs on the shelves of anyone who seeks to better understand the increasingly important role of environmental policy on their business and life The Palgrave Handbook of Sustainability

Robert Brinkmann, Sandra J. Garren, 2018-04-30 This book provides a comprehensive overview of the practice of sustainability through a diverse range of case studies spanning across varied fields and areas of expertise It provides a clear indication as to the contemporary state of sustainability in a time faced by issues such as global climate change challenges of environmental justice economic globalization and environmental contamination The Palgrave Handbook of Sustainability explores three broad themes Environmental Sustainability Social Sustainability and Economic Sustainability The authors critically explore these themes and provide insight into their linkages with one another to demonstrate the substantial efforts currently underway to address the sustainability of our planet This handbook is an important contribution to the best practises on sustainability drawn from many different examples across the fields of engineering geology anthropology sociology biology chemistry and religion *Ecocities Now* Jennie Moore, Sahar Attia, Adel Abdel-Kader, Aparajithan Narasimhan, 2020-11-30 This book presents a selection of the best papers submitted to the International Ecocity World Summit held in Vancouver October 7 11 2019 The objective is to accelerate knowledge dissemination about the development of ecocities through attention to what constitutes an ecocity what cities around the world are doing what Vancouver as an emerging ecocity is doing and how education can play a role in preparing the next generation of ecocity practitioners The book uses the Summit's overarching theme and sub themes as an organizing framework and aligns with the International Ecocity Standards that serve as a diagnostic tool to help cities assess their progress on the path to becoming ecocities The Ecocity Standards are also proving useful to communities in developing locally relevant pathways to achieving the UN Sustainable Development Goals The book is presented in four parts that align with the Summit overarching theme of i building a bridge to socially just and ecologically sustainable cities supported by sub themes of ii climate action iii circular economy and iv informal solutions for sustainable development Chapters comprising each part in the book are introduced by a brief precis that orients the reader to the relevant Ecocity Standards that are being addressed and other important contextual considerations that open the potential application of the chapters to an international audience Arguments presented in the selected papers provide an orientation to the importance of engaging people where they live in ecocity transformations as well as emerging opportunities for affordable and accessible technologies that help cities build capacity

for implementation of ecocity initiatives
