Tokyo A Spatial Anthropology:

Tokyo Hidenobu Jinnai, 1995 The sheer physical extent of Tokyo its mile upon mile of high density and mostly low rise development seemingly without topographic or maritime memory makes it a difficult city for many Westerners to understand We suspect that the same may be so for many Japanese Jinnai Hidenobu shows us how today s Tokyo is rooted in its early development and how today s streets waterways land uses and building types come from a past that remains visible to those who would care to look One needs to walk or to row with Jinnai to see how yesterday makes today His is a work of love that ties generations together in their physical environment Allan B Jacobs author of *Great Streets* Function-Based Spatiality and the Development of Korean Communities in Japan David Rands, 2014-05-21 Function Based Spatiality and the Development of Korean Communities in Japan utilizes the theoretical model of complex adaptive systems and introduces the concept of function based spatiality to investigate the roles of the urban environments of Tokyo and Osaka in the development of Korean communities in Japan Analysis of distinct Korean communities allows for the examination of urban factors of each city which contributed to the patterns of Korean immigration and community formation By utilizing a comparative narrative of the two cities distinctions between the organic growth of Osaka and the planned city of Tokyo are illuminated Additionally the discussion utilizes the concept of function based spatiality to show how each city interacted with its surrounding regional national and global spheres The functions of Tokyo as a gateway to Western modernization and center of the Japanese state shaped the interactions with Korean immigrants Likewise Osaka s functions as a center of mercantilism and second city played a large role in how Koreans were incorporated into the urban ethnoscaapes Taken together these two examples provide insight to the dynamics of urban systems on the development of immigrant communities

Topographies of Japanese Modernism Seiji M. Lippit, 2002 What happens when a critique of modernity a revolt against the traditions of the Western world is situated within a non European context where the concept of the modern has been inevitably tied to the image of the West Seiji M Lippit offers the first comprehensive study in English of Japanese modernist fiction of the 1920s and 1930s Through close readings of four leading figures of this movement Akutagawa Yokomitsu Kawabata and Hayashi Lippit aims to establish a theoretical and historical framework for the analysis of Japanese modernism The 1920s and 1930s witnessed a general sense of crisis surrounding the institution of literature marked by both the radical politicization of literary practice and the explosion of new forms of cultural production represented by mass culture Against this backdrop this study traces the heterogeneous literary topographies of modernist writings Through an engagement with questions of representation subjectivity and ideology it situates the disintegration of literary form in these texts within the writers exploration of the fluid borderlines of Japanese modernity *Tokyo* Evelyn Schulz, Barbara E. Thornbury, 2017-10-17 *Tokyo Memory Imagination and the City* is a collection of eight essays that explore Tokyo urban space from the perspective of memory in works of the imagination novels short stories poetry essays and films Written by scholars

of Japanese studies based in England Germany Japan and the United States the book focuses on texts produced in Japan since the 1980s The closing years of the Showa period 1926 1989 were a watershed decade of spatial transformation in Tokyo It was also a time in Japan as elsewhere when conversations about the nature of memory historical cultural collective and individual intensified The contributors to the volume share the view that works of the imagination are constitutive elements of how cities are experienced and perceived Each of the essays responds to the growing interest in studies on Tokyo with a literary cultural orientation *Urban Spaces in Japan* Christoph Brumann,Evelyn Schulz,2012 *Urban Spaces in Japan* explores the workings of power money and the public interest in the planning and design of Japanese space Through a set of vivid case studies of well known Japanese cities including Tokyo Kobe and Kyoto this book examines the potential of civil society in contemporary planning debates Further it addresses the implications of Japan s biggest social problem the demographic decline for Japanese cities and demonstrates the serious challenges and exciting possibilities that result from the impending end of Japan s urban growth Presenting a synthetic approach that reflects both the physical aspects and the social significance of urban spaces this book scrutinizes the precise patterns of urban expansion and shrinkage In doing so it also summarizes current theories of public space urban space and the body in space which are relevant to both Japan and the wider international debate With detailed case studies and more general reflections from a broad range of disciplines this collection of essays demonstrates the value of cross disciplinary cooperation As such it is of interest to students and scholars of geography and urban planning as well as history anthropology and cultural studies **Planning Twentieth Century Capital Cities** David Gordon,2006-09-27 This book examines the plans for sixteen important capital cities around the world each with its own fully illustrated chapter written by an expert on the urban development of that city The Resilient City Lawrence J. Vale,Thomas J. Campanella,2005-01-20 In 1871 the city of Chicago was almost entirely destroyed by what became known as The Great Fire Thirty five years later San Francisco lay in smoldering ruins after the catastrophic earthquake of 1906 Or consider the case of the Jerusalem the greatest site of physical destruction and renewal in history which over three millennia has suffered wars earthquakes fires twenty sieges eighteen reconstructions and at least eleven transitions from one religious faith to another Yet this ancient city has regenerated itself time and again and still endures Throughout history cities have been sacked burned torched bombed flooded besieged and leveled And yet they almost always rise from the ashes to rebuild Viewing a wide array of urban disasters in global historical perspective *The Resilient City* traces the aftermath of such cataclysms as the British invasion of Washington in 1814 the devastation wrought on Berlin Warsaw and Tokyo during World War II the late 20th century earthquakes that shattered Mexico City and the Chinese city of Tangshan Los Angeles after the 1992 riots the Oklahoma City bombing the destruction of the World Trade Center Revealing how traumatized city dwellers consistently develop narratives of resilience and how the pragmatic process of urban recovery is always fueled by highly symbolic actions *The Resilient City* offers a deeply informative and unsentimental tribute to the

dogged persistence of the city and indeed of the human spirit Japan in Print Mary Elizabeth Berry, 2006-02-16 A quiet revolution in knowledge separated the early modern period in Japan from all previous time After 1600 self appointed investigators used the model of the land and cartographic surveys of the newly unified state to observe and order subjects such as agronomy medicine gastronomy commerce travel and entertainment They subsequently circulated their findings through a variety of commercially printed texts maps gazetteers family encyclopedias urban directories travel guides official personnel rosters and instruction manuals for everything from farming to lovemaking In this original and gracefully written book Mary Elizabeth Berry considers the social processes that drove the information explosion of the 1600s Inviting readers to examine the contours and meanings of this transformation Berry provides a fascinating account of the conversion of the public from an object of state surveillance into a subject of self knowledge Japan in Print shows how as investigators collected and disseminated richly diverse data they came to presume in their audience a standard of cultural literacy that changed anonymous consumers into an us bound by common frames of reference This shared space of knowledge made society visible to itself and in the process subverted notions of status hierarchy Berry demonstrates that the new public texts projected a national collectivity characterized by universal access to markets mobility sociability and self fashioning The Making of Modern Japan Marius B. Jansen, 2009-07-01 Magisterial in vision sweeping in scope this monumental work presents a seamless account of Japanese society during the modern era from 1600 to the present A distillation of more than fifty years engagement with Japan and its history it is the crowning work of our leading interpreter of the modern Japanese experience Since 1600 Japan has undergone three periods of wrenching social and institutional change following the imposition of hegemonic order on feudal society by the Tokugawa shogun the opening of Japan's ports by Commodore Perry and defeat in World War II The Making of Modern Japan charts these changes the social engineering begun with the founding of the shogunate in 1600 the emergence of village and castle towns with consumer populations and the diffusion of samurai values in the culture Marius Jansen covers the making of the modern state the adaptation of Western models growing international trade the broadening opportunity in Japanese society with industrialization and the postwar occupation reforms imposed by General MacArthur Throughout the book gives voice to the individuals and views that have shaped the actions and beliefs of the Japanese with writers artists and thinkers as well as political leaders given their due The story this book tells though marked by profound changes is also one of remarkable consistency in which continuities outweigh upheavals in the development of society and successive waves of outside influence have only served to strengthen a sense of what is unique and native to Japanese experience The Making of Modern Japan takes us to the core of this experience as it illuminates one of the contemporary world's most compelling transformations New Essays in Japanese Aesthetics A. Minh Nguyen, 2017-12-29 This collection presents twenty seven new essays in Japanese aesthetics by leading experts in the field Beginning with an extended foreword by the renowned scholar and artist Stephen Addiss and a comprehensive introduction

that surveys the history of Japanese aesthetics and the ways in which it is similar to and different from Western aesthetics this groundbreaking work brings together a large variety of disciplinary perspectives including philosophy literature and cultural politics to shed light on the artistic and aesthetic traditions of Japan and the central themes in Japanese art and aesthetics Contributors explore topics from the philosophical groundings for Japanese aesthetics and the Japanese aesthetics of imperfection and insufficiency to the Japanese love of and respect for nature and the paradoxical ability of Japanese art and culture to absorb enormous amounts of foreign influence and yet maintain its own unique identity New Essays in Japanese Aesthetics will appeal not only to a wide range of humanities scholars but also to graduate and undergraduate students of Japanese aesthetics art philosophy literature culture and civilization Masterfully articulating the contributors Japanese aesthetical concerns and their application to Japanese arts including literature theater film drawing painting calligraphy ceramics crafts music fashion comics cooking packaging gardening landscape architecture flower arrangement the martial arts and the tea ceremony these engaging and penetrating essays will also appeal to nonacademic professionals and general audiences This seminal work will be essential reading for anyone interested in gaining a deeper understanding of Japanese aesthetics

Urban Forests, Trees, and Greenspace L. Anders Sandberg, Adrina Bardekjian, Sadia Butt, 2014-07-25 Urban forests trees and greenspace are critical in contemporary planning and development of the city Their study is not only a question of the growth and conservation of green spaces but also has social cultural and psychological dimensions This book brings a perspective of political ecology to the complexities of urban trees and forests through three themes human agency in urban forests and greenspace arboreal and greenspace agency in the urban landscape and actions and interventions in the urban forest Contributors include leading authorities from North America and Europe from a range of disciplines including forestry ecology geography landscape design municipal planning environmental policy and environmental history

Coffee Life in Japan Merry White, 2012-05-01 This fascinating book part ethnography part memoir traces Japan's vibrant caf society over one hundred and thirty years Merry White traces Japan's coffee craze from the turn of the twentieth century when Japan helped to launch the Brazilian coffee industry to the present day as uniquely Japanese ways with coffee surface in Europe and America White's book takes up themes as diverse as gender privacy perfectionism and urbanism She shows how coffee and coffee spaces have been central to the formation of Japanese notions about the uses of public space social change modernity and pleasure White describes how the caf in Japan from its start in 1888 has been a place to encounter new ideas and experiments in thought behavior sexuality dress and taste It is where a person can be socially artistically or philosophically engaged or politically vocal It is also importantly an urban oasis where one can be private in public

Doing Ethnography in the Wake of the Displacement of Transnational Sex Workers in Yokohama Ayaka Yoshimizu, 2021-11-22

Doing Ethnography in the Wake of the Displacement of Transnational Sex Workers in Yokohama reflects on the politics poetics and ethics of remembering the lives of transnational migrant sex workers in postcolonial Japan Drawing on ethnographic fieldwork in the port city of Yokohama the book focuses on the water trade in the Koganecho neighbourhood where exploitative and stigmatised labour took place involving sexual services performed by migrant women In recent years the city has sought to rebrand Koganecho evicting transnational migrant sex workers who had been integral to postindustrial development and erasing their past presence The author explores Yokohama's memoryscapes in the aftermath of displacement through embodied knowledge engaging her senses and ethics as a colonizer researcher as she navigates the elusive past through traces that remain in the present She examines the city's built environment official historical narratives films and photographic works With few brothels and workers remaining Yoshimizu fills the gap with her own interactions encounters and imaginings Yoshimizu also writes through the imagery of water in ways that are informed by the local usage and imaginations the ocean flowing rivers swamps humidity alcohol the fluidity of relationships and transient lives The water also offers a way to sense the ghost or the displaced lives and the effects of displacement that like humid air stick to those who occupy or inhabit the site of displacement today This interdisciplinary work makes a valuable contribution to sensory studies memory studies migration studies and Asian studies

Construct Iain Borden, 2025-12-09

Construct introduces a new category of architecture and engineering in our cities These structures are highly visible yet often ignored large scale and built without traditional designers They are characterised by substantial technical innovation and expertise embedded in the everyday lives of thousands of urban citizens and serve as embodiments of cultural and political meanings These constructions represent an overlooked but significant aspect of our urban landscape combining technical advancement with cultural significance despite their often anonymous design origins The opening chapter introduces Construct as an architectural academic and methodological concept including its interdisciplinary approach combining history critical theory ethnography and visual studies Six independent chapters then explore specific recent manifestations around the world the resund bridge between Copenhagen and Malm tower cranes in Dubai Shibuya pedestrian intersection in Tokyo Venice skatepark in Los Angeles Limehouse Link tunnel in London and the Singapore Flyer observation wheel in Singapore Each is interpreted in its own context and as a

manifestation of its shared architectural typology worldwide Construct will appeal to those interested in the architecture urbanism and experience of contemporary cities worldwide and particularly those working in the fields of architecture media studies planning sociology and urban geography *Routledge Handbook of Modern Japanese Literature* Rachael Hutchinson, Leith Douglas Morton, 2025-08-29 This 2nd edition of the Routledge Handbook of Modern Japanese Literature provides a comprehensive survey of the field of modern Japanese literature and gives readers an overview of how we study Japanese literature today Including sections on space and time gender and sexuality politics war memory national and colonial identities and the production and dissemination of literature the Handbook examines the ways in which it is possible to read modern Japanese literature and situate it in relation to critical theory It also features updated and brand new chapters addressing the works of internationally renowned writers such as Futabatei Shimei and Murakami Haruki and defines the way writers produce literature in modern Japan as well as how those works have been read and understood by different readers in different time periods Written by an international team of experts the Handbook examines modes of literary production such as fiction poetry and critical essays as distinct forms of expression that nonetheless are closely interrelated and as such it will be a vital resource for students and scholars of Japanese Literature literature in translation and modern and contemporary literature
