Gauging industry competition Tracking competitive advantage Targeting the strategic gap Bridging the gap with business strategy Bridging the gap with corporate strategy Addressing risk and opportunity The FT Essential Guide to Developing a Business Strategy will help businesses of all sizes to chart and realise their growth ambitions The Routledge Companion to Leadership John Storey, Jean Hartley, Jean-Louis Denis, Paul 't Hart, David Ulrich, 2016-09-13 Leadership has never been more important and divisive than it is today The idea and discourse of the leader remains a critical factor in organizational and societal performance but there is evident tension between the persistent focus on the critical importance of individual leaders and the increasing emphasis on collective leadership The Routledge Companion to Leadership provides a survey of the contentious and dynamic discipline of leadership This collection covers key themes in the field including advances in leadership theory leadership in a range of contexts and geographies leadership failure leadership process and leadership development Topics range from micro studies to wider political analyses of leadership taking in unusual but important aspects such as portrayals of leadership in architecture media and science fiction Contributions from 61 internationally renowned authors from 16 countries make available the full range of perspectives approaches and insights on the idea of leadership Providing both a social sciences and a psychological approach these go beyond common themes to offer diverse perspectives on such topics as emotion and leadership portrayals of leadership This volume situates leadership debates and evidence within contemporary leadership crises while ensuring that the explorations of the issues are of enduring relevance With wide and critical coverage of the key topics and potent contextualization of themes in current events The Routledge Companion to Leadership is the ideal resource for graduate study in leadership *Business Alchemy: Turning Ideas into Gold* William R. Cobb, 2012-06-21 Entrepreneurs play a vital role in economic development as key contributors to technological innovation and new job growth We discovered that many people just like you have the urge to create an enterprise to help themselves and to make a difference in this world While successful entrepreneurs like Steve Jobs and Bill Gates are well publicized the harsh reality is that most new businesses are prone to failure because they don't have access to accurate information about the entrepreneurial process This book is a word map for guiding you through that process from refining your business idea and securing capital to a successful launch into the marketplace There are many types of business ideas to pursue and you are probably better educated than many historic entrepreneurs both Thomas Edison and Ray Kroc being high school dropouts and both Steve Jobs and Bill Gates being college dropouts If you hunger to be your own boss and to make a contribution to society with your ideas then Business Alchemy Turning Ideas into Gold has the information for which you have been searching **Valuing Banks** Federico Beltrame, Daniele Previtali, 2016-06-27 This book aims to overcome the limitations the variations in bank specifics impose by providing a bank specific valuation theoretical framework and a new asset side model The book includes also a constructive comparison of equity and asset side methods The authors present a novel framework entitled the Asset Mark down Model This method incorporates an Adjusted

Present Value model which allows practitioners to identify the main value creation sources of a particular bank from asset based cash flow and the mark down on deposits to tax benefits on bearing liabilities Through the implementation of this framework the authors offer a more accurate and more specific approach to valuing banks **Aviation Investment**

Doramas Jorge-Calderón, 2020-12-28 Aviation Investment uniquely addresses investment appraisal methods across the key industries that make up the aviation sector including the airports air traffic management airline and aircraft manufacturing or aeronautic industries This practice oriented book presents methods through realistic case studies It covers both economic appraisal or cost benefit analysis measuring the value of projects to society and financial appraisal valuing projects as cash generators This substantially expanded second edition covers in greater detail the treatment of environmental emissions paying particular attention to climate change It addresses the treatment of Market Based Mechanisms MBMs including cap and trade systems like ETS and offset systems like CORSIA and compares them to environmental taxes It also addresses the adjustments needed to measure the foreign exchange generating value of projects relevant in the presence of trade barriers The new edition includes two new project types One is airport relocations perhaps the most complex type of airport projects where the economic case is often more nuanced than may be apparent The second is the re introduction of supersonic travel Aviation Investment offers all aviation sub sectors a single source reference bringing together the theoretical background of the economic appraisal literature and aviation investment in practice It is written in a style that is accessible to non academic professionals using formulae only where strictly necessary to enable practical applications and benefits from the substantial practical experience of the author **Aviation Investment** Dr Doramas Jorge-Calderón, 2014-01-31 Aviation Investment uniquely addresses investment appraisal methods across the key industries that make up the aviation sector including the airports air traffic management airline and aircraft manufacturing or aeronautic industries It is a practice oriented book where methods are presented through realistic case studies The emphasis is on economic appraisal or cost benefit analysis in order to determine the viability of projects not only for private investors but for society as a whole Financial cash flow appraisal is illustrated alongside economic appraisal as the latter builds on the former but also to show how economic appraisal enhances standard financial appraisal to determine the long term sustainability of any investment Aviation is a capital intensive sector that is growing rapidly with world traffic expected to double over the next 15 years or so A great deal of economic appraisal of investment projects takes place already as aviation is subject to government intervention through economic regulation and financial support and as both investors and policy makers seek to understand issues such as how environmental legislation may impact the viability of investments Both economic growth and welfare go hand in hand with sound investment decisions particularly regarding sectors such as aviation where investments are large and almost invariably debt financed Aviation Investment offers all aviation sub sectors a single source reference bringing together the theoretical background of the economic appraisal literature and aviation investment in practice It is written in a style that is accessible

to non academic professionals using formulae only where strictly necessary to enable practical applications and benefits from the substantial practical experience of the author
