Vattimo And Theology Philosophy And Theology:

After the Death of God John D. Caputo, Gianni Vattimo, 2009-06-02 It has long been assumed that the more modern we become the less religious we will be Yet a recent resurrection in faith has challenged the certainty of this belief In these original essays and interviews leading hermeneutical philosophers and postmodern theorists John D Caputo and Gianni Vattimo engage with each other s past and present work on the subject and reflect on our transition from secularism to postsecularism As two of the figures who have contributed the most to the theoretical reflections on the contemporary philosophical turn to religion Caputo and Vattimo explore the changes distortions and reforms that are a part of our postmodern faith and the forces shaping the religious imagination today Incisively and imaginatively connecting their argument to issues ranging from terrorism to fanaticism and from politics to media and culture these thinkers continue to reinvent the field of hermeneutic philosophy with wit grace and passion

The Future of Religion Richard Rorty, Gianni Vattimo, 2005-02-02 Though coming from different and distinct intellectual traditions Richard Rorty and Gianni Vattimo are united in their criticism of the metaphysical tradition The challenges they put forward extend beyond philosophy and entail a reconsideration of the foundations of belief in God and the religious life They urge that the rejection of metaphysical truth does not necessitate the death of religion instead it opens new ways of imagining what it is to be religious ways that emphasize charity solidarity and irony This unique collaboration which includes a dialogue between the two philosophers is notable not only for its fusion of pragmatism Rorty and hermeneutics Vattimo but also for its recognition of the limits of both traditional religious belief and modern secularism In *Anticlericalism and Atheism* Rorty discusses Vattimo s work *Belief* and argues that the end of metaphysics paves the way for an anti essentialist religion Rorty s conception of religion determined by private motives is designed to produce the gospel s promise that henceforth God will not consider humanity as a servant but as a friend In *The Age of Interpretation* Vattimo who is both a devout Catholic and a frequent critic of the church explores the surprising congruence between Christianity and hermeneutics in light of the dissolution of metaphysical truth As in hermeneutics interpretation is central to Christianity which introduced the world to the principle of interiority dissolving the experience of objective reality into listening to and interpreting messages The lively dialogue that concludes this volume moderated and edited by Santiago Zabala analyzes the future of religion together with the political social and historical aspects that characterize our contemporary postmodern postmetaphysical and post Christian world

Vattimo and Theology Thomas G. Guarino, 2009-11-01 An examination of Vattimo s work asking to what extent his insights present new challenges to Christian thought

Christianity, Truth, and Weakening Faith Gianni Vattimo, René Girard, 2010-02-16 The debate over the place of religion in secular democratic societies dominates philosophical and intellectual discourse These arguments often polarize around simplistic reductions making efforts at reconciliation impossible Yet more rational stances do exist positions that broker a peace between relativism and religion in people s public private and ethical lives Christianity

Truth and Weakening Faith advances just such a dialogue featuring the collaboration of two major philosophers known for their progressive approach to this issue Seeking unity over difference Gianni Vattimo and Ren Girard turn to Max Weber Eric Auerbach and Marcel Gauchet among others in their exploration of truth and liberty relativism and faith and the tensions of a world filled with new forms of religiously inspired violence Vattimo and Girard ultimately conclude that secularism and the involvement or lack thereof of religion in governance are in essence produced by Christianity In other words Christianity is the religion of the exit from religion and democracy civil rights the free market and individual freedoms are all facilitated by Christian culture Through an exchange that is both intimate and enlightening Vattimo and Girard share their unparalleled insight into the relationships among religion modernity and the role of Christianity especially as it exists in our multicultural world

After Christianity Gianni Vattimo, 2002-06-12 What has been the fate of Christianity since Nietzsche's famous announcement of the death of God What is the possibility of religion specifically Christianity thriving in our postmodern era In this provocative new book Gianni Vattimo leading Italian philosopher politician and framer of the European constitution addresses these critical questions When Vattimo was asked by a former teacher if he still believed in God his reply was Well I believe that I believe This paradoxical declaration of faith serves as the foundation for a brilliant exposition on Christianity in the new millennium an age characterized by a deep uncertainty of opinion and a personal account of how Vattimo himself recovered his faith through Nietzsche and Heidegger He first argues that secularization is in fact the fulfillment of the central Christian message and prepares us for a new mode of Christianity He then explains that Nietzsche's thesis concerns only the moral god and leaves room for the emergence of new gods Third Vattimo claims that the postmodern condition of fragmentation anti Eurocentrism and postcolonialism can be usefully understood in light of Joachim of Fiore's thesis concerning the Spiritual Age of history Finally Vattimo argues for the idea of weak thought Because philosophy in the postmetaphysical age can only acknowledge that all is interpretation that the real is always relative and not the hard and fast truth we once thought it to be contemporary thought must recognize itself and its claims as weak as opposed to strong foundationalist claims of the metaphysical past Vattimo concludes that these factors make it possible for religion and God to become a serious topic for philosophy again and that philosophy should now formally engage religion

Belief Gianni Vattimo, 1999 In this highly personal book one of Europe's foremost contemporary philosophers confronts the theme of faith and religion He argues that there is a substantial link between the history of Christian revelation and the history of nihilism in particular as the latter appears in the work of Nietzsche and Heidegger Vattimo's philosophical specialty Tracing the relation between his response to these two thinkers and his own life as a devout Catholic Vattimo shows how his interpretation of Heidegger's work and his conceptions of weak thought and weak ontology can be seen as closely linked to a rediscovery of Christianity Vattimo speaks here in the first person a risk that results in a disarmingly open exploration of the themes of charity truth dogmatism morality and sin viewed through the lens of his own life and his own return to Christianity

While deeply critical of institutionalized religion and the Church Vattimo discovers in the Christian tradition a voice not a distinct message whose interpretation is still being played out around us Shaped by his readings of Nietzsche and Heidegger Vattimo's decision to affirm his formation within the Christian tradition provides an original and engaging contribution to the contemporary debate on religion At the center of this book is the enigma of belief Freed by modernity from its Platonic subordination to knowledge belief is recovered as a crucial and inevitable feature of our cultural and personal lives Do you believe Vattimo is asked I believe so he replies

Essays on Gianni Vattimo Matthew Harris, 2016-05-11 What has postmodernism got to do with Christianity To what extent can a nihilist derive an ethic from the history of a religion Can a western approach to secularisation be applied to Islam These questions are central to this collection of essays from 2011 2015 by Matthew Edward Harris The essays are grouped around the interrelated themes of religion ethics and the history of ideas and constitute a critically constructive approach to the subject matter Harris defends Vattimo against some of his more strident critics but nevertheless poses questions of his own Along with a new introduction outlining Vattimo's life thought and ideas and a conclusion which looks at how developments in Vattimo's views on religion have wider implications for his weak thought the volume includes nine essays on Vattimo's thought Harris overall argument is that Vattimo is overly reliant upon history and that there is a contradiction within his style of weak thought which is against definitive pronouncements yet excludes outright anything that does not pertain to the history of linguistic messages

Between Philosophy and Theology Dr Christophe Brabant, Prof Dr Lieven Boeve, 2013-06-28 Long past the time when philosophers from different perspectives had joined the funeral procession that declared the death of God a renewed interest has arisen in regard to the questions of God and religion in philosophy The turn to secularization has produced its own opposing force Although they declared themselves from the start as not being religious thinkers such as Derrida Vattimo Zizek and Badiou have nonetheless maintained an interest in religion This book brings some of these philosophical views together to present an overview of the philosophical scene in its dealings with religion but also to move beyond the outsider's perspective Reflecting on these philosophical interpretations from a fundamental theological perspective the authors discover in what way these interpretations can challenge an understanding of today's faith Bringing together thinkers with an established reputation Kearney Caputo Ward Desmond Hart Armour along with young scholars this book challenges a range of perspectives by putting them in a new context

A Farewell to Truth Gianni Vattimo, 2011-03-25 With Western cultures becoming more pluralistic the question of truth in politics has become a game of interpretations Today we face the demise of the very idea of truth as an objective description of facts though many have yet to acknowledge that this is changing Gianni Vattimo explicitly engages with the important consequences for democracy of our changing conception of politics and truth such as a growing reluctance to ground politics in science economics and technology Yet in Vattimo's conception a farewell to truth can benefit democracy exposing the unspoken issues that underlie all objective claims The end of absolute truth challenges the

legitimacy of policies based on perceived objective necessities protecting the free market for example even if it devastates certain groups or classes Vattimo calls for a truth that is constructed with consensus and a respect for the liberty of all By taking into account the cultural paradigms of others a more truthful society freer and more democratic becomes possible In this book Vattimo continues his reinterpretation of Christianity as a religion of charity and hope freeing society from authoritarian metaphysical dogmatism He also extends Nietzsche's death of God to the death of an authoritarian God ushering in a new postreligious Christianity He connects the thought of Martin Heidegger Karl Marx and Karl Popper with surprising results and accommodates modern science more than in his previous work reconciling its validity with an insistence that knowledge is interpretive Vattimo's philosophy justifies Western nihilism in its capacity to dispense with absolute truths Ranging over politics ethics religion and the history of philosophy his reflections contribute deeply to a modern reconception of God metaphysics and the purpose of reality

Navigating Postmodern Theology Michael J. McGravey, 2023-07-03 Theology in the postmodern era has encountered various cultural and narrative shifts which have helped shape the Roman Catholic Church and Christianity at large Negatively the Church has been affected by external factors e.g. globalization immigration emigration increased access to technology etc and internal struggles e.g. reduced church attendance an aging population etc Positively postmodernity has ushered in a return to religion through new philosophical and theological ideas e.g. phenomenology existentialism post metaphysics etc This book aims to contribute to the ongoing postmodern concerns addressed in the cultural and narrative shifts by focusing on the work of Jean Luc Marion and Gianni Vattimo The emphasis of this project focuses on the use of metaphysics as the foundational tool of theology and its corresponding limitations while also addressing the Christian virtue of caritas Addressing this attribute of Christianity this project observes the possibility of a return to religion one that reflects the postmodern exploration of religion by the several philosophers addressed herein While Michael J McGravey avoids offering a reconstruction of theology or more specifically ecclesiology he aims to re-establish the importance of philosophy metaphysics and caritas in the postmodern context

Christ in Postmodern Philosophy Frederiek Depoortere, 2008-10-01 An investigation into the Christological ideas of three contemporary thinkers Slavoj Žižek Gianni Vattimo and Ren Girard

Kenosis and Feminist Theology Marta Frascati-Lochhead, 1998-02-26 This book addresses crucial issues that postmodern theory has raised for feminism and for feminist theology in particular Postmodern critiques of metaphysics question whether feminism is ultimately foundationalist and essentialist attributing an essential nature to woman and substituting a new metaphysical theory in place of the patriarchal foundationalism of Western thought Marta Frascati Lochhead develops this critique of metaphysics through a reading of the Italian philosopher Gianni Vattimo She shows how through his interpretation of Nietzsche and Heidegger Vattimo characterizes the violence of metaphysical thought and concludes that for emancipatory thought today nihilism is our sole opportunity Through a comparison of Vattimo and Derrida on the question of ontological difference and with

reference to Donna Haraway's feminist analysis of cyborg culture the author demonstrates how Vattimo's perspective might inform an understanding of sexual difference Drawing on the connection that Vattimo makes between the dissolution of metaphysics in our time and the Christian understanding of kenosis the self emptying of God in the incarnation of Jesus Christ Frascati Lochhead examines contemporary feminist theology in order to identify the kenotic movement in its thought With specific reference to the works of Catherine Keller Rebecca Chopp Sallie McFague and Rosemary Radford Ruether she shows how contemporary feminist theology belongs to the metaphysical tradition that it would overcome while at the same time it moves in an emancipatory kenotic direction

Between Philosophy and Theology Lieven Boeve, Christophe Brabant, 2010 Long past the time when philosophers from different perspectives had joined the funeral procession that declared the death of God a renewed interest has arisen in regard to the questions of God and religion in philosophy This book brings some of these philosophical views together to present an overview of the philosophical scene in its dealings with religion but also to move beyond the outsider's perspective Reflecting on these philosophical interpretations from a fundamental theological perspective the authors discover in what way these interpretations can challenge an understanding of today's faith

The Responsibility of the Philosopher Gianni Vattimo, 2010-08-26 Over the course of his career Gianni Vattimo has assumed a number of public and private identities and has pursued multiple intellectual paths He seems to embody several contradictions at once defending and questioning religion and critiquing and serving the state Yet the diversity of his life and thought form the very essence of as he sees it the vocation and responsibility of the philosopher In a world that desires quantifiable results and ideological expediency the philosopher becomes the vital interpreter of the endlessly complex As he outlines his ideas about the philosopher's role Vattimo builds an important companion to his life's work He confronts questions of science religion logic literature and truth and passionately defends the power of hermeneutics to engage with life's conundrums Vattimo conjures a clear vision of philosophy as something separate from the sciences and the humanities but also intimately connected to their processes and he explicates a conception of truth that emphasizes fidelity and participation through dialogue

An Ethics for Today Richard Rorty, 2011 Richard Rorty is famous maybe even infamous for his philosophical nonchalance His groundbreaking work not only rejects all theories of truth but also dismisses modern epistemology and its preoccupation with knowledge and representation At the same time the celebrated pragmatist believed there could be no universally valid answers to moral questions which led him to a complex view of religion rarely expressed in his writings In this posthumous publication Rorty a strict secularist finds in the pragmatic thought of John Dewey John Stuart Mill William James and George Santayana among others a political imagination shared by religious traditions His intent is not to promote belief over nonbelief or to blur the distinction between religious and public domains Rorty seeks only to locate patterns of similarity and difference so an ethics of decency and a politics of solidarity can rise He particularly responds to Pope Benedict XVI and his campaign against the relativist vision Whether holding

theologians metaphysicians or political ideologues to account Rorty remains steadfast in his opposition to absolute uniformity and its exploitation of political strength

The Politics of Discipleship (The Church and Postmodern Culture) Graham Ward, 2009-09-01 Internationally acclaimed theologian Graham Ward is well known for his thoughtful engagement with postmodernism This volume the fourth in The Church and Postmodern Culture series offers an engaging look at the political nature of the postmodern world In the first section The World Ward considers the signs of the times and the political nature of contemporary postmodernism It is imperative he suggests that the church understand the world to be able to address it thoughtfully In the second section The Church he turns to practical application examining what faithful discipleship looks like within this political context Clergy and those interested in the emerging church will find this work particularly thought provoking

Technologies of Religion Sam Han, 2016-02-05 Bringing together empirical cultural and media studies of religion and critical social theory Technologies of Religion Spheres of the sacred in a post secular modernity investigates powerful entanglement of religion and new media technologies taking place today taking stock of the repercussions of digital technology and culture on various aspects of religious life and contemporary culture more broadly Making the argument that religion and new media technologies come together to create spheres environments produced by an architecture of digital technologies of all sorts from projection screens to social networking sites the book suggests that prior social scientific conceptions of religious worship participation community and membership are being recast Using the case of the strain of American Christianity called multi site an emergent and growing church model that has begun to win favor largely among Protestants in the last decade the book details and examines the way in which this new mode of religiosity bridges the realms of the technological and the physical Lastly the book situates and contextualizes these developments within the larger theoretical concerns regarding the place of religion in contemporary capitalism Technologies of Religion Spheres of the sacred in a post secular modernity offers an important contribution to the study of religion media technology and culture in a post secular world

Justice Through Diversity? Michael J. Sweeney, 2016-08-30 Arguably the most transformative force in contemporary society is the commitment to justice through diversity A prime example is the change justice through diversity has wrought on who enters teaches and administers the university It has changed the

content of what is taught and the mission statements that define the purpose of higher education What is rarely defined however is justice and how it is related to diversity If justice is equality are all differences equal Are all differences in race gender sexual orientation national origin ethnicity religion and culture equal Should such differences be weighted differently and thus hierarchically On what basis are those differences to be weighted and ranked to ensure equality Justice Through Diversity brings together a Who's Who of contemporary scholars to explore these questions and others in an attempt to understand one of the central commitments in the modern world
