*Informed Trading, Liquidity Provision and Stock Selection by Mutual Funds* Zhi Da, Pengjie Gao, Ravi Jagannathan, 2007. We show that a mutual fund's stock selection skill computed using the Daniel Grinblatt, Titman, and Wermers 1997 procedure can be decomposed into additional components that include impatient informed trading and liquidity provision, thereby helping us understand how a fund creates value. We validate our method by verifying that liquidity provision is the dominant component of selection skill for Dimensional Fund Advisors U.S. Micro Cap fund, as observed by Keim (1999). Index funds lose on liquidity-absorbing trades since they pay the price impact on trades triggered by index rebalancing inflows and redemptions. Consistent with the view that a mutual fund manager with superior stock selection ability is more likely to benefit from trading in stocks affected by information events, we find that funds trading such stocks exhibit superior performance that is more likely to persist. Further, such superior performance comes mostly from impatient informed trading. We also find that informed trading is more important for growth-oriented funds, while liquidity provision is more important for younger funds with income orientation.

*The 50 Best (and Worst) Business Deals of All Time* Michael Craig, 2000. Annotation: Craig ranks the best and worst business deals of all time and shows how the outcome of mega-deals can depend on clear thinking and the adherence to simple guidelines.

**Globalization** Bruce C. N. Greenwald, Judd Kahn, 2009. Provides a brief history of globalization, arguing that the process has been going on at some level for decades, examines the status of globalization in the early twenty-first century, and discusses its possible future consequences.

**Benjamin Graham and the Power of Growth Stocks: Lost Growth Stock Strategies from the Father of Value Investing** Frederick K. Martin, Nick Hansen, Scott Link, Rob Nicoski, 2011-11-11. Use a master's lost secret to pick growth companies bound for success. In 1948, legendary Columbia University professor Benjamin Graham bought a major stake in the Government Employees Insurance Corporation. In a time when no one trusted the stock market, he championed value investing and helped introduce the world to intrinsic value. He had a powerful valuation formula. Now, in this groundbreaking book, long-term investing expert Fred Martin shows you how to use value investing principles to analyze and pick winning growth stock companies just like Graham did when he acquired GEICO. *Benjamin Graham and the Power of Growth Stocks* is an advanced, hands-on guide for investors and executives who want to find the best growth stocks, develop a solid portfolio strategy, and execute trades for maximum profitability and limited risk. Through conversational explanations, real-world case studies, and pragmatic formulas, it shows you step by step how this enlightened trading philosophy is

successful The secret lies in Graham's valuation formula which has been out of print since 1962 until now By calculating the proper data you can gain clarity of focus on an investment by putting on blinders to variables that are alluring but irrelevant This one stop guide to growing wealth shows you how to Liberate your money from the needs of mutual funds and brokers Build a reasonable seven year forecast for every company considered for your portfolio Estimate a company's future value in four easy steps Ensure long term profits with an unblinking buy and hold strategy This complete guide shows you why Graham's game changing formula works and how to use it to build a profitable portfolio Additionally you learn tips and proven techniques for unlocking the formula's full potential with disciplined research and emotional control to stick by your decisions through long periods of inactive trading But even if your trading approach includes profiting from short term volatility you can still benefit from the valuation formula and process inside by using them to gain an advantageous perspective on stock prices Find the companies that will grow you a fortune with Benjamin Graham and the Power of Growth Stocks
