Trauma and Human Existence Robert D. Stolorow, 2017-08-09 Trauma and Human Existence effectively interweaves two themes central to emotional trauma the first pertains to the contextuality of emotional life in general and of the experience of emotional trauma in particular and the second pertains to the recognition that the possibility of emotional trauma is built into the basic constitution of human existence This volume traces how both themes interconnect largely as they crystallize in the author's personal experience of traumatic loss As discussed in the book's final chapter whether or not this constitutive possibility will be brought lastingly into the foreground of our experiential world depends on the relational contexts in which we live Taken as a whole Trauma and Human Existence exhibits the unity of the deeply personal the theoretical and the philosophical in the understanding of emotional trauma and the place it occupies in human existence

Stolorow, 2011-05-09

Stolorow and his collaborators post Cartesian psychoanalytic perspective intersubjective systems theory is a phenomenological contextualism that illuminates worlds of emotional experience as they take form within relational contexts After outlining the evolution and basic ideas of this framework Stolorow shows both how post Cartesian psychoanalysis finds enrichment and philosophical support in Heidegger's analysis of human existence and how Heidegger's existential philosophy in turn can be enriched and expanded by an encounter with post Cartesian psychoanalysis In doing so he creates an important psychological bridge between post Cartesian psychoanalysis and existential philosophy in the phenomenology of emotional trauma **Cultural Ontology of the Self in Pain** Siby K.

George, P.G. Jung, 2015-09-18 The mainstream approach to the understanding of pain continues to be governed by the biomedical paradigm and the dualistic Cartesian ontology This Volume brings together essays of scholars of literature philosophy and history on the many enigmatic shades of pain experience mostly from an anti Cartesian perspective of cultural ontology by scholars of literature philosophy and history A section of the essays is devoted to the socio political dimensions of pain in the Indian context The book offers a critical perspective on the reductive conceptions of pain and argue

that non substance ontology or cultural ontology supports a more humane and authentic understanding of pain The general ontological features of the self in pain and culturally imbued dimensions of pain experience are thus brought together in a rare blend in this Volume The essays dwell on the importance of understanding what cultural social and political forces outside our control do to our pain experience They show why such understanding is necessary both to humanely deal with pain and to rectify erroneous approaches to pain experience They also explore the thoroughly ambivalent spaces between pain and pleasure and the cathartic and productive dimensions of pain The essays in this Volume investigate pain experiences through the fresh lenses of history gender ethics politics death illness self loss torture shame dispossession and denial

A Relational Psychoanalytic Approach to Couples Psychotherapy Philip A. Ringstrom, 2014-03-26 This is a model of psychoanalytically oriented couples theory based on ideas from various relational approaches and other psychoanalytic traditions

The Suffering Stranger Donna M. Orange, 2011-05-09 Winner of the 2012 Grady Award Utilizing the hermeneutics of Hans Georg Gadamer and the ethics of Emmanuel Levinas The Suffering Stranger invigorates the conversation between psychoanalysis and philosophy demonstrating how each is informed by the other and how both are strengthened in unison Orange turns her critical and clinical eye toward five major psychoanalytic thinkers Sándor Ferenczi Frieda Fromm Reichmann D W Winnicott Heinz Kohut and Bernard Brandchaft investigating the hermeneutic approach of each and engaging these innovative thinkers precisely as interpreters as those who have seen the face and heard the voice of the other in an ethical manner In doing so she provides the practicing clinician with insight into the methodology of interpretation that underpins the day to day activity of analysis and broadens the scope of possibility for philosophical extensions of psychoanalytic theory

Attachment and Sexuality Diana Diamond, Sidney J. Blatt, Joseph D. Lichtenberg, 2011-06-23 The papers featured in Attachment and Sexuality create a dense tapestry each forming a separate narrative strand that elucidates different configurations of the relationship between attachment and sexuality As a whole the volume explores the areas of convergence and divergence opposition and integration between these two systems It suggests that there is a bi directional web of influences that weaves the attachment and sexual systems together in increasingly complex ways from infancy to adulthood The volume's unifying thread is the idea that the attachment system and particularly the degree of felt security or lack thereof in relation to early attachment figures provides a paradigm of relatedness that forms a scaffold for the developmental unfolding of sexuality in all its manifestations Such manifestations include infantile and adult masturbatory and mutual and normative and perverse Also central to the papers is the idea that the development of secure attachment is predicated in part on the development of the capacity for mentalization or the ability to envision and interpret the behavior of oneself and others in terms of intentional mental states including desires feelings beliefs and motivations Topics discussed in the book will help to shape the direction and tenor of further dialogues in the arena of attachment and sexuality

Trans-generational Trauma and the Other Sue Grand, Jill Salberg, 2016-12-19 Often our

trans generational legacies are stories of us and them that never reach their terminus We carry fixed narratives and the ghosts of our perpetrators and of our victims We long to be subjects in our own history but keep reconstituting the Other as an object in their own history Trans generational Trauma and the Other argues that healing requires us to engage with the Other who carries a corresponding pre history Without this dialogue alienated ghosts can become persecutory objects in psyche politics and culture This volume examines the violent loyalties of the past the barriers to dialogue with our Other and complicates the inter subjectivity of Big History Identifying our inherited narratives and relinquishing splitting these authors ask how we can re cast our Other and move beyond dysfunctional repetitions in our individual lives and in society Featuring rich clinical material Trans generational Trauma and the Other provides an invaluable guide to expanding the application of trans generational transmission in psychoanalysis It will appeal to psychoanalysts psychoanalytic psychotherapists and trauma experts

Sensuality and Sexuality Across the Divide of Shame Joseph D. Lichtenberg, 2011-02-25 Placed in a historical context sexuality was once so prominent in psychoanalytic writing that sexual drive and psychoanalysis were synonymous The exciting discovery of childhood sexuality filled the literature Then other discoveries came to the fore until sexuality slipped far in the background This book evokes the excitement of the original discoveries of childhood sexual experience while linking childhood sensuality and sexuality to adult attachment romantic and lustful love This revised perspective offers the general reader insight into contemporary psychoanalytic thought and presents clinicians with a perspective for exploring their patients sensuality and sexuality with renewed interest and knowledge

Kohut's Twinship Across Cultures Koichi Togashi, Amanda Kottler, 2015-09-16 Kohut's Twinship Across Cultures The Psychology of Being Human chronicles a 10 year voyage in which the authors struggled initially independently to make sense of Kohut's intentions when he radically re defined the twinship experience to one of being human among other human beings Commencing with an exploration of Kohut's work on twinship and an illustration of the value of what he left for elaboration Togashi and Kottler proceed to introduce a new and very different sensitivity to understanding particular psychoanalytic relational processes and ideas about human existential anguish trauma and the meaning of life Together they tackle the twinship concept which has often been misunderstood and about which little has been written Uniquely the book expands and elaborates upon Kohut's final definition being human among other human beings It problematizes this apparently simple concept with a wide range of clinical material demonstrating the complexity of the statement and the intricacies involved in recognizing and working with traumatized patients who have never experienced this feeling It asks how a sense of being human as opposed to being described as human can be generated and how this might help clinicians to better understand and work with trauma Written for psychoanalysts and psychoanalytic psychotherapists interested in self psychological intersubjective and relational theories Twinship Across Cultures will also be invaluable to clinicians working in the broader areas of psychoanalysis psychotherapy social work psychiatry and education It will enrich their sensitivity and capacity to

understand and treat traumatized patients and the alienation they feel among other human beings
