No Country for Travellers? Rosemary Sweet,Richard Ansell,2025-08-14 No Country for Travellers explores the rise and nature of British travel to Spain and Portugal between 1760 and 1820 across a region that is conventionally overlooked in studies of British travel to Europe Drawing on extensive archival and printed sources left by contemporary travellers Rosemary Sweet and Richard Ansell reveal the unheralded significance of the two countries to eighteenth century British culture and their attraction as destinations long before the Peninsular War and nineteenth century romanticism Along the way the book s compelling narrative reveals the realities of Iberian travel the different itineraries that travellers followed the place of Spanish and Portuguese cities in the British imagination and the importance of mediators in cultural exchange on the Iberian side as well as the British The travellers memoirs reflect changing perceptions of Spain and Portugal as modernisation raised new hopes that vied with pessimism and ancient prejudice and also the persistence of cultural stereotypes while the counterintuitive relationship between civilian travel and armed conflict emerges through a case study of the Peninsular War Finally focusing on contemporary fascination with the Alhambra in Granada the authors examine the rise of British interest in Iberia s Islamic history with its significance for contemporary understandings of Europe

Travellers and Cosmographers Joan-Pau Rubiés,2023-06-14 Joan Pau Rubi s brings together here eleven studies published between 1991 and 2005 that illuminate the impact of travel writing on the transformation of early modern European culture The new worlds that European navigation opened up at the turn of the 16th century elicited a great deal of curiosity and were the subject of a vast range of writings much of them with an empirical basis albeit often subtly fictionalized In the context of intense literary and intellectual activity that characterized the Renaissance the encounters generated by European colonial activities in fact produced a remarkable variety of images of human diversity Some of these images were conditioned by the actual dynamics of cross cultural encounters overseas but many others were elaborated in Europe by cosmographers historians and philosophers pursuing their own moral and political agendas As the studies included here show the combined effect was in the long term dramatic interacting with the impact of humanism and of insurmountable religious divisions travel writing decisively contributed to the transformation of European culture towards the concerns of the Enlightenment The essays illuminate this process through a combination of general discussions and the contextual analysis of particular texts and debates ranging from the earliest ethnographies produced by merchants travelling to Asia with Vasco da Gama to the writings of Jesuit missionaries researching idolatry in India and China or thinkers like Hugo Grotius seeking to explain the origin of the American Indians
