Treasures of Islam Bernard O'Kane, 2007 Explores the impact of Islam on the cultural heritage of diverse communities around the world focusing on how works of art and architecture have been influenced and inspired by Islamic traditions beliefs and practices [Bibliography of Art and Architecture in the Islamic World \(2 Vol. Set\)](#) Susan Sinclair, C. H. Bleaney, Pablo García Suárez, 2012 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies **The World of the Crusades** Andrew Holt, 2019-06-05 Unlike traditional references that recount political and military history this encyclopedia includes entries on a wide range of aspects related to daily life during the medieval crusades The medieval crusades were fundamental in shaping world history and provide background for the conflict that exists between the West and the Muslim world today This two volume set presents fundamental information about the medieval crusades as a movement and its ideological impact on both the crusaders and the peoples of the East It takes a broad look at numerous topics related to crusading with the goal of helping readers to better understand what inspired the crusaders the hardships associated with crusading and how crusading has influenced the development of cultures both in the East and the West The first of the two thematically arranged volumes considers topics such as the arts economics and work food and drink family and gender and fashion and appearance The second volume considers topics such as housing and community politics and warfare recreation and social customs religion and beliefs and science and technology Within each topical section are alphabetically arranged reference entries complete with cross references and suggestions for further reading Selections from primary source documents each accompanied by an introductory headnote give readers first hand accounts of the crusades **A Companion to Islamic Art and Architecture, 2 Volume Set** Finbarr Barry Flood, Gulru Necipoglu, 2017-09-13 The two volume Companion to Islamic Art and Architecture bridges the gap between monograph and survey text by providing a new level of access and interpretation to Islamic art The more than 50 newly commissioned essays revisit canonical topics and include original approaches and scholarship on neglected aspects of the field This two volume Companion showcases more than 50 specially commissioned essays and an introduction that survey Islamic art and architecture in all its traditional grandeur Essays are organized according to a new chronological geographical paradigm that remaps the unprecedented expansion of the field and reflects the nuances of major artistic and political developments during the 1400 year span The Companion represents recent developments in the field and encourages future horizons by commissioning innovative essays that provide fresh perspectives on canonical subjects such as early Islamic art sacred spaces palaces urbanism ornament arts of the book and the portable arts while introducing others that have been previously

neglected including unexplored geographies and periods transregional connectivities talismans and magic consumption and networks of portability museums and collecting and contemporary art worlds the essays entail strong comparative and historiographic dimensions The volumes are accompanied by a map and each subsection is preceded by a brief outline of the main cultural and historical developments during the period in question The volumes include periods and regions typically excluded from survey books including modern and contemporary art architecture China Indonesia Sub Saharan Africa Sicily the New World Americas

Reimagining Jerusalem's Architectural Identities in the Later Middle Ages Cathleen A. Fleck, 2022-10-10 How can medieval art explain Jerusalem's centrality in the world faiths of Christianity and Islam This book delves into that topic by examining how Jerusalem was creatively represented and reimagined in several intriguing Christian and Islamic artworks in the later Middle Ages c 1187 to 1356 The book considers how European Catholic crusaders Eastern Christian sects and diverse Muslim factions displayed Jerusalem's architecture to express their interpretation of the holy city's sanctity and influence These examples demonstrate how artworks can reflect Jerusalem's importance to these faiths in the past and illuminate our understanding of its status into the modern era

and dissolved in 1920 the far reaching effects and influences of the Ottoman Empire are still clearly visible in today's world cultures. *Daily Life in the Ottoman Empire* allows readers to gain critical insight into the pluralistic social and cultural history of an empire that ruled a vast region extending from Budapest in Hungary to Mecca in Arabia.
