

VAN SPOETNIK TOT SPACESHUTTLE

A photograph of an astronaut in a white spacesuit working on the exterior of a space station. The astronaut is positioned in the center-right of the frame, reaching towards a complex structure of orange and white metal beams. The background is the deep black of space, with some distant stars visible. The overall scene conveys a sense of human exploration and technological achievement in space.

Gender and the Race for Space Erinn McComb, 2025-06-10 The American astronaut image was informed by early Cold War ideals of masculinity that helped mold a distinctly American anti communist masculinity which appeared on the surface anyway to resolve not only an American crisis of masculinity but helped win the Cold War on an ideological and popular level This American image focused on strict gender binaries of man as the protector controlling technology and containing communism while woman was the passive actor with spaceflight technology left behind in the home waiting for the return of the astronaut husband Allowing women to fly into space would have represented a lack of individual control with spaceflight technology

Dream Missions Michel van Pelt, 2017-05-24 This book takes the reader on a journey through the history of extremely ambitious large and complex space missions that never happened What were the dreams and expectations of the visionaries behind these plans and why were they not successful in bringing their projects to reality thus far As spaceflight development progressed new technologies and ideas led to pushing the boundaries of engineering and technology though still grounded in real scientific possibilities Examples are space colonies nuclear propelled interplanetary spacecraft space telescopes consisting of multiple satellites and canon launch systems Each project described in this book says something about the dreams and expectations of their time and their demise was often linked to an important change in the cultural political and social state of the world For each mission or spacecraft concept the following will be covered Description of the design Overview of the history of the concept and the people involved Why it was never developed and flown What if the mission was actually carried out consequences further developments etc **Brinkman's catalogus van boeken en tijdschriften** ,1982 With 1901 1910 1956 1960 Repertorium is bound Brinkman s Titel catalogus van de gedurende 1901 1910 1956 1960 Title varies slightly **Van Mercator tot computerkaart** M.
