Witchcraft And Colonial Rule In Kenya 1900 1955 African Studies:

Witchcraft and Colonial Rule in Kenya, 1900–1955 Katherine Luongo, 2011-09-26 Focusing on colonial Kenya this book shows how conflicts between state authorities and Africans over witchcraft related crimes provided an important space in which the meanings of justice law and order in the empire were debated Katherine Luongo discusses the emergence of imperial networks of knowledge about witchcraft She then demonstrates how colonial concerns about witchcraft produced an elaborate body of jurisprudence about capital crimes The book analyzes the legal wrangling that produced the Witchcraft Ordinances in the 1910s the birth of an anthro administrative complex surrounding witchcraft in the 1920s the hotly contested Wakamba Witch Trials of the 1930s the explosive growth of legal opinion on witch murder in the 1940s and the unprecedented state sponsored cleansings of witches and Mau Mau adherents during the 1950s A work of anthropological history this book develops an ethnography of Kamba witchcraft or uoi Witchcraft and Colonial Rule in Kenya, 1900-1955 Katherine Luongo, 2011 This book develops an ethnography of Kamba witchcraft and its contentious relationship with the state in colonial Kenya *African Studies Series: The Struggle over State Power in Zimbabwe* Karekwaivanane, George Hamandishe, *The Age of Sex* Corrie Decker, 2025 As in much of the world societies in precolonial East Africa what is today Kenya Tanzania and Uganda used rites of passage to chart an individual's social and developmental progress toward adulthood Under European colonialism from the 1890s to the 1960s colonial judicial systems and the emerging genre of ethnography converged to subject African people to standardized definitions of childhood and adulthood The coexistence of rites of passage and chronological age regulations generated confusion well into the postcolonial era and the question of when childhood ends sparked extensive debate about gender race and development Corrie Decker argues that ultimately these debates came down to the age of sex The age of sex a term Decker conceptualizes in this carefully researched monograph refers to the hypothetical moment when a girl becomes a woman capable of engaging in heterosexual activity and a boy becomes a man imbued with the right and responsibility to have heterosexual intercourse Colonial ethnographic studies reduced complex precolonial rites of passage to puberty rites fixated on these sexual transformations The resulting stereotypes influenced in turn how colonial and postcolonial court officials decided age of consent and other sex crime cases Court rituals thus legally transformed girls into women by ruling on their sexual maturity and boys into men by sentencing them to corporal punishment marking their acceptance of sexual responsibilities A Companion to the Anthropology of Africa Roy Richard Grinker, Stephen C. Lubkemann, Christopher B. Steiner, Euclides Gonçalves, 2019-02-06 An essential collection of scholarly essays on the anthropology of Africa offering a thorough introduction to the most important topics in this evolving and diverse field of study The study of the cultures of Africa has been central to the methodological and theoretical development of anthropology as a discipline since the late 19th century As the anthropology of Africa has emerged as a distinct field of study anthropologists working in this tradition have strived to build a disciplinary conversation

that recognizes the diversity and complexity of modern and ancient African cultures while acknowledging the effects of historical anthropology on the present and future of the field of study

A Companion to the Anthropology of Africa is a collection of insightful essays covering the key questions and subjects in the contemporary anthropology of Africa with a key focus on addressing the topics that define the contemporary discipline. Written and edited by a team of leading cultural anthropologists, it is an ideal introduction to the most important topics in the field, both those that have consistently been a part of the critical dialogue and those that have emerged as the central questions of the discipline's future. Beginning with essays on the enduring topics in the study of African cultures, **A Companion to the Anthropology of Africa** provides a foundation in the contemporary critical approach to subjects of longstanding interest. With these subjects as a groundwork, later essays address decolonization, the postcolonial experience, and questions of modern identity and definition, providing representation of the diverse thinking and scholarship in the modern anthropology of Africa.

Slavery and Emancipation in Islamic East Africa Elisabeth McMahon, 2013-04-30 This book demonstrates the links between emancipation and the redefinition of honour among all classes of people on the island of Pemba.

Cultural Expertise Livia Holden, 2025-04-17 This book provides a comprehensive examination of the subject of cultural expertise, addressing its theoretical developments, ethical debates, regulatory frameworks, and practices. Elaborating the theory and practice of cultural expertise as it crosscuts legal systems and disciplinary boundaries, the book offers a thorough understanding of the scope, application, and impact of cultural expertise in various socio-legal contexts. The book offers theoretical and practical tools to those with academic or professional interests in cultural expertise, detailing its scope, application, and impact. Throughout, cultural expertise is positioned as a vital interdisciplinary concept bridging the gap between theoretical frameworks and practical solutions for complex social problems that transcend jurisdictional boundaries, legal fields, and disciplinary categories. This book will appeal to academics and students in the areas of the socio-legal studies, international and comparative law, and cultural anthropology, as well as members of the legal professions and policy makers who engage with the analysis of laws and cultures.

The Routledge Handbook of Africana Criminologies Biko Agozino, Emmanuel Onyeozili, Nontyatyambo Dastile, Viviane Saleh-Hanna, 2020-12-29 The Routledge Handbook on Africana Criminologies plugs a gaping hole in criminological literature which remains dominated by work on Europe and settler colonial locations at the expense of neocolonial locations and at a huge cost to the discipline that remains relatively underdeveloped. It is well known that criminology is thriving in Europe and settler colonial locations while people of African descent remain marginalized in the discipline. This handbook therefore defines and explores this field within criminology, moving away from the colonialist approach of offering administrative criminology about policing, courts, and prisons, and making a case for decolonizing the wider discipline. Arranged in five parts, it outlines Africana criminologies, maps its emergence, and addresses key themes such as slavery, colonialism, and apartheid as crimes against humanity, critiques of imperialist reason, Africana cultural criminology,

and theories of law enforcement and Africana people Coalescing a diverse range of voices from Africa and the diaspora the handbook explores outside Eurocentric canons in order to learn from the experiences struggles and contributions of people of African descent Offering innovative ways of theorizing and explaining the criminological crises that face Africa and the entire world with the view of contributing to a more humane world this groundbreaking handbook is essential reading for criminologists and sociologists worldwide as well as scholars of Africana studies and African studies *Voodoo* Danielle N. Boaz, 2023 Coined in the middle of the nineteenth century the term voodoo has been deployed largely by people in the U S to refer to spiritual practices real or imagined among people of African descent Voodoo is one way that white people have invoked their anxieties and stereotypes about Black people to call them uncivilized superstitious hypersexual violent and cannibalistic In this book Danielle Boaz explores public perceptions of voodoo as they have varied over time with an emphasis on the intricate connection between stereotypes of voodoo and debates about race and human rights The term has its roots in the U S Civil War in the 1860s especially following the Union takeover of New Orleans when it was used to propagate the idea that Black Americans held certain superstitions that allegedly proved that they were unprepared for freedom the right to vote and the ability to hold public office Similar stereotypes were later extended to Cuba and Haiti in the late nineteenth and early twentieth centuries In the 1930s Black religious movements like the Moorish Science Temple and the Nation of Islam were derided as voodoo cults More recently ideas about voodoo have shaped U S policies toward Haitian immigrants in the 1980s and international responses to rituals to bind Nigerian women to human traffickers in the twenty first century Drawing on newspapers travelogues magazines legal documents and books Boaz shows that the term voodoo has often been a tool of racism colonialism and oppression *Ethnicity and Empire in Kenya* Myles Osborne, 2014-08-29 This work analyses the ethnicity in Kenya over the past two hundred years focusing on the Kamba ethnic group that inhabits eastern Kenya
