Making American Boys Kenneth B. Kidd, 2004 Will boys be boys What are little boys made of Kenneth B Kidd responds to these familiar questions with a thorough review of boy culture in America since the late nineteenth century From the boy work promoted by character building organizations such as Scouting and 4 H to current therapeutic and pop psychological obsessions with children s self esteem Kidd presents the great variety of cultural influences on the changing notion of boyhood Kidd finds that the education and supervision of boys in the United States have been shaped by the collaboration of two seemingly conflictive approaches In 1916 Henry William Gibson a leader of the YMCA created the term boyology which came to refer to professional writing about the biological and social development of boys At the same time the feral tale with its roots in myth and folklore emphasized boys wild nature epitomized by such classic protagonists as Mowgli in *The Jungle Books* and Huck Finn From the tension between these two perspectives evolved society s perception of what makes a good boy from the responsible son asserting his independence from his father in the late 1800s to the idealized sexually confident

and psychologically healthy youth of today The image of the savage child raised by wolves has been tamed and transformed into a model of white middle class masculinity Analyzing icons of boyhood and maleness from Father Flanagan s Boys Town and Max in Where the Wild Things Are to Elin Gonzlez and even Michael Jackson Kidd surveys films psychoanalytic case studies parenting manuals historical accounts of the discoveries of wolf boys and self help books to provide a rigorous history of what it has meant to be an all American boy Kenneth B Kidd is assistant professor of English at the University of Florida and associate director of the Center for Children s Literature and Culture
