Wolfgang Tillmans Neue Welt:

Neue Welt Wolfgang Tillmans, 2013-02-01 Tillmans's latest project sets its sights on the world. Over the period of more than two decades Wolfgang Tillmans has explored the medium of photo imaging with greater range than any other artist of his generation. From snapshots of his friends to abstract images made in a darkroom without a camera or works made with a photocopier he has pushed the photographic process to its outer limits in myriad ways. For this collection of photos his fourth book with TASCHEN Tillmans turned away from the self-reflexive exploration of the photography medium that had occupied him for several years by focusing his lens on the outside world from London and Nottingham to Tierra del Fuego, Tasmania, Saudi Arabia and Papua New Guinea. He describes this new phase simply as trying out what the camera can do for me, what I can do for it. The result is a powerful and singular view of life today in diverse parts of the world seen from many angles. Says Tillmans: My travels are aimless as such, not looking for predetermined results but hoping to find subject matter that in some way or other speaks about the time I'm in. The book features a fascinating conversation between the artist and Beatrix Ruf, director of Kunsthalle Zürich. Limited edition of 500 numbered and signed copies. **Wolfgang Tillmans**

Wolfgang Tillmans, Julie Ault, Daniel Birnbaum, Russell Ferguson, Dominic Molon, Lane Relyea, Mark Wigley, 2006-01-01 Few artists have changed the manner in which photographic images are made, read and received over the past two decades as dramatically as German photographer Wolfgang Tillmans. b. 1968. One of the most important and distinctive artists to emerge in the 1990s, Tillmans's work is internationally recognized for its powerful reflections on the often overlooked objects and moments in everyday life. With images culled from the entirety of Tillmans's career, this generously illustrated book accompanies the artist's first retrospective exhibition in the United States and features the potent effects of his portraits, abstractions and structural and sculptural motifs. Essays by leading scholars examine the context of the German art and pop cultural scene in which Tillmans first began working in the late 1980s, his use of magazines as both venue and source materials, his unique approach to portraiture, his ability to create a sense of intimacy between the viewer and subjects ranging from his friends to cultural figures and heads of state, and his distinctive approach to presenting his images in displays and installations. A fascinating look at the breadth of Tillmans's career to date, including his most recent new work, this book demonstrates the renowned abilities of one of the art world's most revolutionary photographers. **Wolfgang Tillmans: DZHK Book 2018**

Wolfgang Tillmans, 2018-06-12 Presenting recent developments in Wolfgang Tillmans's portraiture and still lifes, Wolfgang Tillmans DZHK Book 2018 features a broad selection of new and recent works that respond to their surroundings while at the same time embodying a self-contained environment. Few artists have shaped the scope of contemporary art and influenced a younger generation more than Wolfgang Tillmans. Since the early 1990s his works have epitomized a new kind of subjectivity in photography, pairing intimacy and playfulness with social critique and the persistent questioning of existing values and hierarchies. Through his seamless integration of genres, subjects, techniques and exhibition strategies, he has expanded

conventional ways of approaching the medium and his practice continues to address the fundamental question of what it means to create pictures in an increasingly image saturated world Published on the occasion of Tillmans's exhibition at David Zwirner in Hong Kong in 2018 this fully bilingual catalogue juxtaposes pictures of intimacy and friendship with views and angles of the world at large An aerial view of the Sahara desert displays almost infinite detail while being monochromatic and near abstract in appearance In line with Tillmans's interest in exhibitions as amplifiers of a particular underlying perspective each of the works engages in an intricate system of relationships between its aesthetic elements subject and institutional setting Seen together they implicate the viewer as an active part of the dialogue The 2016 interview with author Allie Biswas of *The Brooklyn Rail* has been edited and expanded by the artist for this catalogue *River Delta Futures* Francisco-J. Hernández Adrián, Angelos Theocharis, 2025-02-20 How are climate change weather related disasters food and water insecurity and energetic and infrastructural collapse narrated audiovisually in the most environmentally vulnerable areas of the Planet This book addresses this and related questions by adopting a local and transdisciplinary perspective on river deltas from different areas of the world River deltas have historically been hotspots for human civilizations as populations settled in their fertile grounds seeking resources and opportunities for prosperity Despite this the terrains and livelihoods of those who rely on them are under threat from human exploitation environmental degradation and rapidly accelerating climate change Inspired by the UN Sustainable Development Goals this book provides a range of focused audiovisual analyses of deltaic spaces Ranging across a variety of media including documentary filmmaking animation photography collaborative comic making participatory visual art practices soundwalking and film analysis it examines the role that contemporary audiovisual media play in forging global environmental imaginaries In doing so it adopts a transdisciplinary approach to the Blue Humanities from countries across the world including Canada Bolivia Brazil Greece Nigeria Senegal India Bangladesh Myanmar Thailand and Vietnam **Digital Image Systems** Claus Gunti, 2020-01-07 In *Digital Image Systems* Claus Gunti examines the antagonizing reactions to digital technologies in photography While Thomas Ruff Andreas Gursky and Jörg Sasse have gradually adopted digital imaging tools in the early 1990s other photographers from the Düsseldorf School have remained faithful to film based technologies By evaluating the aesthetic and discursive preconditions of this situation and by extensively analyzing the digital work of these three photographers this book shows that the digital turn in photography was anticipated by the conceptualization of images within systems and thus offers new perspectives for understanding the digital revolution Wolfgang Tillmans Wolfgang Tillmans, 2020 Wolfgang Tillmans has explored the medium of photo imaging with greater range than any other artist of his generation From early portraits of his friends to abstract images made in a darkroom without a camera or works made with a photocopier he has pushed the photographic process to its outer limits in myriad ways For this collection of photos his fifth book with TASCHEN Tillmans edited his previous four books into one stream of intersecting perspectives on life around the turn of the millenium Keeping his original

layouts intact he added some new works bringing the scope of the publication to the present day **Wolfgang Tillmans** Jan Verwoert, Peter Halley, Wolfgang Tillmans, Midori Matsui, 2002-11-15 Wolfgang Tillmans b 1968 first book published in 1995 when the artist was just 24 years old sold 40 000 copies and is a cult manual of young style and photography Tillmans is a rare example of a photographer who has expanded his audience into the art world This is the first book to draw together all the different episodes from Tillmans high profile exciting career Tillmans became known in the early 1990s for his photographs of young people in their social environments clubs Gay Pride parades house parties His style is enigmatic sexy and highly innovative inventing new icons of beauty and style for millions of young readers internationally Images such as Lutz and Alex Sitting in the Trees 1992 a couple perched in a tree naked save for their incongruous raincoats are emblems of his generation His subjects are self stylized and do not conform to standard notions of attractiveness and chic yet their personalities and youth make them irresistibly seductive Tillmans style is often imitated yet he remains the master of the photographic style he created Alongside portraits Tillmans has expanded his subject matter to include architecture landscape and still life and has produced installations reminiscent of the collage techniques of the 1960s Conceptual artists From lifestyle magazine spreads Tillmans has moved to room sized installations for example his series of distant views of Concorde flying overhead Concorde 1997 as well as a series of found photographs of soldiers from newspapers Soldiers The Nineties 1999 In such installations of unframed photos stuck to the wall with tape he references his own non art origins and his continuing goal of breaking down the old fashioned divisions between art fashion and photography In his Survey critic Jan Verwoert examines Tillmans key pursuit across his career to find contemporary art icons by testing photographic images Artist and theorist Peter Halley discusses with the artist his rapidly changed role from Wunderkinder superstar of the mid 1990s to internationally respected and emulated Turner prize winning master of the new photography Critic and curator Midori Matsui analyses a single project Concorde 1997 an installation and artists book which records the daily passing of this epoch making aeroplane The artist has selected an extract from a nineteenth century Quaker text by Caroline Stephen on divine inspiration which reflects the artist s own interest in simplicity and truth The Artist s Writings include excerpts from a key interview with Neville Wakefield 1995 and spreads from his artist s books *A Marriage of Philosophy and Music* Erich Welling, 2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in *A Marriage of Philosophy and Music* It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using

personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline A Marriage of Philosophy and Music attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art **Bilder-Plural** Bettina Dunker,2017-11-17

Insbesondere seit Aufkommen der digitalen Fotografie scheint die Menge der Bilder auch im künstlerischen Bereich stetig anzuwachsen Bettina Dunkers Buch bietet einen ersten systematischen Überblick über den Bilder Plural als Bildform Der Bilder Plural basiert auf den Sinnzusammenhängen die durch die Beziehungen mehrerer Bilder zueinander entstehen Dabei verschiebt sich der Schwerpunkt von der Produktion auf den Umgang mit Bildern Auswahl Kombination und Anordnung werden zur eigentlichen kreativen Tätigkeit Die zentrale Frage des Buchs ist die nach dem Potential des Bilder Plurals Dazu werden zwei Herangehensweisen verknüpft Zum einen wird eine Pluraltypologie entworfen und Charakteristika des Bilder Plurals herausgearbeitet Zum anderen wird die gegenwärtige Konjunktur multipler Bildformen mit Blick auf das zeitgenössische Kunstsystem und das Medium der Fotografie analysiert *Encyclopedia of Twentieth-Century Photography, 3-Volume Set* Lynne Warren,2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included
