Worlds of Women Leila J. Rupp, 2020-12-08 *Worlds of Women* is a groundbreaking exploration of the first wave of the international women s movement from its late nineteenth century origins through the Second World War Making extensive use of archives in the United States England the Netherlands Germany and France Leila Rupp examines the histories and accomplishments of three major transnational women s organizations to tell the story of women s struggle to construct a feminist international collective identity She addresses questions central to the study of women s history how can women across the world forge bonds sometimes even through conflict despite their differences and questions central to world history is internationalism viable and how can its history be written Rupp focuses on three major organizations that were technically open to all women the broadly based and cautious International Council of Women founded in 1888 the feminist International Alliance of Women originally called the International Woman Suffrage Alliance founded in 1904 and the vanguard Women s International League for Peace and Freedom which grew out of the International Congress of Women that met at The Hague in 1915 The histories of these organizations and their stories of cooperation and competition shed new light on the international women s movement They also help us to understand the different but connected story of the second wave of international feminism that emerged from the ashes of World War II Women's Leadership Journeys Sherylle J. Clelland,2016-06-07 While the stories that make up *God s Brains* suggest that the skies of the future will certainly not be pure blue through their ironic edge and secular bite they suggest that there are always new energies to be found from the setbacks and the sinking Titanics of our lives **Norwegian Women's Writing 1850-1990** Janet Garton,2000-12-01

Volume One in a new series this book covers Norwegian women s writing over the last 150 years setting literary developments against the background of the emergence and growth of the women s movement in Norway The work is divided chronologically into three sections the period up to 1913 when the universal suffrage was granted the period from 1913 to 1960 a time of stagnation in the women s movement with little involvement in contemporary political social and economic debates and the period from 1960 to the present day which has seen an increasing participation of women in public life Chapters on individual authors concentrate on the images of the women portrayed and investigate the conflicts behind the text the tensions between the authors and their work and the ambivalent feelings of women authors towards the act of writing The book should be of interest to all those concerned with women s writing and with Scandanavian literature and culture The series provides a survey country by country of women s writing from the beginnings of the major struggle for emancipation up to the present day While the main emphasis is on literature the social political and cultural development of each country provides a context for understanding the position and preoccupations of women writers Modern critical currents are also taken into account in relating feminist criticism to recent critical theory Forthcoming volumes in this series include *Women s Writing in Italy 1870 1990* and *Swedish Women s Writing 1850 1990* **British Women's Writing from Brontë to Bloomsbury, Volume 3** Adrienne E. Gavin,Carolyn W. de la L. Oulton,2024-07-27

This five volume series *British Women s Writing From Bront to Bloomsbury 1840 1940* historically contextualizes and traces developments in women s fiction from 1840 to 1940 Critically assessing both canonical and lesser known British women s writing decade by decade it redefines the landscape of women s authorship across a century of dynamic social and cultural change With each of its volumes devoted to two decades the series is wide in scope but historically sharply defined Volume 3 1880s and 1890s analyses confluences and developments in women s writing across two fin de si cle decades Its 16 original essays reconsider

fiction by canonical and lesser known women writers redefining the landscape of female authorship during these decades By exploring women s fiction within the social and cultural contexts of the 1880s and 1890s the collection distils in terms of women s writing how these decades discretely build on earlier work that is identifiably Victorian The last two decades of the century in distinctive ways witnessed literary experiment reflection on the limits of realism and a fruitful sense of confusion about what was ending and what was about to begin
