Trade, Industrial Policy, and International Competition, Second Edition Richard G. Harris, 2015-10-01 Richard Harris's now classic study on trade and industrial policy was written for the Royal Commission on the Economic Union and Development Prospects for Canada also known as the Macdonald Commission First published in 1985 when the Canadian economy faced dramatic changes arising from the emergence of manufacturing competitors among newly industrialized nations and increased protectionism in the US its recommendations were instrumental in the negotiation of the North America Free Trade Agreement Addressing the key issues surrounding the design and choice of policies for the Canadian economy Trade Industrial Policy and International Competition reviews the theory and evidence concerning trade liberalization as a mechanism to enhance economic growth disinvestment in sections that are disadvantageous in the international marketplace and future problems for the marketing sector caused by increasing competition from developing countries Drawing from many streams of conventional economic thinking Harris develops an original and sophisticated model for assessing the broader economic impacts of trade liberalization on the Canadian economy He concludes that free trade and industrial policy should be regarded as complementary not substitutes for one another and recommends a free trade agreement with the United States as a top priority A new introduction by David Wolfe situates this work within its time and shows how Harris's analytical insights and policy prescriptions are as relevant today as they were originally crafted three decades ago

Art of Sharing Mary Janigan, 2020-07-23 In 1957 after a century of scathing debates and threats of provincial separation Ottawa finally tackled the dangerous fiscal inequalities among its richer and poorer provinces Equalization grants allowed the poorer

provinces to provide relatively equal services for relatively equal levels of taxation The Art of Sharing tells the dramatic history of Canada's efforts to save itself The introduction of federal equalization grants was controversial and wealthier provinces such as Alberta wanting to keep more of their taxpayers money for their own governments continue to attack them today Mary Janigan argues that the elusive ideal of fiscal equity in spite of dissent from richer provinces has helped preserve Canada as a united nation Janigan goes back to Confederation to trace the escalating tensions among the provinces across decades as voters demanded more services to survive in a changing world She also uncovers the continuing contacts between Canada and Australia as both dominions struggled to placate disgruntled member states and provinces that blamed the very act of federation for their woes By the mid twentieth century trapped between the demands of social activists and Quebec's insistence on its right to run its own social programs Ottawa adopted non conditional grants in compromise The history of equalization in Canada has never been fully explored Introducing the idealistic Canadians who fought for equity along with their radically different proposals to achieve it The Art of Sharing makes the case that a willingness to share financial resources is the real tie that has bound the federation together into the twenty first century Stanley's Dream

Jacalyn Duffin,2019-08-30 In 1964-65 an international team of thirty eight scientists and assistants led by Montreal physician Stanley Skoryna sailed to the mysterious Rapa Nui Easter Island to conduct an unprecedented survey of its biosphere Born of Cold War concerns about pollution overpopulation and conflict and initially conceived as the first of two trips the project was designed to document the island's status before a proposed airport would link the one thousand people living in humanity's remotest community to the rest of the world its germs genes culture and economy Based on archival papers diaries photographs and interviews with nearly twenty members of the original team Stanley's Dream sets the expedition in its global context within the early days of ecological research and the understudied International Biological Program Jacalyn Duffin traces the origins the voyage the often complicated life within the constructed camp the scientific preoccupations the role of women the resultant reports films and publications and the previously unrecognized accomplishments of the project including a goodwill tour of South America the delivery of vaccines and the discovery of a wonder drug For Rapa Nui the expedition coincided with its rebellion against the colonizing Chilean military resulting in its first democratic election For Canada it reflected national optimism as the country prepared for its centennial and adopted its own flag Ending with Duffin's own journey to the island to uncover the legacy of the study and the impact of the airport and to elicit local memories Stanley's Dream is an entertaining and poignant account of a long forgotten but important Canadian led international expedition *An Undisciplined Economist* Morris L. Barer,Greg L. Stoddart,Kimberlyn M. McGrail,Chris B.

McLeod,2016-08-30 Incisive analysis of health policy issues in Canada by a pioneering health economist *Beardmore* Douglas Hunter,2018-08-21 In 1936 long before the discovery of the Viking settlement at L'Anse aux Meadows the Royal Ontario Museum made a sensational acquisition the contents of a Viking grave that prospector Eddy Dodd said he had found

on his mining claim east of Lake Nipigon The relics remained on display for two decades challenging understandings of when and where Europeans first reached the Americas In 1956 the discovery was exposed as an unquestionable hoax tarnishing the reputation of the museum director Charles Trick Currelly who had acquired the relics and insisted on their authenticity Drawing on an array of archival sources Douglas Hunter reconstructs the notorious hoax and its many players Beardmore unfolds like a detective story as the author sifts through the voluminous evidence and follows the efforts of two unlikely debunkers high school teacher Teddy Elliott and government geologist T L Tanton who find themselves up against Currelly and his scholarly allies Along the way the controversy draws in a who's who of international figures in archaeology Scandinavian studies and the museum world including anthropologist Edmund Carpenter whose mid 1950s crusade against the find's authenticity finally convinced scholars and curators that the grave was a fraud Shedding light on museum practices and the state of the historical and archaeological professions in the mid twentieth century Beardmore offers an unparalleled view inside a major museum scandal to show how power can be exercised across professional networks and hamper efforts to arrive at the truth

Tax, Order, and Good Government E.A. Heaman, 2017-06-08 Was Canada's Dominion experiment of 1867 an experiment in political domination Looking to taxes provides the answer they are a privileged measure of both political agency and political domination To pay one's taxes was the sine qua non of entry into political life but taxes are also the point of politics which is always about the control of wealth Modern states have everywhere been born of tax revolts and Canada was no exception Heaman shows that the competing claims of the propertied versus the people are hardwired constituents of Canadian political history Tax debates in early Canada were philosophically charged politically consequential dialogues about the relationship between wealth and poverty Extensive archival research from private papers commissions the press and all levels of government serves to identify a rising popular challenge to the patrician politics that were entrenched in the Constitutional Act of 1867 under the credo Peace Order and good Government Canadians wrote themselves a new constitution in 1867 because they needed a new tax deal one that reflected the changing balance of regional racial and religious political accommodations In the fifty years that followed politics became social politics and a liberal state became a modern administrative one But emerging conceptions of fiscal fairness met with intense resistance from conservative statesmen culminating in 1917 in a progressive income tax and the bitterest election in Canadian history Tax Order and Good Government tells the story of Confederation without exceptionalism or misplaced sentimentality and in so doing reads Canadian history as a lesson in how the state works Tax Order and Good Government follows the money and returns taxation to where it belongs at the heart of Canada's political economic and social history

Report on Social Security for Canada Leonard Marsh, 2018-03-21 Report on Social Security for Canada written in wartime presented to Canadians a picture of a better life in the postwar world It outlined what governments could do to ensure that all citizens could afford the food clothing and shelter necessary to participate fully in their community Authored by Leonard Marsh for

the wartime Federal Advisory Committee on Reconstruction the report was the subject of enormous attention when it was presented to the House of Commons in March 1943 Drawing on the work of his mentor William Beveridge and of John Maynard Keynes Marsh primarily recommended an employment program meant to ensure lower unemployment and higher incomes His report also discussed family allowances to make certain that no child would go without health care insurance temporary assistance in case of illness a pension plan and various other social benefits related to maternity disability loss of employment and death Today Report on Social Security for Canada is seen as a foundational text for the Canadian social security system In this edition Allan Moscovitch provides the historical context an outline of Marsh s accomplishments and suggestions for how to enhance the welfare state and respond to the social needs of Canadians in the twenty first century

Filling the Ranks Richard Holt,2017-04-01 A groundbreaking work on the management of Canadian manpower in the First World War *Like Everyone Else but Different* Morton Weinfeld,2018-03-21 Liberal democratic societies with diverse populations generally offer minorities two usually contradictory objectives the first is equal integration and participation the second is an opportunity within limits to retain their culture Yet Canadian Jews are successfully integrated into all domains of Canadian life while at the same time they also seem able to retain their distinct identities by blending traditional religious values and rituals with contemporary cultural options *Like Everyone Else but Different* illustrates how Canadian Jews have created a space within Canada s multicultural environment that paradoxically overcomes the potential dangers of assimilation and diversity At the same time this comprehensive and data driven study documents and interprets new trends and challenges including rising rates of intermarriage newer progressive religious options finding equal space for women and LGBTQ Jews tensions between non Orthodox and Orthodox Jews and new forms of real and perceived anti Semitism often related to Israel or Zionism on campus and elsewhere The striking feature of the Canadian Jewish community is its diversity While this diversity can lead to cases of internal conflict it also offers opportunities for adaptation and survival Seventeen years after its first publication this new edition of *Like Everyone Else but Different* provides definitive updates that blend research studies survey and census data newspaper accounts and articles and the author s personal observations and experiences to provide an informative provocative and fascinating account of Jewish life and multiculturalism in contemporary Canada
