ll deal with and every customer you ll ever see To be successful you need to understand them See them in detail in ways not
possible with other methods Hypernomics Using Hidden Dimensions to Solve Unseen Problems discovers that markets
behave according to previously unknown laws set by the buyers and sellers within them It reveals those rules and how to
detect describe and deploy them to your advantage It doesn't change economics so much as reveal it It's like a microscope
looking at pond water a telescope tilted to the sky sonar scanning the bottom of the ocean Hypernomics lets you see into
markets in ways you can't with the unaided eye Sailors never navigate without a map You shouldn't either since your ship
could wind up on the rocks Hypernomics gives you the means to create market maps that show you where they have
openings and how to fill them by giving customers what they want don't have and can afford It finds their thresholds and
limits and responses to every possible feature in any product you can offer The interactions Hypernomics describes have
been with us since the dawn of humanity Now you can finally see them and enjoy the advantages your competitors do not
have Validated by 13 published papers multiple awards a patent and customers such as NASA Lockheed Martin Virgin
Galactic and a restaurant down the street only Hypernomics gives you the ability to solve problems as varied as How could a
restaurant increase revenue by 25% by rearranging seating How do you find describe and capitalize on open spaces in your
market What happens when an NFL player decreases his forty yard dash time by a quarter of a second If you tried to exceed
a market's limitations how could you lose 1B How do markets change over time Know what you need to Discover
