Michael Krivyanski, 2015-11-06 Baby Boomers experienced a world growing up that is very different from the one we live in today Some say it's better and some say it's worse We can all agree it's very different These are humor columns about being a Baby Boomer Baby Boomers came of age in a time when there were water fountains instead of hydration stations Our childhood was filled with playing outside When we were forced to stay inside it was tantamount to being punished We spoke to people in person and understood body language There was no cyber world We all had to learn how to deal with reality There were no computer games There were pick up sports based on who had a baseball football basketball or other sports equipment Playing a game depended on if the sports equipment owners were willing to share Card games were played with real cards We camped out without adults went on bike hikes swam in creeks and more Now we're middle age or older Our bodies are changing and the world around us continues to make less and less sense This book is about the many common things experienced by Baby Boomers Just like the song from the group The Who I'm Talkin' bout my generation *Things To Do Before Death* Rolanda Hipol, 2021-09-04 The Baby Boomer Generation is in the process to move on and into their golden area That's why there is no reason to sit still and do nothing Baby Boomers are exhilarating in doing new things like Baby Boomer Adventure Baby Boomer Careers Baby Boomer Education Baby Boomer Finances Baby Boomer Health Baby Boomer Hobbies Baby Boomer Relationships Baby Boomer Spiritual Baby Boomer Sports Baby Boomer Travel And this book covers each of these areas and guides the reader in developing their own fun list of things to accomplish now that they have more time

How do you downsize Give up the car Without feeling lost and resentful How can you turn these into positive experiences Are you wealthy enough to retire or too scared to retire What can you expect from your body Is it ok to have a drink of alcohol at night What about your mental abilities are you doomed to have dementias Memory loss How will we decide when it is time to stop driving One of the biggest demands will be that of housing and lifestyles with aging in place being the most popular option It is generally acknowledged that our baby boomers will be working longer so a retirement life style will be at a later age probably not before seventy five The market will be hungry for this generation as the competition for services mounts Demands for apartment living and food service will change Julia writes The youngest amongst us 70 s and 80 s remember well the wars we waged against established traditions We were part of the one hundred and twenty years that it took for women to gain equal voting rights in this country We picketed Men Only Clubs where business was carried out over leisurely expense paid lunches We were part of the feminist movement even if we did not burn our bras and go to Woodstock We turned the position of the at home Mom who did nothing into the working Mom who did both We saw women crack and transcend the glass ceiling in the work place Have we thought about how we can transcend the glass ceiling of prejudice against the older person We need to start by understanding ourselves who we are collectively but more importantly as individuals If we can learn about the resources available to ourselves and always remember that we raised our children to be self sufficient and independent then we owe it to ourselves and our families to maintain a quality of living which maintains as much independence as our health and financial resources will allow As a retired Professor Emeritus of Gerontology Julia found that most authors were young Julia sees that this new generation will be disassociating themselves from the stigma of aging Julia encourages you to look outside of the box in viewing aging issues How do you downsize Give up the car Prepare for retirement What can you expect from your body What about your mental abilities

A Baby Boomer's Guide to Their Second Sixties Ryan Custer Amacher, 2012-03-15 While this book was written for male Baby Boomers and their significant others it also includes Boomer history and what lies ahead as we experience the decade of our own sixties This story reviews our Boomer luck recounts the great history of being a kid in the 1950s and the great opportunities provided by improved education in the 1960s not to ignore a seemingly mind expanding culture Turning sixty is not for the faint hearted There are issues ahead The first thing we all face is taking care of aging parents or what the author refers to as helping your parents check out Then there are our own Boomer health issues including cataracts and prostate cancer You likely think there is nothing funny about these topics but the quirky economist author finds humor in all of our aging experiences This book covers Boomer issues all in the context of our Boomer culture We Boomers thought we would be young forever Maybe that is why it is so amusing RYAN CUSTER AMACHER was born 52 days too early to be an official Baby Boomer but he in no way ever considered himself a member of Tom Brokaw s Greatest Generation In this book the author chronicles the good luck of the first sixty years of the Boomer experience and guides Boomers into the humorous but sobering experience of their

personal sixties Amacher an economist has a BA degree from Ripon College and a PhD from the University of Virginia He has been a professor at the University of Oklahoma Economics Department Chair at Arizona State Business Dean at Clemson University and President of the University of Texas at Arlington where he is now a Professor of Economics He has worked at the Pentagon writing a market plan for the All Volunteer Army the Federal Trade Commission as a consultant and the US Treasury on the Law of The Sea negotiations Reflections of a Baby Boomer Alexis Malone Lynk,2016-11-10
