Vancouver Light Visions Of A City:

The Feel of the City Nicolas Kenny, 2014-01-01 At the start of the twentieth century the modern metropolis was a riot of sensation City dwellers lived in an environment filled with smoky factories crowded homes and lively thoroughfares Sights sounds and smells flooded their senses while changing conceptions of health and decorum forced many to rethink their most banal gestures from the way they negotiated speeding traffic to the use they made of public washrooms The Feel of the City exposes the sensory experiences of city dwellers in Montreal and Brussels at the turn of the century and the ways in which these shaped the social and cultural significance of urban space Using the experiences of municipal officials urban planners hygienists workers writers artists and ordinary citizens Nicolas Kenny explores the implications of the senses for our understanding of modernity

Design Capital Sherry McKay, Anna Lisa Meyboom, 2022-07-29 Well designed infrastructure brings social value that far exceeds its initial construction expenditure but competition for scarce government funds and a general public perception of infrastructure as mere efficiency has often left design ill considered This book provides designers with the tools needed to argue for the value of design the design capital as the authors term it In naming and defining design capital design can once again become part of the discussion and realization of every infrastructure project Design Capital offers strategies and tools for justifying public spending on design considerations in infrastructure projects Design has the ability to make infrastructure resonate with cultural or social value as seen in the case studies which bestows infrastructure with the potential to accrue design capital Support for this proposition is drawn from various methodologies of economic valuation and Bourdieu's theory of cultural capital explanation of design methodology and education and a series of historical and contemporary case studies The book also addresses some of the more controversial outcomes associated with contemporary infrastructure gentrification globalization and consumer tourism With this book designers can make a stronger case for the value of design in public infrastructure

Citizen-Centered Cities, Volume II Paul R. Messinger, 2017-03-22 Modern cities are increasingly involving citizens in decisions that affect them This trend is a part of a movement toward a new standard of city management and planning falling under the names public involvement public engagement collaborative governance civic renewal

participatory democracy and citizen centered change City administrators have long focused on attaining excellence in their technical domains they are now expected to achieve an equal standard of excellence in public involvement Toward this end Citizen Centered Cities provides a body of experience about public involvement that would take years for municipal administrators to accumulate on the job The twelve city studies in the present volume were written to provide city administrators with a comparative perspective about how U S and Canadian cities carry out their public involvement activities The opening chapter summarizes general themes and salient differences in approaches to public involvement across twelve cities The close government academic cooperation required to carry out this project builds on an innovative partnership between the City of Edmonton and the University of Alberta called the Center for Public Involvement **Pacific Builder & Engineer** ,1912 *Regional Industrial Index of British Columbia* British Columbia. Dept. of Trade and Industry,1949 **The Platform Economy and the Smart City** Austin Zwick,Zachary Spicer,2021-09-15 Over the past decade cities have come into closer contact and conflict with new technologies From reactive policymaking in response to platform economy firms to proactive policymaking in an effort to develop into smart cities urban governance is transforming at an unprecedented speed and scale Innovative technologies promise a brave new world of convenience and cost effectiveness powered by cameras that monitor our movements sensors that line our streets and algorithms that determine our resource allocation but at what cost Exploring the relationship between technology and cities this book brings together an outstanding group of authors in the field to provide a critical and necessary examination of the disruption that is under way They look at how cities should understand and regulate novel technologies what can be learned from proposed and failed smart city projects and how innovative economies change the structure of cities themselves Contributors dig deeply into these and similar subjects contributing their voices to an important dialogue on the future of urban policy and governance The first collection of its kind this groundbreaking volume brings together social economic and cultural insights to enhance our understanding of the ongoing technological upheaval in cities around the world *Vancouver Light* ,2014 Setting out to photograph Vancouver is a daunting challenge for any photographer even one as accomplished as David Nunuk Its world renowned viewscapes have been recorded so many times by so many great artists in film and paint that some avoid the challenge by seeking out side streets and producing works in a minor key But Nunuk faces the Vancouver challenge head on In *Vancouver Light* his bold plan was to revisit all the classic Vancouver views the ever changing downtown core the eternally graceful Lions Gate Bridge the scintillating waters of English Bay the snow clad barrier of the North Shore mountains and capture their magnificence more completely than anyone has ever done before As this breathtaking collection shows he has brilliantly succeeded and reaffirms his city s reputation as one of the most stunningly beautiful urban centres on earth As readers turn pages showing the cityscape mirrored in the still water of Coal Harbour a dusting of cherry blossoms bestowing their grace on a line of parked cars and a North Shore panorama glowing as if fashioned from molten

gold they can only gaze in wonder and ask How on earth did he get that It helps that Vancouver is Nunuk s hometown and he has the privilege of studying its changing face through every season and mood patiently stalking the moment when light and colour juxtapose perfectly The book is a treasury of visual epiphanies that every Vancouverite will want to keep as a reminder of why they live there and everyone else will want to compensate for the fact they don t Printed in an oversize 11 14 format on deluxe coated stock Vancouver Light contains over 100 full colour gallery quality images spanning the Greater Vancouver region from Howe Sound to the Fraser River Truly it may be said Vancouver s contrasts and beauty have inspired many photo collections but none like Nunuk s *The Case for Cities* Vikas Mehta,Danilo Palazzo,Conrad Kickert,Christopher Auffrey,Terry Grundy,2024-07-31 The fateful year 2020 brought dramatic challenges to American cities The COVID 19 pandemic and the civil unrest caused by the killing of George Floyd led to a cascade of negative media stories about cities often politically motivated It seemed possible that the economic and demographic gains cities had achieved over the last few decades could be lost In fact there has been measurable population loss in larger cities caused by changing work life patterns and changing public perceptions about the costs and benefits of urban living Faced with these challenges advocates for cities must make a vigorous case for cities and show how they aren t the cause of America s social environmental economic and public health problems but in fact are the places where the solutions to those problems will be found The 38 chapters in *The Case for Cities* draw on the expertise of contributors from the academic professional and civic sectors to explore the creative tension between the two great values on which the vigor of cities depends that they should be Cities of Choice places where people who have choice want to live and Cities of Justice places that welcome and support people with limited choices The book s underlying perspective is that these two values are symbiotic and that promoting both is what leads to viable sustainable urban resurgence This book will be of keen interest to students and practitioners in urban planning urban design real estate architecture and landscape architecture and to urban advocates and civic leaders Vancouver: Secrets of the City Shawn Blore,2000 Vancouver is one of the world s top tourist destinations acclaimed for its natural beauty and cosmopolitan demeanor This second edition of *Vancouver Secrets of the City* is full of fun and offbeat factoids anecdotes and statistics about Vancouver as well as great places to shop dine and sightsee Unsettling the City Nicholas Blomley,2004-06 Contemporary capitalism has produced gentrification socio spatial stratification and racial inequality In this book Nicholas Blomley shows how the concept of property helps to generate and underwrite these pervasive urban processes *Smart Transitions in City Regionalism* Tassilo Herrschel,Yonn Dierwechter,2018-03-22 In recent years smartness has risen as a buzzword to characterize novel urban policy and development patterns As a result of this debates around what smart actually means both theoretically and empirically have emerged within the interdisciplinary arenas of urban and regional studies This book explores the changes in discourse rationality and selected responses of smartness through the theme of transition The concept of transition provides the broader context and points of reference for adopting smartness in reconciling competing

interests and agendas in city regional governance Using case studies from around the world including North America Europe and South Africa the authors link external regime transition in societal values and goals with internal moves towards smartness While reflecting the growing integration of overarching themes and analytical concerns this volume further develops work on smartness smart growth transition city regionalism governance and sustainability Smart Transitions in City Regionalism explores how smart cities and city regions interact with conventional state structures It will be of great interest to postgraduates and advanced undergraduates across urban studies geography sustainability studies and political science

Smart Living for Smart Cities T. M. Vinod Kumar, 2020-05-05 This book based on extensive international collaborative research highlights the state of the art design of smart living for metropolises megacities and metacities as well as at the community and neighbourhood level Smart living is one of six main components of smart cities the others being smart people smart economy smart environment smart mobility and smart governance Smart living in any smart city can only be designed and implemented with active roles for smart people and smart city government and as a joint effort combining e Democracy e Governance and ICT IoT systems In addition to using information and communication technologies the Internet of Things Internet of Governance e Governance and Internet of People e Democracy the design of smart living utilizes various domain specific tools to achieve coordinated effective and efficient management development and conservation and to improve ecological social biophysical psychological and economic well being in an equitable manner without compromising the sustainability of development ecosystems and stakeholders This book presents case studies covering more than 10 cities and centred on domain specific smart living components The book is issued in two volumes and this volume focus on city studies
