Polyakov, 2025-06-12 Investigating a range of eschatological ideologies this volume explores the connection between notions

of sacred space and time in Jewish Christian and Muslim understandings of Jerusalem The recognition of Jerusalem as a holy city both unites and divides Judaism Christianity and Islam While these three religious traditions share a reverence for the same ancient city this veneration leads more often to tension and violence than to commonality and cooperation Each of these religions draws heavily from religious memory and eschatological prophecies and sees Jerusalem as a site of past and future upheaval however the distinctions in their visions imbue Jerusalem with meanings that reinforce conflicting and contested ideologies Offering multiple analyses of religious interpretations of the city and its sacred sites this volume explores these divergent visions of the remembered and anticipated Jerusalem Liturgical Subjects Derek

Krueger,2014-11-06 Liturgical Subjects examines the history of the self in the Byzantine Empire challenging narratives of Christian subjectivity that focus only on classical antiquity and the Western Middle Ages As Derek Krueger demonstrates Orthodox Christian interior life was profoundly shaped by patterns of worship introduced and disseminated by Byzantine clergy Hymns prayers and sermons transmitted complex emotional responses to biblical stories particularly during Lent Religious services and religious art taught congregants who they were in relation to God and each other Focusing on Christian practice in Constantinople from the sixth to eleventh centuries Krueger charts the impact of the liturgical calendar the eucharistic rite hymns for vigils and festivals and scenes from the life of Christ on the making of Christian selves Exploring the verse of great Byzantine liturgical poets including Romanos the Melodist Andrew of Crete Theodore the Stoudite and Symeon the New Theologian he demonstrates how their compositions offered templates for Christian self regard and self criticism defining the Christian I Cantors choirs and congregations sang in the first person singular expressing guilt and repentance while prayers and sermons defined the collective identity of the Christian community as sinners in need of salvation By examining the way models of selfhood were formed performed and transmitted in the Byzantine Empire Liturgical Subjects adds a vital dimension to the history of the self in Western culture Writing the Map

of Anglo-Saxon England Nicholas Howe,2008-01-01 Eminent Anglo Saxonist Nicholas Howe explores how the English in the centuries before the Norman Conquest located themselves both literally and imaginatively in the world His elegantly written study focuses on Anglo Saxon representations of place as revealed in a wide variety of texts in Latin and Old English as well as in diagrams of holy sites and a single map of the known world found in British Library Cotton Tiberius B v The scholar s investigations are supplemented and aided by insights gleaned from his many trips to physical sites The Anglo Saxons possessed a remarkable body of geographical knowledge in written rather than cartographic form Howe demonstrates To understand fully their cultural geography he considers Anglo Saxon writings about the places they actually inhabited and those they imagined He finds in Anglo Saxon geographic images a persistent sense of being far from the center of the world and he discusses how these migratory peoples narrowed that distance and developed ways to define themselves **Vatican**
