Cupid and Psyche Regine May, Stephen J. Harrison, 2020-02-24 Apuleius tale of Cupid and Psyche has been popular since it was first written in the second century CE as part of his Latin novel *Metamorphoses*. Often treated as a standalone text, Cupid and Psyche has given rise to treatments in the last 400 years as diverse as plays, masques, operas, poems, paintings, and novels, with a range of diverse approaches to the text. Apuleius' story of the love between the mortal princess Psyche or Soul and the god of Love has fascinated recipients as varied as Romantic poets, psychoanalysts, children's books authors, neo-Platonist philosophers, and Disney film producers. These readers themselves produced their own responses to and versions of the story. This volume is the first broad consideration of the reception of C/P in Europe since 1600 and an adventurous interdisciplinary undertaking. It is the first study to focus primarily on material in English, though it also ranges widely across literary genres in Italian, French, and German, encompassing poetry, drama, and opera as well as prose fiction and art history, studied by an international team of established and young scholars. Detailed studies of single works and of whole genres make this book relevant for students of Classics, English, Art History, opera, and modern film.

We Are All Paralyzed: The Remarkable True Story of Choosing to Live After Four Life-Threatening Accidents Brandon Sulser, Kate Lee, 2023-04-17 Since he was twelve, Brandon Sulser has survived four brushes with death. One of those life-threatening injuries left him paralyzed from the chest down. Although his life story appears to be unfair, Brandon knows that life is only negative and hard if you allow it to be. And in his experience, we are all paralyzed in our own way, by bad choices, by circumstance, by illness, etc. His paralysis happens to be more obvious than most, but make no mistake: we are all paralyzed. But we don't have to stay that way.

What Is Fiction For? Bernard Harrison, 2014-12-29 Harrison's marriage of philosophy and literary criticism does genuine and novel work. *Journal of Aesthetics and Art Criticism*. How can literature, which consists of nothing more than the description of imaginary events and situations, offer any insight into the human condition? Can mere words illuminate something that we call reality? Bernard Harrison answers these questions in this profoundly original work that seeks to re-enfranchise reality in the realms of art and discourse. In an ambitious account of the relationship between literature and cognition, he seeks to show how literary fiction, by deploying words against a background of imagined circumstances, allows us to focus on the roots in social practice of the meanings by which we represent our world and ourselves. Engaging with philosophers and theorists as diverse as Wittgenstein, Sartre, Merleau-Ponty, Foucault, Derrida, F.R. Leavis, Cleanth Brooks, and Stanley Fish, and illustrating his ideas through readings of works by Swift, Woolf, Appelfeld, and Dickens, among others, this book presents a systematic defense of humanism in literary studies and of the study of the humanities more generally by a distinguished scholar.
