Tomorrow's Church Today Michael Kelly, 2016-09-20 In his last interview the late Italian Cardinal and former Archbishop of Milan Carlo Maria Martini said the need for deep reform in the Catholic Church was urgent and long overdue because the Church is 200 years behind the times The reference to 200 years clearly points to the watershed in European life that the French Revolution and the Enlightenment became Vatican II was one attempt to meet the challenge of relevance to our times But its best efforts have been on ice since the late 1970s Now a new opportunity arrives in the pontificate of Jorge Mario Bergoglio And the movement he has initiated is evangelical in source and comprehensive in reach But as many observers have pointed out it will not be lasting if it does not lead to sustainable structural change to reform that accompanies renewal In Tomorrow's Church Today five highly qualified commentators focus on what lies ahead for the Church to be reformed if it is to meet the challenges of the 21st Century

- o A theologian and historian Massimo Faggioli who targets how ministry and leadership can be reshaped authentically for our times
- o A journalist and radio host for the Australian Broadcasting Corporation the ABC Geraldine Dougue writes a candid piece on how she would advise Pope Francis on the state of the Church
- o A reporter and analyst with 30 years experience of moves and machinations in the Eternal City Robert Mickens
- o A bishop with a lifetime of experience of ministering to the divorced and remarried and the benefit of legal and biblical scholarship to support his approach Geoffrey Robinson
- o A biblical scholar who examines much of what's taken for granted in the governance of the Church and exposes where it is left wanting Antony Campbell and
- o A bishop whose forced resignation exposes the deficiencies of a system of governance devoid of basics due process and respect for natural rights But the Catholic Church is not its clerics scholars and commentators It is the baptised Geraldine Dougue is a celebrated Australian broadcaster and commentator whose Introduction speaks for and from the experience of the mass of Catholics

log linear analysis wikipedia - Sep 15 2023

log linear analysis is a technique used in statistics to examine the relationship between more than two categorical variables
the technique is used for both hypothesis testing and model building in both these uses models are tested to find the most
parsimonious i e least complex model that best accounts for the variance in the observed frequencies a pearson s chi square
test could be used instead of log linear analysis but that technique only allows for two of the variables to be c
