Bright Child News

Summer is a happy memory and the school year has begun. It has been so fun watching the excitement of a new year in the children's eyes.

We have recently rolled out the new website and are so excited to share all the new items with you! Some of the highlights include, Online Schedule Submission and Parent Portals (make sure to provide your child's teacher with an updated email). The parent portals will begin being updated sometime in the next week.

Please make sure that you are letting the office know of any schedule changes. We base our staff schedule on the schedules that are submitted. This ensures that we are correctly staffed. If you are dropping off early and you have not made sure there is room, there will be a chance that we cannot take your child until the scheduled time.

Disney's Frozen on Ice is coming!

Bright Child has reserved 75 tickets for Thursday, March 1st at 7:00pm.

The tickets will be \$17.50 each. Please see Michelle to put your name on the list.

Mom's Balance is a Mom's Group that meets @ BC once a month and everyone is welcome.

Mental Health Services for Infants and Toddlers Emily Schrag Fenichel, 1989 The Bipolar Child (Third Edition)

Demitri Papolos, M.D., Janice Papolos, 2007-10-02 Since it first appeared on bookshelves The Bipolar Child has made an indelible mark on the field of psychiatry and has become the resource that families rely upon. Now with more than 200,000 copies sold, the first book about early onset bipolar disorder is completely revised and expanded. Bipolar disorder, manic depression, was once thought to be rare in children. Now researchers are discovering not only that bipolar disorder can begin early in life but that it is much more common than ever imagined. Yet the illness is often misdiagnosed and mistreated with medications that can exacerbate the symptoms. Why bipolar disorder manifests itself differently in children than in adults and in children there is an overlap of symptoms with other childhood psychiatric disorders. As a result, these kids may be labeled with any of a number of psychiatric conditions: ADHD, depression, oppositional defiant disorder, obsessive compulsive disorder, or generalized anxiety disorder. Too often they are treated with stimulants or antidepressant medications that can actually worsen the bipolar condition. Since the publication of its first edition, The Bipolar Child has helped many thousands of families get to the root cause of their children's behaviors and symptoms and find what they need to know. The Papoloses comprehensively detail the diagnosis, explain how to find good treatment and medications, and advise parents about ways to advocate effectively for their children in school. In this edition, a greatly expanded education chapter describes all the changes in educational law due to the 2004 reauthorization of IDEA, Individuals with Disabilities Education Act, and offers a multitude of ideas for parents and educators to help the children feel more comfortable in the academic environment. The book also contains crucial information about hospitalization, the importance of neuropsychological testing with a recommended battery of tests, and the world of insurance. Included in these pages is information on promising new drugs, greater insight into the special concerns of teenagers, and additional sections on the impact of the illness on the family. In addition, an entirely new chapter focuses on major advances taking place in the field of molecular genetics and offers hope that researchers will better understand the illness and develop more targeted and easier-to-tolerate medicines. The Bipolar Child is rich with the voices of parents, siblings, and the children themselves, opening up the long-closed world of the families struggling with this condition. This book has already proved to be an invaluable resource for parents whose children suffer from mood disorders, as well as for the professionals who treat and educate them, and this new edition is sure to continue to light the way.

The Infant & Toddler Handbook Kathryn Castle, Ed.D., 1987-10 Developmentally sequenced by age group, this versatile book can be used as a materials guide in both formal and informal settings. Each activity is introduced by detailing the emerging ability and caregiver role while giving individual invitations to care for and instruct these special developmental stages. Tips are included on how to introduce toys, store materials, develop basic care routines, create activity centers, and avoid trouble spots.

Lauck,Catherine McNicol Stock,2020-04-17 In the wake of the 2016 presidential election there was widespread shock that the Midwest the Democrats so called blue wall had been so effectively breached by Donald Trump But the blue wall as The Conservative Heartland makes clear was never quite as secure as so many observers assumed A deep look at the Midwest s history of conservative politics this timely volume reveals how conservative victories in state houses legislatures and national elections in the early twenty first century far from coming out of nowhere in fact had extensive roots across decades of political organization in the region Focusing on nine states from Iowa and the Dakotas to Indiana and Ohio the essays in this collection detail the rise of midwestern conservatism after World War II a trend that coincided with the transformation of the prewar Republican Party into the New Right This transformation the authors contend involved the Midwest and the Sunbelt states Through the lenses of race class gender and sexuality their essays explore the development of midwestern conservative politics in light of deindustrialization environmentalism second wave feminism mass incarceration privatization and debates over same sex marriage and abortion among other issues Together these essays map the region s complex patchwork of viable rural and urban areas variously subject to a wide array of conflicting interests and concerns the perspective they provide at once broad and in depth offers unique historical insight into the Midwest s political complexity and its status as the last real competitive battleground in presidential elections A Voice for Mothers Linda Bryder,2013-10-01 Covering the history of the Plunket Society from 1907 to the present day this book is organized around three dominant themes that contribute both to international historiography and to the social history of New Zealand These themes are the mixed economy of welfare maternal and infant health and motherhood and parenting Discussed in detail is how these three strands form an important contribution to New Zealand s social history In particular the public role of women as welfare providers maternal and child health provision and parenting roles and practices are examined An in depth study of the voluntary welfare system this book will be of interest to welfare historians women s studies historians social historians of medicine and government policy makers **The Best Country to Give Birth?** Linda Bryder,2023-11-09 In 2012 following his investigation of the deaths of two babies in childbirth at Waikato Hospital Hamilton coroner Gordon Matenga asked Does New Zealand have the safe world leading system the Government says we do or are we losing babies because the balance has swung too far towards the idea that because childbirth is natural then the philosophy of non intervention is best Babies deaths reignite maternity row the New Zealand Herald announced from the introduction by Linda Bryder Is New Zealand the best country to give birth Historian of medicine Linda Bryder explores how New Zealand developed a unique approach to the role of midwives in childbirth in the 1990s and analyses the consequences of that change for mothers and babies The Best Country to Give Birth traces the genesis of the 1990 Nurses Amendment Act which allowed

midwives to practise alone in the community back to the homebirth movement of the 1970s and explores the aftermath of the Act including the withdrawal of GPs from maternity care In investigating the consequences of the reforms it uncovers repeated criticism of services and what were deemed preventable deaths from coroners commissioners for health and disability other health professionals including some midwives academic researchers and parents and families How and why does maternity care in Aotearoa differ from other countries How has it shaped the equitable care of our mothers and babies Why have critical reports had so little impact This is a major historical account of an issue at the heart of our maternity care
