The Unidentified Colin Dickey, 2021-07-20 America's favorite cultural historian and author of *Ghostland* takes a thought provoking and deliciously unsettling Publisher's Weekly tour of the country's most persistent unexplained phenomena In a world where rational scientific explanations are more available than ever belief in the unprovable and irrational in fringe is on the rise from Atlantis to aliens from Flat Earth to the Loch Ness monster the list goes on It seems the more our maps of the known world get filled in the more we crave mysterious locations full of strange creatures Enter Colin Dickey Cultural Historian and Tour Guide of the Weird With the same curiosity and insight that made *Ghostland* a hit with readers and critics Colin looks at what all fringe beliefs have in common explaining that today's Illuminati is yesterday's Flat Earth the attempt to find meaning in a world stripped of wonder Dickey visits the wacky sites of America's wildest fringe beliefs from the famed Mount Shasta where the ancient race or extra terrestrials or possibly both depending on who you ask called Lemurians are said to roam to the museum containing the last remaining evidence of the great Kentucky Meat Shower investigating how these theories come about why they take hold and why as Americans we keep inventing and re-inventing them decade after decade *The Unidentified* is Colin Dickey at his best curious wry brilliant in his analysis yet eminently readable **Searching for Sasquatch** B. Regal, 2011-04-11 The first academic study of this subject is an entertaining look at the search for Sasquatch which considers not just the nature of monsters and monster hunting in the late 20th century but the more important relationship between the professional scientists and amateur naturalists who hunt them and their place in the history of science San Antonio San Antonio Express-News, 2015-10-19 On Sept 27 1865 the San Antonio Express News made its debut And from the beginning there was plenty to write about The Civil War had just concluded and it was only twenty nine years after the fall of the Alamo The Chisholm Trail the high road of the Cattle Kingdom began in San Antonio which was the largest and among the most diverse cities in Texas Spanish German and English were commonly spoken The politics were lively and sometimes divisive as the city was full of Unionist sympathizers in a state that was an anchor of the Confederacy Today 150 years later San Antonio is America's fastest growing big city and still making history San Antonio is a richly illustrated compilation of more than 150 years of coverage on the history and culture of the city as told in the pages of the San Antonio Express News From local politics to news stories on the military energy water use the border and immigration that reverberate nationally and internationally to the recent naming of San Antonio's five Spanish missions as a World Heritage site the city has always been a place where the American identity is forged This book tracks the city's past from 1865 until 2015 and is full of evocative pictures and compelling accounts culled from the Express News archives The collection celebrates companies that shaped the city such as Frost Bank which began extending credit in 1867 the Sisters of

Charity of the Incarnate Word founders in 1869 of what is now the Christus Santa Rosa Health System and subsequently their namesake university and H E B grocery This is not a standard civic history or a straightforward march through the decades Loosely organized by theme the stories in the collection are often quite often surprising just like San Antonio itself As anyone who has spent time in the city knows this is a place with a soul *Anthrax War* Bob Coen, Eric Nadler, 2010-04-06 An investigation into the 2001 U S anthrax attacks leads to the realization that a new and terrible arms race may soon be upon us one that spans the globe and is driven by an array of forces working with deadly microorganisms Penetrating what they regard as an international bioweapons mafia Bob Coen and Eric Nadler encounter scientists capitalists politicians and assassins all playing with the world s most dangerous germs Coen and Nadler pursue leads across four continents in an attempt to illuminate the secret world of international biological weapons research They probe the mysterious deaths of some of the world s leading germ war scientists including the death of Bruce Ivins the man the FBI controversially insists is the lone perpetrator of the anthrax attacks They also examine the suspicious suicide of British scientist and weapons inspector David Kelly who was found dead in the woods the same week U K officials killed an investigation into illegal human experimentation at the top secret facility where he once worked As the plot darkens it becomes clear that the 2001 anthrax attacks are a portal into a new and lucrative biomilitary industrial complex and one of the most frightening stories of our time
