Phantom Mountain Victor Appleton,2017-06-19 CHAPTER I A BAD PLACE FOR A FIRE Impossible Ned It can t be as much as

that Well you can prove the additions yourself Tom on one of the adding machines I ve been over em twice and get the same

result each time There are the figures They say figures don t lie though it doesn t follow that the opposite is true for those

who do not stick closely to the truth do sometimes figure But there you have it your financial statement for the year and Ned

Newton business manager for Tom Swift the talented young inventor shoved a mass of papers across the table to his friend

and chum as well as employer It doesn t seem possible Ned that we have made as much as that this past year And this as I

understand it doesn t include what was taken from the wreck of the Pandora Tom Swift looked questioningly at Ned Newton

who shook his head in answer You really didn t get anything to speak of out of your undersea search Tom replied the young

financial manager so I didn t include it But there s enough without that I should say so exclaimed Tom Whew he whistled I

didn t think I was worth that much Well you ve earned it every cent with the inventions of yourself and your father And I

might add that we wouldn t have half we earn if it wasn t for the shrewd way you look after us Ned said Tom with a warm

smile at his friend I appreciate the way you manage our affairs for though I have had some pretty good luck with my

searchlight wizard camera war tank and other contraptions I never would have been able to save any of the money they

brought in if it hadn t been for you Well that s what I m here for remarked Ned modestly I appreciate that began Tom Swift

And I want to say Ned But Tom did not say what he had started to He broke off suddenly and seemed to be listening to some

sound outside the room of his home where he and his financial and business manager were going over the year s statement

and accounting Ned too in spite of the fact that he had been busy going over figures adding up long columns checking

statements and giving the results to Tom had been aware in the last five minutes of an ever growing tumult in the street At

first it had been no more than the passage along the thoroughfare of an unusual number of pedestrians Ned had accounted

for it at first by the theory that some moving picture theater had finished the first performance and the people were hurrying

home But after he had finished his financial labors and had handed Tom the first of a series of statements to look over the

young financial expert began to realize that there was no moving picture house near Tom s home Consequently the passing

thongs could not be accounted for in that way Yet the tumult of feet grew in the highway outside Ned had begun to wonder if there had been an attempted burglary a fight or something like that calling for police action which had gathered an unusual throng that warm spring evening
