The elite culture of the twentieth century has left its mark on our current media landscape in the form of what Bolter calls popular modernism. Meanwhile, new forms of digital media have emerged and magnified these changes, offering new platforms for communication and expression. Bolter outlines a series of dichotomies that characterize our current media culture: catharsis and flow, the continuous rhythm of digital experience, remix fueled by the internet's vast resources for sampling and mixing, and originality, history not replayable and simulation endlessly replayable, and social media and coherent politics. *The Publishers Weekly*, 2007. **Tomb Raider Archives**.
