Drama and the Transfer of Power in Renaissance England Martin Wiggins, 2012-08-02 The state is at its most volatile when supreme power changes hands This book studies five such moments of transfer in the sixteenth and early seventeenth centuries from Henry VIII to the English Revolution paying particular attention to the political function and agency of drama in smoothing the transition Masques and civic pageants served as an art form by which incoming authority could declare its power and subjects could express their willing subordination to the new regime The book contains vivid case studies of these dramatic works some of which have never before been identified and the circumstances for which they were written the use of London street theatre in 1535 to promote Henry VIII's arrogation of Royal Supremacy the aggressively Protestant court masque of 1559 which marked the

accession of Elizabeth I and the censorship which resulted when the same mode of dramatic discourse spread to more plebeian stages the masques and entertainments of James I's initial year on the English throne through which the new Stuart dynasty asserted its legitimacy and individual courtiers made their bids for influence and the formal coronation entry to London furnished with dramatic pageants which London paid for but Charles I refused to undertake The final chapter describes how in 1642 a very different incoming regime planned to ignore drama altogether until some surprisingly contingent circumstances forced its hand

The Transfer of Knowledge through Art and Visualization Anna Ursyn, 2023-12-06 This book offers strategies for the transfer of knowledge through combining information technology and visual arts and examining how to visually enhance and convey knowledge Specifically it presents a fresh look at how technology based science inspired projects can be innovatively delivery through artistic methods It explores a selection of inventions gained through the collaboration of internationalist professionals in various fields of knowledge before outlining a new approach in how knowledge can be delivered using the inventions in a novel visual way through action based visual storytelling video graphical display and visualization Crucially it looks at how current media and techniques used for presenting topics in industries corporations commerce and marketing companies could be successfully translated and developed as a presentation skill in the school college or university environment It thus seeks to address the skills that prospective employers expect from students in terms of possessing the ability to create visual presentations of data solutions and products With a sharp focus on the current generation schools academies business and marketing companies and catering to the modern demand for novelty in presentation it makes a strong contribution to the conversation around professional collaboration visual communication knowledge transfer novel technologies and knowledge visualization

Effects of Game and Game-like Training on Neurocognitive Plasticity Guido P. H. Band, Chandramallika Basak, Heleen A. Slagter, Michelle W. Voss, 2016-05-17 Cognitive training is not always effective This is also the case for the form of cognitive training that this Research Topic focuses on prolonged performance on game like cognitive tasks The ultimate goal of this cognitive training is to improve ecologically valid target functions For example cognitive training should help children with ADHD to stay focused at school or help older adults to manage the complexity of daily life However so far this goal has proven too ambitious Transfer from trained to non trained tasks is not even guaranteed in a laboratory so there is a strong need for understanding how when and for how long cognitive training has effect Which cognitive functions are amenable to game training for whom and how Are there mediating factors for success such as motivation attention or age Are the improvements real or can they be attributed to nonspecific factors such as outcome expectancy or demand characteristics Are there better strategies to improve cognitive functions through game training This Research Topic of Frontiers in Human Neuroscience charts current insights in the determinants of success of game training

The Book of the Camp Fire Girls Camp Fire Girls, 1925 [Information Transfer](#) Malcolm Ward, 1991 **Is Two-Tier Health Care the**

Future? Colleen M. Flood, Bryan Thomas, 2020-04-28 Canadians are deeply worried about wait times for health care. Entrepreneurial doctors and private clinics are bringing Charter challenges to existing laws restrictive of a two tier system. They argue that Canada is an outlier among developed countries in limiting options to jump the queue. This book explores whether a two tier model is a solution. In *Is Two Tier Health Care the Future* leading researchers explore the public and private mix in Canada, Australia, Germany, France and Ireland. They explain the history and complexity of interactions between public and private funding of health care and the many regulations and policies found in different countries used to both inhibit and sometimes to encourage two tier care such as tax breaks. This edited collection provides critical evidence on the different approaches to regulating two tier care across different countries and what could work in Canada. This book is published in English.

The Play's the Thing Marina Jenkyns, 2006-10-19 Marina Jenkyns conveys the excitement of working therapeutically with dramatic text through a personal and highly readable analysis of plays from a variety of periods and cultures. Influenced by the theories of Winnicott and Klein, she lays bare the dynamics of relationships and plots to show how they can be used to help us understand our own relationships to each other and the world around us. This highly innovative text integrates therapeutic practice and literature in an engaging and challenging book which will hold the attention of a wide audience. This book contains new ideas for dramatherapy practice, theatre directors and teachers.
