Deathworlds to Lifeworlds Valerie Malhotra Bentz, James Marlatt, 2021-08-02 Deathworlds are places on planet earth that can no longer sustain life These are increasing rapidly We experience remnants of Deathworlds within our Lifeworlds for example traumatic echoes of war genocide oppression Many practices and policies directly or indirectly are Deathworld Making They undermine Lifeworlds contributing to community decline illnesses climate change and species extinction This book highlights the ways in which writing about and sharing meaningful experiences may lead to social and environmental justice practices decreasing Deathworld Making Phenomenology is a method which reveals the connection between personal suffering and the suffering of the planet earth and all its creatures Sharing can lead to collaborative relationships among strangers for social and environmental justice across barriers of culture politics and language Deathworlds into Lifeworlds wakes people up to how current economic and social forces are destroying life and communities on our planet as I have mapped in my work The chapters by scholars around the world in this powerful book testify to the pervasive consequences of the proliferation of Deathworld making and ways that collaboration across cultures can help move us forward Saskia Sassen is the Robert S Lynd Professor of Sociology at Columbia University and a Member of its Committee on Global Thought Recognizing the inseparability of experience consciousness environment and problematics in rebalancing life systems this book offers solutions from around the world Four Arrows aka Don Trent Jacobs author of *Sitting Bull s Words for A World in Crises* et al This unique book brings together 78 participants from 11 countries to reveal the ways in which phenomenology the study of consciousness and phenomena can lead to profound personal and social transformation Such transformation is especially powerful when Deathworlds physical or cultural places that no longer sustain life are transformed into lifeworlds through collaborative sharing even when or perhaps especially when the sharing is among strangers across different cultures The contributors share a truly wide range of human experiences from the death

of a child to ecological destruction in offering ways to affirm life in the face of what may seem to be hopeless death affirming challenges Richard P Appelbaum Ph D is Distinguished Research Professor Emeritus and former MacArthur Foundation Chair in Global and International Studies and Sociology at the University of California Santa Barbara He is also a founding Professor at Fielding Graduate University where he heads the doctoral concentration in Sustainability Leadership

Konecki, 2025-08-28 Understanding how the mind works can provide insight into the meaning of various feelings and emotions Rather than merely grasping empathy on an intellectual level we can experience how it functions and emerges By observing the mind we can uncover how social assumptions and prejudices later filter these reactions The book explores the interplay between mental processes bodily reactions and emotions Contemplating the foundations of suffering or empathy can enrich our understanding of the emotional dimensions of how we perceive the world Additionally many psycho social phenomena can be comprehended more deeply through critical contemplative inquiry from a first person perspective

Innovative Literacies to Develop Leadership and Agency: Inspiring Transformation and Hope Pinhasi-Vittorio, Limor, Ben-Yosef, Elite, 2023-03-27 The global pandemic has caused devastating social and economic disruptions worldwide. These circumstances have widened and deepened the inequalities of access to socio-economic and academic achievement for diverse groups. This new reality compels us to look for possibilities of developing leadership and agency that will lead to transformation and hope in our communities. One of the ways to implement change is through the use of literacy practices. Utilizing diverse and innovative literacy approaches can allow for better access to educational opportunities and promote critical thinking, a better understanding of the world, and an awareness of others and self. Using *Innovative Literacies to Develop Leadership and Agency: Inspiring Transformation and Hope* presents multiple innovative literacy approaches that promote self-leadership and agency for individuals and communities. The work included showcases practical field experiences supported by a theoretical framework. Covering topics such as spatial literacy, digital storytelling, art literacy, and self-leadership, this premier reference source is an essential resource for business leaders and executives, community leaders, faculty, and administrators of both K-12 and higher education, pre-service teachers, teacher educators, students of higher education, librarians, researchers, and academicians.

Within the text, new exemplar research chapters include the various qualitative methods: phenomenology, ethnography, grounded theory, case study, historical narrative, inquiry, and action research. This text continues to retain the combination of qualitative and quantitative methods in the same study while relying on the best qualitative researchers in the field to form an inclusive representation of qualitative research, including philosophical underpinnings, methods, exemplars, ethics, evaluation, and combining mixed methods. Interaction and Everyday Life Hisashi Nasu, Frances Chaput Waksler, 2012-08-17 Phenomenological sociology and ethnomethodology have many adherents and practitioners throughout the world. The international character of interest in these two areas is exemplified by the scholars from Canada, France, Germany, Japan, South Korea, Switzerland, and the United States who contributed to this collection. Together they exemplify the kinds of theoretical and research issues that arise in seeking to explore the social world in ways that respect what Edmund Husserl referred to as the original right of all data. These chapters were inspired in various ways by the work of George Psathas, professor emeritus of Boston University, a renowned phenomenological sociologist and ethnomethodologist, as well as a fundamental contributor to phenomenological sociology and ethnomethodology movements both in the United States and throughout the world. The collection consists of three parts: phenomenological sociology as an intellectual movement, phenomenological considerations, and ethnomethodological explorations. All areas to which Professor Psathas has made significant contributions. A phenomenological sociology movement in the US is examined as an intellectual movement in itself and as it is influenced by a leader's participation as both scholar

and teacher Phenomenological sociology's efficacy and potential are discussed in terms of a broad range of theoretical and empirical issues methodology similarities and differences between phenomenological sociology and ethnomethodology embodied sociality power trust friendship face to face interaction and interactions between children and adults Theoretical articles addressing fundamental features of ethnomethodology its development and its relation to process relational philosophy are balanced by empirical articles founded on authors original ethnomethodological research activities of direction giving and direction following accounts for organizational deviance garden lessons doing being friends and the crafting of musical time Through these chapters readers can come to understand the theoretical development of phenomenological sociology and ethnomethodology appreciate their achievements and their promise and find inspiration to pursue their own work in these areas
