Transforming East Asia Naoko Munakata, 2007-08-29 A Brookings Institution Press and the Research Institute of Economy Trade and Industry Japan publication East Asian economic integration is on the rise In the past decade all of the region's powers have begun negotiating free trade agreements with their neighbors They are also exploring broader regional options such as the creation of an East Asian summit or free trade area These developments have not always been welcomed by observers in other parts of the world Some fear that they mark a turn away from integration into the global economy and herald the emergence of a closed inward looking bloc In this timely and important book Naoko Munakata offers an alternative perspective based on her experience as an economic official and trade negotiator over the past 20 years East Asian integration she argues is not driven by defensiveness or anti Western sentiment Instead it reflects pragmatic calculations of economic interest as well as a desire for mutual trust and a sense of community Munakata makes her case by analyzing developments in the region since the mid 1980s highlighting such important factors as the evolution of Asia Pacific Economic Cooperation APEC the impact of the 1997-98 Asian financial crisis and the rise of China She also outlines possible future scenarios for the region and offers policy prescriptions for building on regionalism's achievements to date Over the coming decades the rise of China its relationship with Japan and the institutional arrangements that bind those countries to the United States and the countries of East and Southeast Asia will become critical factors in the global balance of power *Transforming East Asia* is essential reading for anyone seeking to understand the roots of this transformation [Handbook on East Asian Economic Integration](#) Kimura, Fukunari, Pangestu, Mari, Thangavelu, Shandre M., Findlay, Christopher, 2021-12-09 This comprehensive Handbook provides an in depth analysis of the nature of East Asian economic integration alongside thoughtful insights into contemporary issues such as agricultural development structural transformation and East Asian trade alongside skills and human capital development policies of ASEAN Contributors also provide detailed explanations on trade poverty and Aid for Trade institutional reforms regulatory reform and measuring integration [Regional Economic Integration in East Asia](#) Magdalena Suska, 2024-11-08 This interdisciplinary book analyses the regional economic integration and its institutionalisation that has been pursued in East Asia since the late 1990s and its far reaching impact for the entire region and beyond It presents the specificity and evolution of East Asia's economic integration as well as its outcomes in the form of an impressive number of FTAs concluded by East Asian countries The book also addresses the region's institutionalised regionalism of the 21st century embodied by the recent establishment of two mega regional institutions for trade and investment facilitation Comprehensive and Progressive Agreement for Trans Pacific Partnership CPTPP and Regional Comprehensive Economic Partnership RCEP analysing their economic potential and impact on East Asian economies as well as on regions including Europe Additionally the book offers a comprehensive analysis of integration theories providing political and economic theories of integration and related conceptual discussions which may

Multilateral Asian Security Architecture See Seng Tan, 2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia's multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN's significance to the successes and failures of Asia's multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia's regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally

Transition, Regional Development and Globalization Ken Morita,Yun Chen,2010 Pt I Analysis of transition 1 An analysis of determinants of regional disparities in China 2 A comparative analysis between postwar Japanese economic reforms and polish economic reforms in the 1990s 3 Key industries and development of industrial policies in Shanghai since the 1990s pt II International relations 4 Japanese foreign direct investments in central European transition economies 5 Development strategies and income disparities in China comparisons with central Europe 6 Consequences and trends of Japanese FDI in China and central Europe pt III Regional development and globalization 7 The economic development and regional disparity of the Yangtze River Delta 8 A political economy of East Asian authoritarian development system 9 Regional integration and path dependence on the relations among Europe the USA and East Asia *Japan's ASEAN Policy* Sueo Sudo,2016-05-13 The central puzzle in the study of Japanese foreign policy has been why Japan has continued to play a passive role in international affairs despite its impressive economic and political power Challenging this central puzzle the core argument of this study is to present an alternative path for the study of Japanese foreign policy In fact in recent years Japanese foreign policy has

become less dependent on the United States more strategic towards Asia and more energetic towards international and regional institutions One of the main features is multilateralism in Japanese foreign policy as shown by Japan's active participation in the regional institutions In pursuing multilateralism Japan cooperated closely with the only durable regional body in Southeast Asia to wit the Association of Southeast Asian Nations ASEAN Given the fact that East Asian regionalism has been driven by ASEAN it is of utmost urgency to investigate the emerging partnership between Japan and ASEAN The central thesis of this study is thus to put Japan's ASEAN policy into a proper perspective by asserting that Japan's new policy initiatives towards ASEAN are not reactive nor are they exceptions in a broader framework of merely reactive foreign policy
