Transforming Traditional Agriculture:

Transforming Traditional Agriculture Theodore William Schultz, 1964 **Transforming traditional agriculture** Theodore William Schultz, 1967 Asian Development William E. James, Seiji Naya, Gerald M. Meier, 1989 While the world's attention has been focused on the spectacular economic success of Japan and Korea the less developed countries of Asia have often been neglected Asian Development closes the gap In nontechnical style and with minimal mathematics it presents an in depth perspective on the economic development of fourteen countries in East Southeast and South Asia Asian Development is mainly a story of success Though some problems remain Asian countries have shown remarkable resilience in responding to sharp changes in the international economy oil shocks world recession and inflation exchange rate and interest rate fluctuations and rapid technological change The authors conclude that their ability to adjust to changing external conditions is closely related to intelligent governmental policies Looking back they comment In the past growth of the United States and Japan pulled up the growth rates of the smaller economies in the region Looking forward they predict In the future increasingly it will be the growth of the Asian developing countries that acts as a catalyst to growth in the more advanced economies Investing in People Theodore W. Schultz, Theodore William Schultz, 1982-01-01 Argues that healthy educated people are the world's most important resource and that the world's poor have not been adequately helped by foreign aid because of the misunderstandings of donor governments **Technological Transformation of Agriculture: A Study of Assam** M. P. Bezbaruah, 1994 **The Process of Economic Development** James M. Cypher, James L. Dietz, 2004 This textbook includes discussions of such topics as the environment the debt case export led industrialization import substitution industrialization growth theory and technological capability **Economic Transformation in Theory and Practice: What are the Messages for Africa?** Clemens Breisinger and Xinshen Diao, 2008 The Oxford Handbook of Structural Transformation Célestin Monga, Justin Yifu Lin, 2019 This Oxford Handbook provides a critical assessment of the history patterns and strategies of economic transformation It deals with major themes including policy issues illuminating country experiences and important debates on the respective roles of the market and the state Role of Research in Transforming Traditional Agriculture H. K. Jain, 1988 The increasing role of science Why genetic reconstruction Policy decisions for reorganization of agricultural research Impact of the new technology Sub Saharan countries and potential of agricultural research Strategy for scientific transformation of agriculture in Africa **Chinese Economic Development** Yinxing Hong, Ninghua Sun, 2021-07-08 The book provides a meticulous analysis of economic development and concomitant problems in China since the late 1970s and advances suggestions on further economic modernisation and transition from both theoretical and practical angles Based on theories from development economics and solid empirical studies the authors two renowned Chinese economists provide a perceptive analysis of the Chinese development model in the post Mao era They shed light on questions that have perplexed many How can China sustain the rapid growth of the past 40 years Is there a

unique China path to economic progress They argue compellingly that China's development model has to switch from a manufacturing driven one to a brand new approach centring on scientific and technical innovation and the integration of its existing economic structure into an increasingly complex global economy Such transformation will help overcome the middle income trap while addressing other institutional and economic challenges The book will appeal to students scholars and policymakers interested in the Chinese and global economies as well as transnational studies in the post COVID 19 world General readers willing to obtain a grasp of Chinese economic development from the insider's perspective will also find it useful

India's Persistent Dilemma F. Tomasson Jannuzi, 2019-03-07 This book shows that the failure of successive Indian governments to effect meaningful agrarian reforms has led to a political economy in rural India that is shaped as it was prior to independence largely by the interests of an elite minority of landholders

Poverty in Contemporary Economic Thought Mats Lundahl, Daniel Rauhut, Neelambar Hatti, 2021-04-29 Poverty in Contemporary Economic Thought aims to describe and critically examine how economic thought deals with poverty including its causes consequences reduction and abolition This edited volume traces the ideas of key writers and schools of modern economic thought across a significant period ranging from Friedrich Hayek and Keynes to latter day economists like Amartya Sen and Angus Deaton The chapters relate poverty to income distribution asserting the point that poverty is not always conceived of in absolute terms but that relative and social deprivation matters also Furthermore the contributors deal with both individual poverty and the poverty of nations in the context of the international economy In providing such a thorough exploration this book shows that the approach to poverty differs from economist to economist depending on their particular interests and the main issues related to poverty in each epoch as well as the influence of the intellectual climate that prevailed at the time when the contribution was made This key text is valuable reading for advanced students and researchers of the history of economic thought economic development and the economics of poverty

[The Nobel Memorial Laureates in Economics](#)

Howard R. Vane, Chris Mulhearn, 2005 this book will continue to share shelf space next to my current textbooks As a librarian

such utility makes this a desirable addition to any educator's collection. As a history of economic thought book, Vane and Mulhearn have brought together a breadth of information that can be found through disparate sources but at a cost of effort and especially for students' qualitative decisions regarding sources. The convenience of their starting methodology, breadth over depth coverage, and clear intention of writing to an audience of students makes this a useful text.

Kirk Douglas Johnson
Journal of the History of Economic Thought

The essays summarizing the main achievements of the prize winners are well written and to the point. They are short enough that they never cause the reader to lose interest but substantive enough to let you know what the winners' accomplishments amount to. These compact, factually accurate essays mark the real value of the book as a reference work; there is little for which to fault the authors. Vane and Mulhearn have done a very nice job with the book, and it is an added bonus that it includes a formal portrait photograph of each prize winner.

Bradley W. Bateman
History of Political Economy

Vane and Mulhearn have produced a useful reference work.

John Quiggin
Economic Analysis and Policy

This collection has the capacity to surprise the reader. You learn all sorts of new and sometimes admirable things about these economists and about the richness of the profession that is often obscured from students of the subject.

John Lodewijks
History of Economics Review

This volume provides a non-technical description of the main published works of every Nobel Memorial Economics winner from the first annual award in 1969 to 2004. This is a reference book par excellence; it will interest not only those having some involvement with economics past or present but it should also attract more general readers wanting to unravel some of the mysteries surrounding economics and economists.

Economic Outlook and Business Review

Vane and Mulhearn have produced an introduction to the careers and major publications of the 55 economists awarded the Bank of Sweden Prize in Economic Sciences in Memory of Alfred Nobel between 1969 and 2004. The short essays on each economist are readable and accurate; they provide a discussion of the subjects' major contributions and an introduction to the secondary literature, often with the outstanding reports on the laureates' work provided to the Economic Prize Committee of the Royal Swedish Academy of Sciences. The collection is introduced with a review of the prize and the common characteristics of the winners; thus far, all neatly summarized in a table with each laureate's year and country of birth, university, year of first and higher degrees, affiliation at the time of the award, field of study, and a summary citation. This volume provides a very useful introduction to the development of economic ideas in the last three quarters of the 20th century.

Highly recommended.

D. E. Moggridge
Choice

Every serious research economist will want to have a look at this comprehensive work.

Edwin Burmeister
Research Professor of Economics, Duke University, US

The award of the Nobel Prize has for more than thirty years been economists' way of informing the public at large about what work most of them think is important and about who has done it. Anyone seeking to understand the development of recent economic ideas and the profession that has created them must deal with the Prize's history, and Vane and Mulhearn have provided an indispensable guide to it: brief, readable, and accurate.
