Democracy as Death Jason Hickel, 2015-02-25 The revolution that brought the African National Congress ANC to power in South Africa was fractured by internal conflict Migrant workers from rural Zululand rejected many of the egalitarian values and policies fundamental to the ANC's liberal democratic platform and organized themselves in an attempt to sabotage the movement This anti democracy stance which persists today as a direct critique of freedom in neoliberal South Africa hinges on an idealized vision of the rural home and a hierarchical social order crafted in part by the technologies of colonial governance over the past century In analyzing this conflict Jason Hickel contributes to broad theoretical debates about liberalism and democratization in the postcolonial world *Democracy as Death* interrogates the Western ideals of individual freedom and agency from the perspective of those who oppose such ideals and questions the assumptions underpinning theories of anti liberal movements The book argues that both democracy and the political science that attempts to explain resistance to it presuppose a model of personhood native to Western capitalism which may not operate cross culturally

New South African Review 4 Devan Pillay, Gilbert M Khadiagala, Prishani Naidoo, Roger Southall, 2014-04-01 A series of essays taking an account of the milestones of South African democracy in order to give a multidimensional perspective of South Africa The death of Nelson Mandela on 5 December 2013 was in a sense a wake up call for South Africans and a time to reflect on what has been achieved since those magnificent days in late April 1994 as the editors of this volume put it when South Africans of all colours voted for the first time in a democratic election In a time of recall and reflection it is important to take account not only of the dramatic events that grip the headlines but also of other signposts that indicate the shape and characteristics of a society The New South African Review looks every year at some of these signposts and the essays in this fourth volume of the series again examine and analyse a broad spectrum of issues affecting the country They tackle topics as diverse as the state of organised labour food retailing electricity generation access to information civil courage the school system and looking outside the country to its place in the world South Africa's relationships with north east Asia with Israel and with its neighbours in the southern African region Taken together these essays give a multidimensional perspective on South Africa's democracy as it turns twenty and will be of interest to general readers while being particularly useful to students and researchers
