Ubiquitous Translation Piotr Blumczynski, 2016-06-23

In this book, Piotr Blumczynski explores the central role of translation as a key epistemological concept as well as a hermeneutic, ethical, linguistic and interpersonal practice. His argument is three-fold: 1. that translation provides a basis for genuine, exciting, serious, innovative and meaningful exchange between various areas of the humanities through both a concept (the WHAT) and a method (the HOW); 2. that in doing so, it questions and challenges many of the traditional boundaries and offers a transdisciplinary epistemological paradigm leading to a new understanding of quality and thus also meaning, truth and knowledge; and 3. that translational phenomena

are studied by a broad range of disciplines in the humanities including philosophy theology linguistics and anthropology using various often seemingly unrelated concepts which nevertheless display a considerable degree of qualitative proximity The common thread running through all these convictions and binding them together is the insistence that translational phenomena are ubiquitous Because of its unconventional and innovative approach this book will be of interest to translation studies scholars looking to situate their research within a broader transdisciplinary model as well as to students of translation programs and practicing translators who seek a fuller understanding of why and how translation matters

Voices of Women Writers Elena Anna Spagnuolo, 2023-10-10 This book investigates the practice of writing and self translating phenomenon of self translation within the context of mobility through the analysis of a corpus of narratives written by authors who were born in Italy and then moved to English speaking countries Emphasizing writing and self translating As practices which exists in conjunction with a process of redefinition of identity the book illustrates how these authors use language to negotiate and voice their identity in trans migratory contexts Translator, Touretter: Avant-Garde Translation and the Touretter Sublime Douglas Robinson, 2024-07-01 Experimental translation has been surging in popularity recently with avant garde translation at the combative forefront But how to do it How to read it Translator Touretter plays on the Italian dictum traduttore traditore translator traitor to mobilize the affective intensity of Tourettic tics as a practical guide to making and reading avant garde translations It smashes the theoretical literature on the sublime from Longinus to Kant into Motherless Brooklyn both the 1999 novel by Jonathan Lethem and its 2019 screen adaptation by Edward Norton in order to generate out of their collision a series of models visual aural oral and kinesthetic for avant garde literary translation

Against World Literature Emily Apter, 2014-06-17 Against World Literature On the Politics of Untranslatability argues for a rethinking of comparative literature focusing on the problems that emerge when large scale paradigms of literary studies ignore the politics of the Untranslatable the realm of those words that are continually retranslated mistranslated transferred from language to language or especially resistant to substitution In the place of World Literature a dominant paradigm in the humanities one grounded in market driven notions of readability and universal appeal Apter proposes a plurality of world literatures oriented around philosophical concepts and geopolitical pressure points The history and theory of the language that constructs World Literature is critically examined with a special focus on Weltliteratur literary world systems narrative ecosystems language borders and checkpoints theologies of translation and planetary devolution in a book set to revolutionize the discipline of comparative literature **Self-Translation** Anthony Cordingley, 2013-01-03 A study of the multilingual cultural contexts and the hybrid identities created when writers self translate Translation and Stylistic Variation Helen Gibson, 2023-09-01 Translation and Stylistic Variation Dialect and Heteroglossia in Northern Irish Poetic Translation considers the ways in which translators use stylistic variation analysing the works of three Northern Irish poet translators to look at how in this variety the translation process becomes a creative act by which translators can explore their

own linguistic and cultural heritage The volume offers a holistic portrait of the use of linguistic variety dialect and heteroglossia in the literary translations of Seamus Heaney Ciaran Carson and Tom Paulin shedding light on the translators choices but also readers experiences of them Drawing on work from cognitive stylistics Gibson reflects on how and why translators choose to add linguistic variety and how these choices can often be traced back to their socio cultural context The book not only extends existing scholarship on Irish English literary translation to examine issues unique to Northern Ireland but also raises broader questions about translation in locations where language choice is fraught and political The volume makes the case for giving increased consideration to the role of the individual translator both for insights into personal choices and a more nuanced understanding of contemporary literary translation practices in Ireland and beyond This book will be of interest to scholars working in translation studies literary studies and Irish studies For a video recording of the book s BCLT launch visit <https://www.youtube.com/watch?v=857wTF8crUM>

Bridging the Gap between Theory and Practice in Translation and Gender Studies Vanessa Leonardi, 2013-11-13 The aim of this work is to share information on two very interesting yet debatable issues within the field of Translation Studies namely gender and translation in an attempt to bridge the gap between theory and practice Given the important relationship between translation and gender since the beginning of the theoretical debate in Feminist Translation Studies the aim of this edited volume is to determine and analyse how this relationship has been approached in different countries not only in Europe but also worldwide Feminist translation is undoubtedly a very interesting and widespread phenomenon which includes and combines questions of language culture gender identity and sexual equality Feminist Translation Studies has established itself as a solid field of research and practice in many countries and its purpose is to reverse the subordinate role of both women and translators in society by challenging and fighting against what is perceived as patriarchal language There are still numerous issues that can be taken into account when focusing on translation and gender and this volume intends to be part of a wider discussion on Translation Studies The volume intends to outline how scholars in various contexts have approached the question of gender and translation the use misuse of the term feminist translation the problematic issue of bridging the gap between theory and practice and to open a new discussion on this field of research which we believe is still a very interesting one to exploit

Translingual Creative Writing Theory, Practice, and Pedagogy Jennifer Quist, 2025-05-15 In a challenge to monolingual Anglophone dominated creative writing workshops this book explores why and how students multilingual backgrounds and lack of fluency with the English language can emerge as assets rather than impediments to artistry and creativity Grounded in the Chinese tradition of Daoism as an ongoing discourse this exploration uses rigorous academic readings of the philosophical text the Zhuangzi as an analytical framework and takes a translingual approach to writing where translation and composition intersect inscribing one language upon another within a single text With concepts that resist expression such as inspiration uncertainty non knowing spontaneity unity forgetting the self and the perfection behind

the imperfection of language Jennifer Quist demonstrates how Daoism's theories and metalanguage can re-imagine creative writing education whilst de-naturalizing the authority of English and Euro-American literary traditions With analytical lenses derived from East Asia given context through translations of Chinese educators primary accounts of the history and theory of postsecondary creative writing education in 21st century China Quist develops a method for examining the practices of exemplary translingual writers from China Japan and their diasporas Featuring translingual writing prompts and practices for individual or classroom use by students at all levels of multilingualism *Translingual Creative Writing Theory Practice and Pedagogy* opens up the current workshop model and discloses the possibilities of linguistic transcendence for instructors and students With writing strategies based in cross-cultural collaboration and balanced with de-Anglicization of creative writing pedagogy this book calls to rework the structures methods and metaphors of the workshop and presents ideas for more collaborative collective equitable diverse and inclusive programs

Persian Linguistics in Cultural Contexts Alireza Korangy, Farzad Sharifian, 2020-10-29 Korangy and Sharifian's groundbreaking book offers the first in-depth study into cultural linguistics for the Persian language The book highlights a multitude of angles through which the intricacies of Persian and its many dialects and accents wherever spoken can be examined Linguistics with cultural studies as its backdrop is not a new phenomenon however with this text we are afforded an insight into the complex relationship that exists between human cognizance and human expression in this ancient civilization This study helps develop an innovative understanding of history intent and meaning as understood by a culture and by a people in this case the Persian-speaking folk of Iran The chapters are insightful resources for analyzing and augmenting our knowledge of linguistics under the rubric of Persian culture but also for proposing and foregrounding new ideas in this field of study

Reflexive Translation Studies Silvia Kadiu, 2019-04-08 In the past decades translation studies have increasingly focused on the ethical dimension of translational activity with an emphasis on reflexivity to assert the role of the researcher in highlighting issues of visibility creativity and ethics In *Reflexive Translation Studies* Silvia Kadiu investigates the viability of theories that seek to empower translation by making visible its transformative dimension for example by championing the visibility of the translating subject the translator's right to creativity the supremacy of human translation or an autonomous study of translation Inspired by Derrida's deconstructive thinking Kadiu presents practical ways of challenging theories that argue reflexivity is the only way of developing an ethical translation She questions the capacity of reflexivity to counteract the power relations at play in translation between minor and dominant languages for example and problematises affirmative claims about self-knowledge by using translation itself as a process of critical reflection In exploring the interaction between form and content *Reflexive Translation Studies* promotes the need for an experimental multi-sensory and intuitive practice which invites students scholars and practitioners alike to engage with theory productively and creatively through translation
